NEW-YORK TRIBUNE.

Later from Rio Janeiro—Report of the Markets.

From the Baltimore American, 4th.

The bark R H Douglass, Capt Norvelle, arrived at this port yesterday afternoon in thirty-four days from Rio de Janeiro. By her we have Rio dates to the 29th of July.

Intelligence had been received at Rio of the signing of a treaty at Buenos Ayres, between the French Admiral and the Buenos Ayrean Government, which it was confidently believed would put a stop to the war in the Banda Oriental.

The fever had almost entirely ceased to exist at Rio, and the departure of the pestilence had given quite an impetus to the business of the city.

RIO DE JANEIRO July 27.

BREADSTUFFS—The shipments since our last circular reach 15,918 bbls, of which 15,618 bbls are from the U. States. The stock in first hands having become a good deal reduced a few weeks since, the attention of speculators was called to the article, and they took nearly or quite all in first hands at 18$750@19$000 ₱ bbl for Richmond City Mills. The stock now in first hands is confined to recent importations and is held at 20$000@22$000 ₱ bbl for Richmond City Mills and 17$000@18$000 ₱ bbl for Baltimore—the former prices for large parcels and the latter by retail.

There is, however, hardly anything selling, and we perhaps give outside quotations. In all hands the stock may be 37,000 bbls. Dates from Pernambuco to 15th inst report stock 5,600 bbls retailing at 18$000 ₱ bbl for Baltimore and 19$000 for Galleon and Trieste. At Bahia 12th inst. stock received to 8,000 bbls Richmond City Mills, worth 18$500@19$000 ₱ bbl. Baltimore in good request for mixing. Rio Grande advices to 1st inst. Stock of Hazall reduced to 1,500 bbls. Sales making at 19$000@20$000 ₱ bbl. Arrived 2,637 bbls Baltimore, selling at 17$000 cash and 17$500@18$000 ₱ bbl credit. At Montevideo 5th inst. stock estimated at 7,200 bbls and bags. Quotations—$7½@8 ₱ lb, in bond.

COFFEE—The receipts during the past month have been very limited, and although the shipments have been unusually small, no stock has been permitted to accumulate. From this cause, combined with rather more favorable accounts from Europe, prices have rallied here, and may now be considered 400@500 per arroba above the lowest point reached. There is no superior Coffee in market, but those so classed may be quoted 3$700@3$800; while for mixed lots, of very indifferent selection, 3$500 has been paid. Good first we quote 3$400@3$500. The stock in market does not exceed 6,000 bags.

The shipments to the United States for the last four months, as compared with the same four months of last year will show a deficiency of upward of 90,000 bags, while it is worthy of remark that the shipments for the four months of last year, referred to, were very moderate. It is doubtful if the crop of Coffee of this country ever reached in any one year, 1,500,000 bags. In the crop year of 1847-48 the shipments reached 1,867,728 bags, but these shipments embraced more or less Coffee of three years crops. We have now entered the month of July we may say with scarcely a bag of old Coffee in the country, and the crop from which we are to be supplied for the next twelve months is known to be short below the mountains; while such samples of the upland Coffee as have reached us are of so small a bean, we fear a considerable falling off there also. If then we allow 400,000 bags as the crop of the present year, and estimate 100,000 bags as shipped prior to the 1st July, we are left with 1,300,000 bags of the present crop, to which we may add 100,000 bags from the next crop, making the possible shipments within the present crop year 1,400,000 bags.

HIDES.—The market continues almost bare of light weight ps for the small lot of this description. River Plate 205r ₱ lb is asked. No light weight Rio Grande in market. Stock about 70,000. We quote heavy 170r ₱ lb. At Rio Grande last inst. Hides were very scarce and prices firm at last quotations. Buenos Ayres advices to 31 inst. quote Hides 10½c ₱ lb with Specie and 8½@9½c more with Exchange.

FREIGHT.—Little or nothing offering for the United States. Late rates 60@70c and 50c per bag. To Europe, we quote £1 15s@£2 17s.

THURSDAY, Sept. 5—P. M.

In Stocks the market is without marked change, with a fair business doing. The market was heavy at the First Board for Erie and Erie securities, but afterward improved. The market for Reading was firm. The sales of Governments are to small extent, and the quotations are heavy.

In Exchanges there is not much doing, and the quotations are without change. Sterling is 10@10¼. France, 5 22½@5 21¼.

The market for Freights is rather heavy, with a moderate business doing. Engagements of 5,000 or 7,000 bbls Flour at 1s 8d@1s 9d; 500 bales Cotton at 3-16d@7-32d; Dead Weight, 15@17s 6d. To Havre the packet of the 20th is nearly full at ⅛c—To California the rates are 50@70 ₱ cent. Engagements, 300 tuns Coal at $20. To Glasgow, 1,000 bbls Flour were taken at 1s 9d.

There is more activity in the Money market, and the rates are working upward. The advance of the season has increased the demand for money, and the combined efforts of lenders have resulted in about 1⅛ ₱ cent. advance. The Banks are generally up to their limit in discounts.

Mr. Snowden, of the Philadelphia Mint, telegraphs that he will be over here to-morrow morning and pay out a million and a half in coin on Mint certificates up to No. 4,700 inclusive.

The arrival of the Washington has increased the payments for duties. The amount to day paid into the Sub-Treasury is $125,112; Payments, $2,586; Balance, $7,324,024.

As we suspected, the figures we published yesterday, from the Custom House books, as the Imports for August, were erroneous, being too much by about a million of dollars. We re-publish the statement, with the proper corrections:

IMPORTS AT NEW-YORK—AUGUST.

	1848	1849.	1850.
Dutiable mdse	$9,796,778	$11,551,050	$8,034,284
Free "	1,128,555	767,648	246,219
Specie and bullion	158,655	60,739	3,457,684
Total	$11,084,183	$12,332,422	$ 2,738,217

		$13,829,713	$14,454,272
Entered for Warehouse		$605,541	$1,743,211

The receipts of specie and bullion, it will be seen, are very large, and include some of the California imports. The Imports, compared with those of last month, are as follows:

	July.	August
Dutiable mdse	$16,591,448	$9,034,284
Free "	499,572	246,219
Specie and Bullion	1,927,768	3,457,684
Total	$ 9,018,766	$12,738,217
Withdrawn from Warehouse	944,127	1,716,055
	$10,962,793	$14,454,272
Entered for Warehouse	$2,155,520	$1,743,211

The entries of merchandise in August were only $10,996,588, against $18,035,065 in July.

A very favorable condition of traffic is shown by the receipts of the Albany and Schenectady Railroad:

For the month of August, 1850, they were	$20,114 97
For August, 1849	13,996 74
Increase, this year, (nearly 50 ₱ ct.)	$6,118 23

The business of the Road for the first four days of the present month, September, was very large. The State Fair brings an immense concourse of people over the Road. Over 5,000 persons were carried over the Road on Wednesday, 4th inst.

The freight business in August shows a very large increase on any previous corresponding month, being over 120 ₱ cent. larger than in August 1849, and promises still larger results during the remaining months of the year.

In regard to the Commercial Bank of New-Jersey, we are requested to state that the Directors are personally liable for all their circulation, and that the notes are bought by all the Brokers at ¼ ₱ cent. discount. The notes of five dollars and upward, we are informed, are received on deposit by the Banks of this City.

Directions have been issued by the Secretary of the Treasury that all powers of Attorneys Certificates, &c. in foreign languages, relative to the collection of interest and transfer of U. S. Stock, will hereafter be translated at the office of the Assistant Treasurer, the expense of the translation to be defrayed by the Attorneys.

A new Bank has been established in this State, called the Citizens' Bank of Watertown. J. C Dunn has been elected President and H. A. Dunn Cashier.

It is stated, we don't know upon what authority, that the Committee of the Legislature, who have recently been making an examination of the premises, with a view to the question of building a bridge at Rouse's Point, for the accommodation of the Vermont and Canada and Ogdensburg Railroads, have come to a decision adverse to building the bridge.

The Northern Liberties Gas Company declare a dividend of 5 ₱ cent. for the last six months.... The Pennsylvania Fire Insurance Company declare a dividend of $10 ₱ share for six months, payable the 12th inst.

At Philadelphia there is some inquiry for money. At one or two of the largest Banks, on the last discount day, more than double the amount of the current income was asked for, and we believe at all the Banks more of what is called first-class paper is offering than the Banks feel free to discount.—The street rate is 7@9 ₱ cent. for first-class paper, while that on more doubtful security, cannot be done at less than 1@1½ ₱ cent. per month.

The *Baltimore Sun* acknowledges the receipt of some further information from Havre de Grace, and regrets to say that it sees nothing yet to cheer the note-holder in the prospect of obtaining more than a moiety of the purported value of their promises to pay. Thomas C. Hopkins, President of this remnant of a Bank, and James T. Sullivan, J. Hake, and Charles T. A. Cole, the Havre de Grace Directors, have published a card, in which they state that they are investigating its affairs, but stop short to make the following brief but significant statement:

"They have ascertained, greatly to their regret and surprise, that the Cashier of the Bank, without the knowledge or consent of the Director or any of the Directors, has given to two persons—one in New-York and one in Ohio—the sum of $45,000 since the 24th of May last; $25,000 of which sum was given by the Cashier to the persons within less than the last two months before the stoppage of the Bank. This large sum was given to the persons referred to in the notes of the Bank, and these notes coming in produced the failure."

The persons here alluded to as having received the notes from the Cashier were Charles Hood, Attorney, of New-York, and John Jenkins of Ohio, the former receiving $25,000 and the latter $20,000. With regard to these secretly-circulated notes, the President and Directors remark:

"The undersigned have taken as energetic measures as they can to recover the money thus improperly abstracted from the Bank. If they should be successful in the recovery, then all the liabilities of the Bank they think will be met. The books of the institution will as soon as practicable be thoroughly examined, and a minute account of its condition submitted to the creditors and stockholders."

From this it would seem that they place their whole dependence on the recovery of the money for these notes, thus circulated, which appear to have been received by the parties named without any acknowledgment except an agreement to return what they failed to circulate. The statement of the Directors concludes as follows:

"This brief statement will show the direct cause of the stoppage, and it will be seen, too, that it was brought about by events of which the undersigned not only had no knowledge, but could not know, until the abstracted bank notes came back on them for redemption."

The correspondent of *The Sun* promises some more astonishing developments in the course of a few days. E. Collier, the Cashier, is still in Belair jail, having been arrested on a charge of obtaining money under false pretenses, in the default of $1,500 bail.

Two railroad routes are now being surveyed to extend from Sandwhich to Hyannis and Yarmouth Port. One of these passes through West Barnstable, and the other over Scorton Hills and across the Marshpee plantations. The first named route is about 18 miles in length, and the other about 15.

The *Philadelphia Ledger* says: There is yet no certain news as to the extent of damage done to the road by the freshet; it is variously estimated at a loss of from seven to twelve days time and an outlay of $15,000 to $30,000 for the repair of bridges. These drawbacks being considered light as against the advantages of a monopoly of the Schuylkill trade for six or eight weeks, if not the remainder of the season, the shares and bonds of the Company are actively speculated in for a rise. The common loans of the Navigation Company further declined 10 ₱ cent, selling as low as 39½; on the dollar at the second board. Union Canal is also down, owing as well to some $10,000 damage to its own work as to the damage to the Schuylkill, with which it connects below Reading.

The reports of the damage to the Schuylkill Navigation works are still vague, and the real state of the case will not probably be understood for several days to come. It is by no means certain that the line will be stopped for the balance of the season.

Markets....CAREFULLY REPORTED FOR THE TRIBUNE.

THURSDAY, September 5

ASHES—Are firm, and the sales are 8 19@8 25 for Pots, $6 for Pearls.

COTTON—The market is buoyant and the demand good. Sales 2,000 bales at an advance of ¼@⅛c since the steamer.

FLOUR AND MEAL—In Flour the market is rather easier, particularly for new. The sales are 8,500 bbls domestic at 4 19@4 31 for common and small State, 4 50@4 75 for new State and Western, $5@5 37½ for pure Genesee, including new, No 2 is 4 50@4 75. The market for Canadian is heavy, with sales 400 bbls at private terms. In Southern the market is heavy, with fair business. The sales are 1,200 bbls at $5@5 25 for old, 5 37½@5 50 for new brands. Meal is quiet, with sales 700 bbls inferior Western at 2 50. Rye Flour is rather heavy. Sales 300 bbls at 2 77½@2 94.

GRAIN—The Wheat market is active but at lower rates. Sales 9,000 bush good Genesee at 110c. 7,000 fair to prime Ohio at 9@100c. The Corn market is without marked change, but firmer at the close. The sales are 25,000 bush at 59@60c for mixed, which is the only kind in the market. Rye is firmer but unsettled. Sales 4,000 bushels at 71@72c. Oats remain unchanged at 41@43c for fair and good.

PROVISIONS—In Pork the market is rather easier, with sales 100 bbls at 6 19@6 25 for Prime, 10 25 for Mess. Country Beef is in good enough demand, with sales 200 bbls at 7 50@8 for Mess, $5@5 50 for ₱ time. Beef Hams are dull at $12. In Lard there is a good inquiry for manufacturing. Sales 1,500 bbls and tcs at 8½@7c, the latter for prime. In Cut Meats the sales are 300 bbls dry shoulders and Hams at 3¾@4c and 5½c, showing an improvement in Shoulders. In Butter and Cheese there is no change.

OILS—There is a trade demand to a fair extent at 76@78c for English and American Linseed. Whale is dull.

LEAD—Is less firm, and we notice sales 400 tuns soft Spanish at 4 37½, cash, and 1,500 pigs hard Galena at 4 4½, cash.

IRON—Is 19 25, cash and 20 25, 6 mos, for Scotch, with sales 200 tuns.

HEMP—Is in fair request, and American dew-rotted sells at $117 50@$125 per ton in the trade.

GROCERIES—Sugars are scarcely so firm, but Molasses and Coffee are held at full prices.

SALT—Two cargoes of St Martins and Anguilla sold at previous rates.

TOBACCO—There is some speculative movement in consequence of the advices from Virginia, and 100 hhds Kentucky sold at 8¼@8c. In manufactured there is a good business doing. Foreign grades are quiet.

NUTMEGS—Small sales of No. 1 are making at 1 12½@1 15c.

WHISKY—Is lower and the demand fair. Sales 200 bbls at 16½@17c. Drudge is 20c nominal.

By Telegraph

Markets....BALTIMORE, Sept. 5.

Not much doing in our market. City Mills and Howard-st. FLOUR is unchanged. Red WHEAT sells at $1 per bush.

Markets....PITTSBURGH, Sept 5.

The River measures 3½ feet. FREIGHTS to Cincinnati are 30c. Business is getting brisk.

California Markets.

From the Alta California, July 31.

BREADSTUFFS—Since our last, by the Tennessee on the 15th, Flour has run up, without however, any extensive sales, but the arrival being to some extent large, it has fallen back, so that our quotations vary but little from those quoted in the last Price Current, and we now consider the market in favor of the purchaser, as there appears to be danger of a scarcity. Barley is not active. Other articles of Breadstuffs are nominal.

LUMBER—The arrivals have been considerable, and sales are made at all matter of prices. One assorted cargo was sold at $42 ₱ M; clear 1½ in 2 inch plank has been sold at $125@$140, in moderate lots, while 1½ inch has sold at $100.

Plank for whaling has also gone off at fair rates. Shingles and lath are extremely dull.

BRICKS—The arrivals keeping pace with the demand, no change of importance to notice.

LIME AND CEMENT—Sales are required at quotations; the market very firm.

CANDLES—There are more buyers than sellers at our quotations; the market very firm.

CIGARS—Sales quite considerable.

COALS—The market pretty well supplied; steady.

CHINA FANCY GOODS—A sale of very beautiful fancy dry goods, shawls, silks &c was made a day or two since. The shawls sold well—the silks and some other articles not satisfactory, as but few lots were duplicated.

BOOTS, SHOES and CLOTHING rather easier in price.

BROWN SHEETINGS have been sold from 17 to 2 c.

LIQUORS—Every description of Spirits are still firm, but of the kinds in general use, sales to considerable extent have been made at quotations.

PRESERVED MEATS dull of sale. Oysters in good demand.

PROVISIONS in fair request, but no speculative movement, as the stock is fair.

PAINTS AND OILS—In good request.

PICKLES are plenty.

PRESERVES—Brandy fruits, &c. in fair request at our quotations.

SUGAR—A large sale of China Brown Sugar, ranking to about equal to a good bright Havana, sold at from 7¼ to 7¾c at auction by Backus & Harrison. Loaf crushed and ground white is steady at 10c.

COFFEE—A moderate supply, at about quotations.

SPICES—All kinds in request.

STATIONERY—Including blanks of all kinds; in good demand; stock increasing.

TEAS—In moderate request.

FURNITURE—Has declined, the immediate wants being soon what supplied.

OIL CLOTHS—More plenty, and lower.

The market closes with a less spirited demand, which, in some measure, is to be attributed to the recent troubles at the mines. Our prices, it will be seen, are lower in many articles, and but few at an advance; there is at the same time no want of confidence for the future. No important change in Real Estate—out of town lots are rather dull.

Money is from 5@7 ₱ cent per month—Gold Dust 16@16½. No alteration in Exchange.

FREIGHTS—About the same, if any change rather lower.

Many goods arrive in bad order, owing to want of sufficient care in the putting up; and quantities are ruined from the sweating of the vessels partially loaded with lumber—these are generally closed at auction.

The California Market.

SAN FRANCISCO, Tuesday, July 30.

The market opened with much briskness; it is no longer glutted with scarcely any commodity, and many of the most prominent articles have a tendency upward, and show firmness; this is particularly the case with flour—Holders have this day been asking an advance on the prices of last week.

A large cargo sale was made yesterday at auction by Mr W H V. Cronise. The sale went off with great spirit and the articles generally brought a handsome advance on the invoice price. We subjoin an abstract of the principal articles of this sale, which will give as good an idea of the state of the market as anything we could offer.

Sales at Auction by W. H. V. Cronise.
