CITY OF NEW YORK.

BOARD OF ESTIMATE AND APPORTIONMENT.

Public notice is hereby given that at a meeting of the Board of Estimate and Apportionment, held September 18, 1908, the following petition was received:

TO THE HONORABLE THE BOARD OF ESTIMATE AND APPORTIONMENT:

The petition of the Third Avenue Railroad Company respectfully shows, on information and belief, as follows:

First: That your petitioner is a street surface railroad company, organized and existing under the laws of the State of New York, having filed its Articles of Association in the office of the Secretary of State on the 8th day of October 1853, and for many years has owned and operated a double track street surface railroad for the carriage of passengers in the Borough of Manhattan, City of New York, from the City Hall, in said City, along Park Row, Bowery, and Third Avenue, to the Harlem River; along One Hundred and Twenty-fifth Street and Manhattan Street, from East River to North River, and from One Hundred and Twenty-fifth Street, along Amsterdam Avenue to the northerly terminus thereof at Fort George, at or near the intersection of Fort George Avenue, using the underground system of electrical traction as motive power.

Second: That the City of New York is now constructing two bridges and approaches in said City, the first known as the Manhattan Bridge, which extends from the Bowery at or near Canal Street, in Manhattan Borough, along a viaduct approach, in said Borough, to and across the East River by bridge, and then [illegible] along a viaduct or approach to Sands Street, in the Borough of Brooklyn; the second known as the Blackwell's Island Bridge, which extends from 59th Street and Second Avenue in the Borough of Manhattan, along a viaduct approach in said borough to and across the East River and Blackwell's Island by bridge, and thence along a viaduct or approach in the Borough of Queens to Jackson Avenue, Long Island City. Each of said bridges is to be constructed for the operation of street surface cars, by an underground current of electricity, with appropriate terminals.

Third: That your petitioner, for the convenience of public travel, proposes to extend its railroad to and upon each of said bridges and the approaches thereto by the construction and operation of separate branches or extensions, by an underground current of electricity, upon the following described routes:

(a) Beginning at the double track road on the Bowery, at or near Canal Street, in the Borough of Manhattan, owned by the petitioner and connecting therewith; running thence easterly with double tracks in, upon and along the westerly approach to said bridge in the Borough of Manhattan; thence upon, over, across and along said Manhattan Bridge, and thence in, upon and along the easterly approach to said bridge, in the Borough of Brooklyn, to the terminal plaza, at or near Sands Street, in said Borough. The total length thereof is Sixty-five Hundred feet.

(b) Beginning at the double track road on Third Avenue at the intersection of Fifty-eighth Street, Borough of Manhattan, owned by the petitioner, and connecting therewith; running thence easterly with a single track in, upon and along Fifty-eighth Street to Second Avenue; thence northerly in, upon and along Second Avenue to a point of connection with the tracks on Blackwell's Island Bridge, and its approach, at or near Fifty-ninth Street and northerly thereof; thence with double tracks easterly in, upon and along the westerly bridge approach, thence upon, over, across and along said bridge; thence in, upon and along the easterly bridge approach in the Borough of Queens, to the terminal at or near Jackson Avenue, in Long Island City, in said Borough. And also, beginning at the petitioner's double track road on Third Avenue, at the intersection of Sixtieth Street, and connecting therewith; running thence easterly with a single track in, upon and along Sixtieth Street to, along and across Second Avenue to a point of connection with the double tracks on said Blackwell's Island Bridge, and its westerly approach, in this paragraph described. The total length thereof is Ninety-six Hundred feet.

Fourth: Your petitioner is advised that separate consents of your Honorable Body must be first obtained to permit of the operation in said streets and avenues, and over each of said Bridges and their approaches, and hereby applies for the consent of the Board of Estimate and Apportionment to, and a grant of, franchises or rights for the maintenance and operation of branches or extensions of its railroad, for public use in the conveyance of persons and property for compensation, upon each of the routes in the City of New York above described.

Wherefore, your petitioner prays that public notice of such application for said consents, franchises or rights, and of the time and place when and where the same will be first considered, be given, as required by law, and that consents, franchises or rights be granted by the Board for the construction, maintenance and operation of each of said branches or extensions, in accordance with the provisions of the Greater New York Charter and of the Railroad Law of the State of New York.
