## BUFFALO & SUSQUEHANNA RAILROAD COMPANY

First Refunding Four Per Cent. Gold Mortgage Bonds.

**To the Holders of Bonds of the Above Issue:**

The number of the undersigned Committee having been increased from five to seven, and a vacancy having occurred, Messrs. Jacob S. Farlee, Charles Lathrop Pack, and Edward B. Smith have become members of the Committee and Messrs. Simpson, Thacher & Bartlett of New York have been elected counsel.

The Committee has been informed that coupons on the above named bonds maturing July 1st, 1910, will not be paid. Upon this default your interests require the prompt and careful determination of the action to be taken, in view of the existing lease to the Buffalo & Susquehanna Railway Company, under which payment of the principal and interest of your bonds is guaranteed, and in view of the existing receivership of the property of the lessee company in foreclosure proceedings. If it is determined to move the Trustee of your mortgage to institute foreclosure proceedings at once, the Trustee will undoubtedly require as a condition of bringing such proceedings appropriate indemnity, and may require a request on behalf of a large proportion of the bondholders.

These considerations lead the Committee to again bring the matter to the attention of such of you as have not already deposited your bonds, and suggest that they should promptly deposit them, under the deposit agreement dated May 4, 1910, with THE EQUITABLE TRUST COMPANY OF NEW YORK, 15 Nassau Street, New York City, GIRARD TRUST COMPANY, corner Broad and Chestnut Streets, Philadelphia; OLD COLONY TRUST COMPANY, 1 Court Street, Boston, or THE CLEVELAND TRUST COMPANY, corner Euclid Avenue and Ninth Street, Cleveland. Transferable certificates of deposit will be issued for all bonds so deposited.

Dated June 28, 1910.

## Gas Bonds

The gas industry is one of the oldest in the country, the first company having been chartered about fifteen years before the completion of the first steam railroad. The bonds of gas companies have a record of safety extending over a period of nearly one hundred years, which is not surpassed even by that of municipal bonds.

Under conditions existing in the larger cities gas has become a practical necessity, the demand being constant and certain. The business is operated upon the broad foundation of a small profit from many customers rather than a large profit from a few. During the last ten years the use of gas for cooking and heating has been a source of great income to the gas companies, and has opened up a new field of almost unlimited expanse.

From the standpoint of the investor the bonds of gas companies have the further advantage of returning a higher yield than can be secured on high grade railroad bonds. We would be glad to consult with investors desiring conservative investments and returning an attractive yield. Subject to sale we offer the following issues:
