PHILADELPHIA.

Jenny Lind Swindled—Fire, &c. &c.

Correspondence of The Tribune

PHILADELPHIA, Friday, June 13.

It appears that M'lle. Jenny Lind was swindled on Wednesday last, most outrageously.—She was unable to have prepared in time, a new set of tickets for her first independent concert, and was compelled to use some belonging to Mr. Barnum.—Well, a speculator of your City having understood that the tickets used were the same as a large number he had in his possession, sent his on and sold them. The consequence was, that the Hall was crowded to excess, and M'lle. Lind was cheated out of about $600.

Jenny was never so popular in this city as she is at present. Every ticket for this evening's concert was sold by noon yesterday. The price of her tickets is placed at an uniform rate of three dollars, but to-day holders are selling them at six, seven and eight dollars per ticket; and before night, it is not improbable that fifteen or twenty dollars may be obtained for them.

During the week ending yesterday, 22,076 tuns of coal were shipped by Schuylkill Canal, and 22,612 were transported by Reading Railroad.

A fire hook and ladder apparatus will be brought to Philadelphia from your city on Wednesday next. It is intended for the "Empire," a recently organized company.

In BARK no sales have been reported. The FLOUR market has undergone no change. The export demand is limited and only a few hundred bbls standard brands sold for shipment at 4 12½ ⅌ bbl. Sales in lots for the supply of the City dealers at 4 12½@4 25 for common and select brands, and 4 37½@4 75 for extra. Small sales of RYE FLOUR at 3 37½. CORN MEAL is in better demand and several lots sold at 2 75 ⅌ bbl. The market is poorly supplied with WHEAT. We quote good and prime Pennsylvania white at 1 62@1 63, and red at 90@97 cts. RYE is scarce and in demand at 71 cents ⅌ bushel. CORN continues to come in slowly. Sales of yellow afloat at 61@61½ cents. OATS are in better demand and 4,000 bushels Pennsylvania in store sold at 43 cents. WHISKY continues to command 21@22 cents in hhds and 21 cents in bbls.

KENTUCKY AHEAD OF THE UNION!—FEMALE VOTERS!—A late law in Kentucky, which, in part, reads as follows, gives women, under certain restrictions, the right to vote:

"It shall be the duty of all the qualified voters in each School District, (widows having children of the proper age included,) or such as may attend on the first Saturday in April, in each year, to meet at their School-house, or other place, and to elect three School Trustees, to superintend," &c.

We hope the Woman's Right Society will properly appreciate this evidence of gallantry on the part of the Legislature of one State.

☞ The *Chicago Journal* states, that those who arrived by the Queen City, on Friday evening, were but fifty-two hours from New-York city. And yet an individual, before the boat reached the landing, made desperate attempts to get off, by climbing over the guards. Fifty-two hours from New-York, and yet the man was in a hurry!

☞ The annealing house of the Plymouth (Mass) Mills was destroyed by fire on the 11th inst. Loss about $3,000; partially insured.

FRIDAY, June 13—P. M.

The Stock market has been moderately active to-day, with considerable fluctuation. Reading continues the stock of most interest and exhibited the usual changes. Opening at 57 it ran rapidly up to 59, and at the Second Board settled back to 58½, showing a decline of ¼ ⅌ cent from yesterday. Our advices from Boston are to the effect that the combination there continues in fact and that the present condition of the market is not the result of accident. Still the reaction may possibly take the control of the market out of their hands, and break the whole movement. Harlem was firm, and at the close 76¼ was bid, showing an improvement of ¼ ⅌ cent. The receipts of June are considerably in advance of those of May, thus far, and promise to reach $50,000 for the month, which is beyond the estimate upon which a 2½ ⅌ cent. dividend is predicated. Long Island improved at the close to 20. Erie is rather heavy, and closed at 86¼, with considerable activity. Stonington is heavy. Norwich is steady. Government and State Stocks are in fair demand and firmly held.

There is a very moderate business doing in Exchanges, but the market is firm. Sterling 10½@10¾ for sixty-day bills, and 11¼ for sight. Francs, 5.10@5.07½.

Freights are heavy for Cotton but buoyant for Breadstuffs. Corn is held at 5d. with very little room offering. Engagements Cotton at ⅝d. 7,000 bbls. Flour 15@16d. 100 tuns deal weight 128. 6d.@13s. 500 Oars and Handspikes at 1d. ⅌ foot and 1½d. each. To Havre the packet has 400 bales Cotton ⅞c., 16,000 lbs. Whalebone 1c., and 100 bbls. Ashes $6. To the Continent the market is very dull. To London, 1,000 bbls. Flour 2s., 250 tcs. Beef 4s, and Dead weight 25@30s. To California the rates tend downward. The engagements at 2,000 or 3,000 bbls. at 35 to 60c. ⅌ foot.

The amount received at the Sub-Treasury is $78,095; paid, $16,229; balance, $2,371,109. The balance is increasing at this depository, in anticipation of the payment of the semi-annual interest on the public debt.

An election of Directors of the Albany and Schenectady Railroad was held on Wednesday last, and resulted as follows: E. C. McIntosh, R. H. King, G. Y. Lansing, Lyman Chapin, H. Pumpelly, Aug. James, J. T. Norton, R. H. Winslow, Thos. Tileston. E. C. McIntosh was unanimously elected President, in place of John T. Norton, resigned. G. Y. Lansing, Vice-President. E. C. McIntosh, G. Y. Lansing and R. H. King, Finance Committee. The business of the Road continues to show a remarkable degree of prosperity. The receipts of the first five months of the year, during a portion of which time the fares have been reduced, are as annexed:

1851	$80,932 28
1850	66,725 53
Increase—about 22 ⅌ cent	$14,196 75

The traffic of June shows a large increase. The gain in the first seven days, $788, as compared with the same period of last year, equal to about 280 passengers per day.

The steamer, to-morrow, will take some $200,000 in coin, and the two steamers next week probably a million and a half. These shipments produce no effect upon the Money market, the confidence of moneyed men being unimpaired in the continuance of the increasing supplies of gold from California and in the large receipts of coin by immigrants from Europe. There is a difference of opinion in regard to the amount of gold which we must yet ship, but the general impression is that the drain will be materially checked by the last of July. During the remainder of this month and in July considerable amounts of dividends and about $800,000 of Mexican Indemnity will be sent abroad, which will increase to that amount the usual demand. We are glad to learn from some of the leading importers that the orders for Goods this Fall will be lighter than usual, as the importing business of last Fall and Spring has in many instances resulted in heavy losses. The supplies of foreign goods have been in excess of the consumption and the stocks remaining have only to be worked off at considerable sacrifice. The losers will be not over anxious to order largely for the Fall trade. The accounts from Europe confirm the impression that the amount of goods sent to America, either under orders or on manufacturers account, will be comparatively moderate. It is also thought that some over shipments of coin have been made to American credit and that a portion of the gold thus accumulated will be returned. It is known that considerable amounts of the Coin which we have sent abroad this year have been sold in the European seaports to emigrants and thus returned immediately to this country. The amounts which come into the country in the pockets of emigrants cannot be ascertained, but they must be very large, as a very considerable proportion of the shipments of the year have been in foreign coin. The returns of the Mint also show that the influx of gold has been such as not only to amply supply the demand for export but to leave a large surplus. The deposits at Philadelphia and New-Orleans in the first five months of the year have been $23,700,000 against $12,063,000 in same period of last year and the coinage has been over $25,000,000. The exports in the meantime have been about $13,000,000, from which must be deducted imports other than from California, probably amounting to $2,000,000.—There must consequently be a large amount of gold added to the supply in the country in addition to the amount of coin brought in by emigration. We notice that $200,000 in coin has arrived at Pittsburg from the West for New-York.

The annexed resolution was passed by the Directors of the Rochester and Syracuse Road on the 4th inst.

Resolved, That new or additional Stock of this Company be hereby created on the first day of August next, to the amount of fifteen hundred thousand dollars, to be divided into shares of one hundred dollars each, and that the same be distributed *pro rata*, as near as may be, among the respective shareholders of this Company, according to the number of full shares held by them on the twenty-first day of July next, who shall on the first day of August next, or within twenty days thereafter, pay to the Treasurer of this Company the sum of ten dollars on each share of additional stock to which they may be severally entitled. The certificates for such shares shall be issued on the payment of the said sum of ten dollars per share, and on the condition that the balance of the stock shall be paid on such installments as may be required by the Directors, and that on failure to pay any such installment, all the stock so in arrear shall be forfeited to the use of the Company. Interest shall be assessed and paid to the holders of the new stock herein provided for, on the sums paid in thereon, from time to time, until the said stock shall be made full.

The *Express* has the following statistics of the Commerce of the United States compiled from the books of the Department at Washington:

FROM CUSTOMS.

Comparative Statement of Receipts from Customs, exclusive of Oregon and California, for 1850-'51.

From 1st July, 1849, to 31st March, 1850	$29,818,848*	
From 1st April, 1850, to 9th June, 1850	6,823,985	
		$36,642,833
From 1st July, to March 31st, 1851	$36,737,486	
From 1st April to 9th June, 1851	7,644,648	
		$44,382,134
Increase		$7,739,301

*One or two reports to come in may vary this a fraction.

The California revenues from imports, which will go into the present fiscal year account, for the first time since the independence of that State, will exceed two millions of dollars. They were about one million for the first half of the last fiscal year.

RECEIPTS FROM LANDS.

From 1st July, 1850, to 31st May, 1851.

Quarter ending 30th September, 1850	$317,082 96
" 31st December, 1850	604,307 80
" 31st March, 1851	827,076 79
	1,748,467 75
From April 1st to May 31st, 1851	303,035 87
Total	$2,051,503 62

The estimates of the Secretary of the Treasury were that the revenues would possibly reach $45,000,000, and the Commissioner of the Land Office based his calculations upon an estimated receipt of $1,900,000, whereas they will reach, notwithstanding all the consumption from the Land Bounties, to about TWO MILLIONS FIVE HUNDRED THOUSAND DOLLARS.

The Vermont Valley Railroad, extending from Brattleborough to Bellows Falls, will be open for public use on Monday, the 23d inst. The road forms an auxiliary to the Rutland, Vermont and Massachusetts, Sullivan and Passumpsi Railroads, and affords all the northern lines direct facilities for intercommunication with New-York City.

The amount of Government 5 per cents. to be paid off on the 9th August inst., is $503,573 92.

The Toledo and Cleveland Road will be in operation from Toledo to Fremont next Spring, and twenty-five miles more to Grafton, where it intersects the Cleveland and Columbus Road, have just been located.

The *Buffalo Commercial Advertiser*, says: There has been hauled at this port from the commencement of the present year to June 10, 482,957 bbls Flour, 850,408 bush Wheat, 1,784,419 bush Corn, and 268,461 bush Oats; and this in a period something short of three months.

During a period of one month and twenty-five days canal navigation, there has been shipped from this point by canal, 111,201 bbls Flour, 731,751 bush Wheat, 1,318,688 bush Corn, and about 230,000 bush Oats.

A careful estimate made up from reliable data, shows the amount of breadstuffs on hand here yesterday to be about 100,000 bbls flour, 280,000 bush wheat, and 270,000 bush corn, being equal in wheat and flour to 136,000 bush of the latter. This is a smaller amount than we had supposed had accumulated, judging from the unprecedented dullness of our market and the wide difference between buyers and sellers, which has been its ruling feature during the entire Spring.

The annexed statement shows the Custom Dry Goods transactions for the week ending June 12, viz:

Markets....CAREFULLY REPORTED FOR THE TRIBUNE.

FRIDAY, June 13.

ASHES—The market is steady, with a fair demand for Pots at $5, and Pearls at $ 80. Sales of 100 bbls.

COTTON—Is easier. The demand is principally for the lower grades by spinners, who have taken 100 bales.

FLOUR AND MEAL—Our market for the low grades of State and Western Flour is again lower. There is rather more doing in the inferior grades for export, but less for the East and City trade. Prices for the medium and better grades are quite nominal, and the sales making are in retail lots at our quotations. Western is freely offered and is less saleable than State. The receipts continue far in excess of the demand, and the stock accumulates. Old is pressed on the market and is selling at 3 75@3 81, in small lots. Canadian is lower and is less active. About 1,200 bbls changed hands at 4@4 06, in bond. The sales of Domestic reach 8,500 bbls at 3 50@3 75 for Sour; 3 62½@3 69 for No. 2 Superfine; 3 81@3 87 for Michigan and Indiana; 3 87½@3 94 for State; $4 06 is for round hoop Ohio; 4 12½@4 37½ for Fancy Ohio; 4 25@4 37½ for Pure Genesee; 4 44@5 06 for Extra Ohio; 4 50@4 87½ for Fancy Genesee; and 4 87½@5 for Extra Genesee. Southern is dull and lower, with quite a limited demand for the trade and for export. About 700 bbls sold at 4 12½@4 44 for mixed to good Strait brands; and 4 75@5 75 for Fancy. Rye Flour is quiet at 3 37. Corn Meal is steady. Sales of 150 bbls at $2 for Jersey, and 2 75 for State.

GRAIN.—There is limited demand for domestic Wheat, for milling, but at prices below the views of holders. Canadian is in fair demand for export, and is easier. Sales of 5,700 bush at 90@94 for Red to good Mixed. Rye is again lower and in moderate request. Sales of 2,500 bush at 76c. Oats are less plenty, but are dull. Sales of Ohio and State at 45@46c, and Jersey at 44@45c. Corn is again a shade lower, with more offering; the demand is almost entirely for export, and the want of vessels restricts the sales in part. About 50,000 bush changed hands at 58@59c for heated; 55c for Western in store; 59@60c for do delivered; 58c for Southern Yellow; 55c for Round Yellow; and 54@55c for Southern White, the latter very scarce.

WHISKY—A better market; sales 150 bbls Ohio and Prison at 22½c, and 50 hhds Drudge at 22c, and now hold higher.

PROVISIONS—There is only a retail demand for Pork, and the market is steady. About 300 bbls sold in small lots at 14 37½@14 44 for new Mess, and $13 for do Prime. Old is dull and nominal. Beef is very dull and heavy; sales of 100 bbls at 6 62½@$11 for Mess, and $6@$6 for Prime. Cut Meats are dull at 7@8c for Hams, and 6½c for Shoulders.—Beef Hams are dull at 14 50. Lard is heavy; sales of 300 bbls at 8@8½c. The receipts are large. Butter and Cheese are without change to note.

GROCERIES—The markets are dull but steady. The receipts of Sugars are generally stored, holders being very firm; 500 hhds Cuba Muscovados sold at 5½@6c; 1,200 boxes brown Havana at 5½@7c; New-Orleans are out of market, none offering. Molasses are dull but firm, 100 hhds Cuba Muscovado sold in lots at 24@26c; 200 hhds Clayed Cuba at 21½c; New-Orleans barrels are scarce. Coffee is dull, but steady; 500 bags Java sold at 11¼@11½c; 2,500 Rio at 9½@9½c; and 500 bags St. Domingo at 7½c, cash; Laguayra in lots at 9@9½c, and Maracaibo at 9½c.

OILS—Linseed is steady, but rather looking up; 30,000 gallons have sold in lots from store at 73c in casks, and 75c in bbls, and from ship at 71c, which is an advance of 1 cent.

LEATHER—The receipts are good for the season, and are adding to the supply stock, which till lately has been very low. Prices are a shade easier, extreme quotations not being insisted on. The demand is slack.

HIDES—Are quiet and heavy, with a large stock, over 65,000. The sales the last three days are 4,000 Orinoco, 20½ lbs, at 12c; 6 mos, 7,000 Barcelona, 21 lbs, at 11c; 1,424 Dry Salted California, 27½ lbs, at 9½c; 1,000 Wet Salted ditto at 7c; 3,000 Cumana, 21 lbs, at 11½c.

FISH—Is moderately active, and prices are rather lower; 2,000 quintals Dry Cod sold at $2@2 12½ for common, and $2 25@2 50 for St. George's Bank; 1,000 bbls No. 3 Massachusetts Mackerel sold at 4 62½@$5. Fat Mackerel are dull and nominally without change.

Receipts of Produce.

By the North River Boats—Friday, June 13.—12,278 bbls Flour, 169 do Whisky, 170 do Ashes, 700 bags Cut Meats, 197 do Pork, 17,700 bushels Oats, 10,200 do Wheat, 6,735 do Rye, 42,012 do Corn.
