PATENT ZINC PAINTS, as Manufactured by the New-Jersey Exploring and Mining Company, for sale by the quantity only.

WHITE ZINC PAINTS.—The No. 1 quality, ground in either oil, spirits of turpentine, or in varnish, (which gives the beautiful porcelain finish so much admired,) is whiter than the purest white lead, is free from all foreign impurities, and destitute of the unpleasant smell and poisonous properties of lead paints.

The Nos. 2 and 3 qualities are in all respects like the No. 1, except they are not quite so white; they come at lower prices, and are well adapted to outside work.

The dry white oxide of Zinc mixed with water and a little size, makes a brilliant and lasting white coating for walls and ceilings.

A suitable dryer is prepared for the paint, and it is in all other respects used like white lead, except that it should not be quite so much thinned down with oil.

DARK BROWN AND RED ZINC PAINTS.—These are furnished at a low price, and are undoubtedly the cheapest and best paints in the market; they are invaluable for tin roofs and exteriors of all kinds, being a perfect protection against oxydation; upon wooden surfaces they are also a valuable protection against fire.

These Zinc Paints, having a pure metallic base, are warranted not to turn yellow, and will retain their original brilliance much longer than white lead or any of the earthy pigments now in use.

The attention of dealers is requested by the Company's general agents.

BABBITT'S SOAP POWDER.—Ladies who are interested in dispensing with the slavish Washing Day, and those who wish to accomplish the washing for ten persons with the simple cost of Ten Cents, will please read this. This article is called B. T. BABBITT'S SOAP POWDER, it being reduced to a powder renders very much cheaper than in any other form. Far superior to twenty-five percent of water in a concentrated state, otherwise it would not hold together. While Babbitt's is reduced to powder and contains more washing material than any other article in the world, and does not lose in weight like the soap by standing; if bar soap stands in the open air one year it will lose from twenty-five to thirty per cent—of course this loss must be water and nothing else; therefore it cannot be washing material. Babbitt has had applications from all parts of the country for the exclusive right for selling, but as yet has sold no exclusive rights. The average sales are about two and a half tuns per day. A deduction is made by the ten boxes or ten per cent.; five boxes, five per cent. All infringers will be rigidly prosecuted, which are ten in number at the time. Everything in the shape of washing without labor was unknown until BABBITT advertised—then the whole world was set in commotion to evade BABBITT'S PATENT SOAP POWDER, but as yet nothing concerns except one man, and he dare not manufacture in consequence of the patent. BABBITT'S SOAP POWDER sell leads on, and producing as it goes astonishing satisfaction. No one dispenses with the use of it, after they have once used it; no bad smell is found in the clothes after washing as some soaps do. It is put up in nearly proof papers, with directions for use printed on each package. The best way to use it for washing is to follow the strict direction on the paper for using the powder direct for all white clothes. For coloured clothes follow the directions for making into soft soap, which requires no more labor and is far more cleanlier. Soft soap requires no more labor and is far more cleanlier. Most of those who use it put a small quantity of the powder or soap in dish water, which removes all the grease at once, and will remove everything that any other soap in the world will do.

The clothes do not require boiling after the first direction is followed to make them white—this saves much time and labor. It has been used nearly two years, and it is found clothes last more than twice as long, because they are not rubbed to pieces as they are when a washboard is used. No washing soda is required. The retail price is twelve and a half cents. There is much in trying it, because it is a new article, and it is the interest of every one to try anything that will lessen the labor of washing. Any one can see the operation tried at any grocery in this place. Manufactured at 68 and 70 Washington-st. in New-York City. Any country dealer or country merchant can order through any wholesale merchant in New-York, and get as cheap as by apply to the factory direct. Any person in the Cities of New-York and Brooklyn can have a single box sent to them at the cost of six and a quarter cents, by sending to the factory, 70 Washington-st., or have the grocery send it for you. A box contains sixty papers; half box thirty-six papers. General depot for the sale of BABBITT'S SOAP POWDER at EARLE & CO., 50 and 70 Washington-st., New-York. Proprietors, J. E. EARLE, B. T.
