NEW-YORK TRIBUNE.

Commercial Matters Continued from Fifth Page.

The day's business at the Sub-Treasury was as follows: Receipts, $133,000; payments, $127,040 26; balance, $2,594,839 69.

The Money market was better supplied, and upon Stock loans there was little difficulty in borrowing at 7 ₩ cent. There was an increased demand for paper, but as the Banks are yet, for the most part, unwilling to increase their discounts, rates are kept up, good paper selling at 8 to 12 ₩ ct.

The export of Specie has been checked, and will not probably be renewed, as the importations are lighter, and for the Fall trade mostly provided for.

The recent large decline in Stocks has brought out large cash orders, this has materially eased the market. The speculative Stocks are now much better held than for many months past.

It is understood that the Sub-Treasury will, within a few days, disburse a large amount of coin. A million and a half is the amount named. This payment is connected with Mexican awards or indemnity, as it is to be made in advance of the stipulated period. The Sub-Treasury will thus be depleted. This, with the current disbursements of the Government, will prevent any considerable accumulation of coin in that quarter.

We understand that the Eastern Banks, feeling aggrieved at the arbitrary course pursued by the Suffolk Bank, have it in contemplation to take measures for the establishment of a new Institution at Boston, to take the place of the 'Regulator.' The plan is said to be, that every Bank now contributing its $3,000 to the Suffolk, shall invest that sum as the basis of the capital stock of the new Bank, which will manage affairs on a liberal system of accommodation. The complaints against the Suffolk Bank relate to its system of deposits without interest, delays, abuses in the foreign money department, neglect in entering Bank credits, &c. The movement now on foot will be likely to effect a change in some of these particulars. The metropolitan war on the agencies of country Banks continues. Some specie was sent up to Albany to-day, and small quantities are forwarded daily.

The New-York and New-Haven Railroad Company have declared a dividend of $3 50 per share on the Capital Stock, payable 15th inst.

The City Bank of Brooklyn has declared a dividend of 3½ ₩ cent., payable 12th inst.

The capital of the Bank of Newburg has been increased $60,000, by the appropriation of that amount of its surplus. A further increase of $100,000 is to be made in September, by the issue of the new stock to that amount, in shares of $25 each. The amount now on deposit in the Banks at Newburg is $282,677 08.

The Subscription Books of the City Bank at Hartford were closed on the 6th inst., the sum of $2,012,000, or more than four times the amount of the entire capital of the Bank, having been subscribed.

A failure of a Market-st. dry goods house in Philadelphia, engaged in the Western trade, is announced. The liabilities are stated at $300,000 to $400,000.

Prices have improved in the Philadelphia Stock market. The negotiation of paper is still difficult, and the best cannot be obtained under 12 ₩ cent.

The receipts on the line of the Morris Canal, for the week ending on the 2d inst., were $5,240 13—drawback $613 63—leaving $4,626 50 net, against $1,266 54 for the corresponding week last year. This shows a handsome increase.

The Treasurer of the Vermont Central Railroad has notified the stockholders of the condition of the Corporation, in order to correct any erroneous reports. The entire line from Windsor to Rouse's Point is finished, and paid for, and a communication established that will permit a car to pass from Ogdensburg or Montreal, to Boston or New-York, without unloading.'

The floating debt of the Corporation amounted, on the first of July, to	$814,529 75
The assets of the Corporation, applicable to the extinguishment of this, consisting of cash, notes of hand, and stocks at the valuation of the committee of finance, were equal to	550,548 55
Leaving a floating debt of	$263,981 20

Beside this, there is a bonded debt, part of which comes due in about a year, but which, with the balance of the floating debt, will be funded, arrangements for which will be submitted to the shareholders at their annual meeting, and leave the income of the road free for dividends hereafter.

The Hornellsville Railroad is progressing rapidly, and it is the intention of the Company to complete it by the 1st of January. There is to be an independent track, of six feet guage, from Buffalo to Hornellsville.

The business of the Galena and Chicago Railroad is in a flourishing condition. The receipts for the last three months are as follows:

	1851.	1850.	Increase.
May	$14,338 23	$10,641 06	$3,724 17
June	16,627 68	9,748 93	6,874 75
July	16,650 67	9,335 25	7,315 42
Total	$47,616 58	$20,798 24	$17,918 34

The extension of the Baltimore and Ohio Railroad to Parkersburg, and thence to Cincinnati, has been determined upon by the City Council of Baltimore. A Committee has been appointed to petition the Legislature for the passage of an act, empowering the city to subscribe $1,500,000 to the stock of the Company.

The iron on the Western section of the Toledo, Norwalk, and Cleveland Railroad, will be laid down during the coming Winter and Spring.

Markets.....CAREFULLY REPORTED FOR THE TRIBUNE.

FRIDAY, August 8.

ASHES—The market is steady, with a fair demand at 5 00 for Pots, and 5 50 for Pearls, with sales of 150 bbls.

COTTON—The market is much better; 2,500 bales have been sold, and some at a slight advance.

FLOUR AND MEAL—There is less firmness in Ohio Flour, with more offering; holders are more willing sellers for all descriptions, and, in some instances, at a slight abatement in prices. The supply is still large, rather in excess of the demand. The inquiry is principally for export; the home trade buying only for their immediate wants. The interior grades are still scarce and firmer, with a good export inquiry. Canadian is steady. Sales of 1,200 bbls. at 4 12½ in bond. The sales of Domestic reach 16,400 bbls. at $3 25 44 for unsuspected; 3 50@3 62½ for Spun; 3 50@3 68½ for No. 2; 3 87½@4 for Michigan and Indiana; 3 94 @4 for State; $4@4 06 for Ohio; 4 06@4 12½ for pure Genesee; 4 12½@4 31 for Fancy Ohio; 4 18@4 37½ for Fancy Genesee; 4 50@5 50 for Extra Ohio, and 4 75@5 50 for Extra Genesee. GRAIN—There is more doing in Wheat, prices favoring the buyer slightly. The demand is good for export. We notice a very superior lot of new White Maryland, in fine shipping order, taken for Liverpool at 86c. Canadian is steady, and in fair request. The sales are 13,000 bus. Ohio, at 84@86c.; 12,000 good to handsome White Canadian at 83c. @$1; 4,000 bus. prime White Southern at 86c., and 3,500 bus. good Southern Red at 83c. Rye is a shade better. HEMP is inactive. The stock of American is held firmly above market rates. The supply is 10,000 bales less than last year; but this year's Hemp proves of better quality than then. 50 bales fine dressed Hemp, American dewretted, sold at $175, and 10 bales, in two lots, $180. Foreign Hemp is inactive.

HIDES are without change. Buenos Ayres and Orinoco of desirable weight are scarce and wanted, and prices firm. Other Hides are in large supply and unsalable; quotations only nominal. 2,000 Orinoco sold at 17c. six months, and 2,300 Savanillas and Carthagenas on private terms. The stock is 76,000.

To Mariners.

BEACONS IN THE BAY OF FUNDY.—The St. John Courier states that Mr. John Murray, branch pilot, has placed beacons upon several headlands on the New-Brunswick side.

On Half-way Point, about 8 miles from Partridge Island, between Negro-Head and Musquash-Head, a white horizontal stripe, about 3 feet broad, and which shows about 40 feet long.

Split-Rock, off Musquash-Head, is distinguished by 7 white balls, 6 of which are distinctly visible at a distance of 10 or 12 miles in clear weather.

On Musquash Inner-Head, to the westward of Split-Rock, a white vertical stripe, which is visible from the westward, with two of the balls on Split-Rock, but on coming up the bay, when the stripe is lost sight of, the whole of the balls on Split-Rock are seen.

Gooseberry Island has the letters G. I. marked on it, and the top of the pinnacle painted white. The white mark can be seen at some distance from the S W, but the letters are only visible when the Island bears N.
