Correspondence of The New-York Tribune.

PHILADELPHIA, Monday, Aug. 11, 1851.

A most ridiculous exhibition was witnessed in our streets this afternoon. It was the parade of a burlesque company, styling themselves "The Santa Anna Light Guard." Each member of the troop was mounted on a miserable specimen of the quadruped species, in the shape of a horse, and attired according to his own fancy. The streets through which the procession passed were densely thronged. The troop have just returned to the city from an excursion.

John Malone, an Irishman, and a young lady named Hughes, of Bridesburg, were arrested at one of our principal hotels, yesterday, charged with eloping. This morning the prisoners were both committed to prison.

Many of our citizens are returning, daily, from the fashionable watering-places.

Capt. J. Libhart, of this city, died suddenly at Long-Branch, N. J., on Friday night.

An aged man named Thomas Ocens has been arrested in this city, charged with attempting to commit a gross outrage upon a girl *ten* years of age. Ovens is a man of some property, and was formerly a city watchman.

A riot occurred yesterday among some Germans on the Columbia Railroad. Four were arrested and bound over.

The foreign advices by the steamer, received at an early hour this morning, have had no perceptible effect upon the market, and there is scarcely any business doing. The FLOUR market continues in the same state of dullness and inactivity which we have noticed for weeks past. Holders continue to demand $4@4 12½ for standard and good brands, but there is no export demand and no sales making, except small lots for the supply of the city dealers bakers within the range of 4 22½@4 75 for common and extra brands, as to quantity. RYE FLOUR is steady at 3 37½, and CORN MEAL at 2 81½ ₱ bbls. WHEAT is in limited demand, but prices are unchanged; sales of good and prime new Southern Red at 85@88cts., and a lot of old Pennsylvania White at $1 01½ ₱ bushel. CORN is dull, and there is a fair supply offering; sales of 3,000 to 4,000 bushels at 63 cts., for good Southern Yellow, and 58@60 cts. for mixed Western. In OATS no change. WHISKY is steady; sales bbls. at 23 cts.; hhds. are held at the same price.

SALES OF STOCKS.—*First Board.*—14 Minehill RR. 68½; $1,000 Spring Garden 6s, '81, 100; $1,000 Lehigh 6s, '95; 200 Reading RR. 26½; $250 U. S. 6s, '62, 104½; 2 Bank of North America, 139½; 9 Pennsylvania RR. 42½; $5,000 Pittsburg 6s, '71, (coupons,) 74½; $1,200 City 6s, '84, 102½; $6,000 State 5s, 99.

Second Board.—$417 Lehigh Mortgage 6s, 96½; 12 Pennsylvania RR. 42½; 34 North America Interest, 14; $1,000 State 5s, 89½; 250 do, 88½.

☞ The colored people of the city of Albany engaged in an excursion to Hudson the other day, and had "a good time," though *The Republican*, while it compliments them for their appearance and decorum, is "forced to allude to the misconduct of a number of persons who were white without, and black enough within to interfere with their peaceful pleasures." Insulting well-behaved colored people falls far below the average standard of rowdyism, inasmuch as it is no less cowardly. A black soul is a greater misfortune than a black skin.

FOREIGN MARKETS.

Liverpool Cotton Markets.

JULY 26.—The market is active, the sales to-day amounting to 12,000 bales; of which 10,000 are American, at ¼ advance upon previous prices for the latter.

JULY 28—The sales to-day amount to 10,000 bales, including 1,000 American for export, and 2,000 on speculation. The market was active, and closed with heavy buying on all sides. Prices of American are ⅛d. higher than on Friday last for all kinds, and COTTON at 3/16d. has advanced ⅛d. ₱ lb.; all other kinds are less changed. The sales include 5,000 American, 400 Egyptian, 6d.@8½d.; 1,000 Surat, 2¾@3d.; 60 Sea Islands, 10½@16½d.

JULY 29.—The sales to-day are 10,000 bales, including 4,000 on speculation. Prices are firm.

The Grain Trade.

From The Liverpool Courier, July 26.

Though we have experienced very changeable weather of late, the Grain Trade has been free of everything approaching excitement. The early part of the week was laverable, but rain set in on Tuesday night and continued with scarcely any intermission for nearly eight-and forty hours.

The fall was heavier in the home counties than in the districts further removed from the metropolis, and in Essex and Kent the crops were much beaten down; but whether any ultimate injury will result from this circumstance will depend on the kind of weather which may follow. From the midland and northern counties the reports respecting the appearance of the crops are, on the whole, of a satisfactory nature; and there can be no doubt that any mischief which may have been done to the crops in the early districts will be partly balanced by the good likely to accrue in the more backward localities.

Where the showers have not been so heavy, in the neighborhood of London, WHEAT it would probably be benefited rather than injured; and that all kinds of Spring Corn, Pulse, and Green Crops, must have profited by the rain, cannot be questioned.

The least encouraging accounts that have yet reached us are from the fen lands of Lincolnshire and Cambridgeshire, where Wheat is said to have suffered when in bloom by the night frosts in the early part of the month.

On the whole, we acknowledge to a feeling of uneasiness as to the result of the harvest, though we are inclined to think that a month of really fine settled weather would insure a fair yield of Wheat.

The lateness of the season is, in itself, a sufficient reason to give rise to doubts as to the fortunate termination of the harvest. With the exception of a few patches in early districts, hardly any Corn has yet been cut, and under the most auspicious circumstances, reaping can hardly be expected to be general till the second or third week in August.

With regard to the future range of prices, the same uncertainty exists; but our impression is that that point will not depend altogether on the yield of the crops in Great Britain. A deficiency here, if not very great, would not have any important influence on quotations, if the crops should prove moderately productive over the rest of Europe, America, &c.; and our farmers would in that case again find themselves in the same position as last year, viz., with low prices and short crops—a state of things we should greatly lament. Free importations of foreign grain must always prove injurious to the home grower, but in bad seasons, the hardships to the producer must be materially increased.

Havre Cotton Market....JULY 29.

The market is decidedly stronger, and prices better, owing to favorable advices from Liverpool and America. The sales up to two o'clock amounted to 1,900 bales, at an advance of 1 to 2 francs on the price of Friday last.

MONDAY, Aug. 11—P. M.

The market at the First Board exhibited more steadiness, but there was no speculative activity. The principal business was in Erie, Harlem and Reading. At the Second Board the tendency was downward, and, generally, the fancies closed at a slight decline on yesterday's prices. New-Jersey Mining and Erie securities were among the firmest stocks. Incomes sold at 92, and at that figure pay over 10 per cent. interest. The aggregate of the first and second Mortgage and Income bonds is $10,500,000, which requires a net income of $735,000 to pay the interest. The net revenue of the Road, taking July for the standard, deducting 50 per cent. for expenses, will be $1,568,000—which is $832,000 more than sufficient to pay the above interest. Purchased at 92, these Bonds will produce:

Say—$70 ₱ year for $920 cost, is equal to.....7-61 ₱ ct.
Paid in 3½ years, gains $80 in principal, or $22 85 ₱ year—equal to.....2-48 "
Aggregate ₱ year.....10-09 ₱ ct.

In Exchange there is but a moderate demand, and the supply is limited. The quotations are firm at 9¼@10¼ for Sterling, 5 12½@5 11¼ for Francs.

Freights are without change of importance, and not active. Engagements: 6,000 or 8,000 bbls. Flour, 12½d. @13d.; 10,000 bush. Wheat, 4d. @4½d.; 550 bales Cotton, 4-16d.; Deadweight, 12s. 6d.@15s. To London: 6,000 bbls. Oil Cake, 2s., and 200 bales India Rubber, equal to 3s. ₱ cubic.

The supply of money in the street is more free, and some of the Banks are making call loans again. There is, however, no melioration in the rates of paper. First class names, short dates, go at 9@10 ₱ cent., and good signatures at 11@12 ₱ cent. Long paper, A No. 1, is 12 ₱ cent. On call the rate is steady at 7 ₱ cent.

The receipts at the Sub-Treasury are $155,199; payments, $231,368—balance $2,861,375.

There is about half a million of Coin under consideration for the Wednesday steamer, but a portion of it may be countermanded. The shipment of a considerable portion of the amount is very uncertain.

Several small failures, connected with the California trade, have taken place. The indebtedness of Messrs. Barnet, Withers & Co., of Philadelphia, is set down at $380,000. Two or three other failures have occurred in Philadelphia.

The traffic on the Albany and Schenectady Road continues to show a very large increase. The first-class passengers in the first seven days of August were about 50 ₱ cent. larger than during the same period of last year.

The advices per Arctic, although not very important, are favorable. There had been a slight improvement in Cotton. Breadstuffs were steady, and Consols improving. The Money market was easy, and trade generally in a favorable condition.

The Albany Atlas of Saturday says:

"We regret to announce that several failures of mercantile houses have occurred in this city. We hear that in some of the central and western cities, some leading business men have also been compelled to suspend payment."

The amount of United States Stock issued to foreigners from 26th July to 8th August, 1851, inclusive, was $54,600.

The London Mercantile Journal of the 26th ult. has the following tribute to the credit of Maryland:

THE CREDIT OF MARYLAND, ETC.—A further illustration of the good faith of the State of Maryland, which was one of those which suspended after the crisis that led to the failure of the Bank of the United States, has just been furnished. In 1847, when she resumed the payment of her dividends, she capitalized the four and a half years' arrears due to the bondholders, by issuing new securities at par, bearing 6 ₱ cent. interest, and redeemable at the pleasure of the State. Within two years, a certain number of these bonds, equal to 25 ₱ cent. of the entire amount, were paid off, in the next year the proportion cancelled was not less than 56½ ₱ cent., and during the present month the remaining 18½ ₱ cent. has been discharged. The extinction of the whole, with interest at the full legal rate, has therefore now been effected.

Instances of this kind should not only give confidence to the creditors of the few States whose comparative remoteness from the action of public opinion has delayed a return to honor, but they should also induce all persons who may refer to transatlantic defalcations carefully to discriminate the real parties. The existing list consists simply of Mississippi, Michigan, Arkansas and Florida. Indiana, unlike Maryland and Pennsylvania, has disgraced herself by a compromise, but there is no doubt as to her future punctuality; and Illinois, although she has shown a culpable degree of indifference, has partially resumed payment, and has never attempted to question her liability. When it is recollected that the aggregate population of four repudiating States is not equal to 5 ₱ cent. of the actual population of the Union, and that the condemnation heaped upon them by the majority, who suffered from the connection, is unsparing and incessant, it will be seen that the period must soon arrive when they will find their position to be intolerable.

At Albany, 36 shares Commercial Bank sold at 126, and 4 do. Exchange Bank at 97½.

The Boston Journal says:

There is less distress among borrowers, but no concession of any consequence has been made in the street rates of interest. The Money market, in fact, is far from being moderately easy, though whatever change has occurred is for the better. Negotiations are made at the following rates:

For mercantile paper of first rank.....10@12 ₱ cent.
" " " fair " ....12@15 " "
Loans on call, good securities.....12@18 " "
Railway paper.....12@15 " "

By a judicious distribution of discount accommodations, the Banks have softened the tone of the market, and thus tended to allay the panic so rapidly and widely spreading. It is, nevertheless, perfectly apparent that the supply of capital at the present time is entirely inadequate to the wants of the street.

J. D. Whitney has resigned the office of President of the Northampton Bank, and Elphalet Williams has been appointed to that office.

The law lately passed by the Legislature of California in reference to Bills of Exchange and Promissory Notes, provides that the damage on Bills of Exchange protested for non-payment elsewhere shall be as follows:

If payable in other of the United States east of the Rocky Mountains, 15 ₱ cent.

If payable in Europe or any foreign country, 20 ₱ cent., with interest from the time of demand.

If the bill is payable in the currency of a foreign country, the amount due shall be determined by the rates of exchange at the time of demand and exclusive of damages.

The damage on Bills of Exchange protested for non-acceptance shall be the same as on those protested for non-payment.

At Philadelphia money is in great demand with the merchants, but with the bankers is plenty. The Banks are discounting to fair extent.

The extension of the Baltimore and Ohio Railroad to Parkersburg, and thence to Cincinnati, has been determined upon by the City Council of Baltimore. A Committee has been appointed to petition the Legislature for the passage of an act, empowering the City to subscribe $1,500,000 to the stock of the Company.

The Cumberland Civilian says that it is reported that the Baltimore and Ohio Railroad Company have determined to reduce the freight on coal, from Cumberland to Baltimore, to $2 ₱ ton.

The citizens of Alton, Ill., decided last Tuesday, by a vote of about four to one, that the City should subscribe $100,000 to the stock of the Alton and Terre Haute Railroad. Before the work is commenced, a *bona fide* subscription of $500,000 must first be secured. This amount, it is thought, will be easily obtained.

The Watertown Journal of August 6th contains the proceedings of a meeting held in that village, to promote the construction of a railway to Potsdam, in St. Lawrence Co. The delegates from St. Lawrence all united in the statement that the Ogdensburg and Champlain Railway was of little use to its inhabitants, in consequence of its running too near the north line of the county, being 14 miles from Canton, and 5 from Potsdam. The cost of the proposed road is estimated at $14,000 per mile, which is the cost of the Rome and Watertown road. The road will be 68 miles long, passing through many flourishing villages, and a country unsurpassed in natural resources, and which will soon be developed, when made accessible and brought in communication with a market. It will open to a market the large 4 forest of valuable (mostly pine) timber in the State, and which of itself will afford a very large source of revenue.

Markets—CAREFULLY PREPARED FOR THE TRIBUNE.

MONDAY, August 11, 1851.

ASHES—The market is very quiet but steady; sales of 50 bbls. at 5 06 for Pots, and 5 50 for Pearls.

COTTON—The market has advanced ⅛c. under the influence of the favorable news from Liverpool and Havre, and 1,000 bales have been sold, of which 600 bales are for shipping.

FLOUR AND MEAL—There is a fair demand for the low grades of State and Western Flour, and there is a good degree of firmness in the market, with rather more buoyancy. The steamer's news has strengthened the market, especially for Ohio. The inferior grades are scarce and in fair demand at full prices. Canadian is quiet but steady, with sales of 1,084 bbls. at 4 12½, in bond. The sales of Domestic reach 12,000 bbls. at 3 94@$4 for State; 3 37½@$4 for Michigan and Indiana; 4 06@4 18 for pure Genesee. Southern is very dull and heavy; sales of 600 bbls. at 4 25@4 37½ for common to good strait brands of old Baltimore and Alexandria. Rye Flour is quiet; sales of small lots at 3 37½. Corn Meal is steady; sales of 200 bbls. Jersey at 2 94@$3, and Brandywine at 3 25.

GRAIN—There is a good supply of Wheat at market, and prices still favor the buyers; there is more new offering. The sales are 1,800 bush. new red Southern, at 83@87c. for part, and the residue on private terms; 7,300 bush. white Michigan at $1. Corn is again better, with little sound offering; the demand is good for filling contracts, with little doing. For the East, sales of 40,000 bush. at 48@50c. for unsound, 60c. for sound Western mixed, and lots reported still higher, and 58c. for round yellow. Rye is lower, and in request for distilling. Sales of 5,000 bush. at 75@76c. Oats are less firm, and dull. Sales of State at 19@19½c., and Jersey at 20@19c.

WHISKY—A quiet and heavy market. Sales of 150 hhds. Jersey at 23c., 10 hhds. Ohio at 23½c. and 50 hhds. Double Stills at 23c.

PROVISIONS—The market is easier for Pork; the demand is very limited, and the tendency in favor of buyers. Sales of 200 bbls. at 11 50@11 62½ for Mess, and 12 37½ for Prime. Old is neglected. Beef is in fair demand, and is steady. Sales of 200 bbls. at $7 50@$11 for Mess, and $5@$6 for Prime. Cut Meats are dull, but steady. Lard is firm, but quiet. Sales of 140 bbls. at 9@9½c. Butter and Cheese steady.

WOOL—The market is very dull and heavy. Quotations are nominal. Manufacturers refuse to buy at present prices, and only buy such lots as they can meet with low. A speculative purchase has been made by one dealer from another, of 5,000 lbs. This State fleece at 33c. cash—a parcel which was purchased here at 40c. five weeks ago. No foreign Wools are reported sold, though some parcels are said to have changed hands on private terms.

NAVAL STORES—We notice sales of 400 bbls. Spirits at 33½@34c. cash, and 700 or 800 Wilmington Resin at 1 40 delivered. Crude Turpentine is quiet.

LEAD—The supply of American is very light, and 6½ is asked, to arrive. Sales 30 tuns Foreign at 5 50@5 62½ cash.

LIME—The market has advanced 10c. ₱ bbl., with sales of 2,000 bbls common at $1, cash.

OIL—English Linseed is quiet at 73c., cash. There is a firm market for Whale, and at the East, 5,000 or 6,000 bbls. have been sold at equal to 45@47½c. here.

BONE—About 50,000 lb Polar sold at the East, equal to 31c. here.

RICE—The market is steady, with sales of 150 tcs. for export at 3 25@3 37½ for fair samples.

FUSTIC—A sale of 50 tuns Savanilla was made at $19, cash.
