"WILDER'S PATENT SALAMANDER SAFES."—C. J. GAYLER advertises that three of his Safes have been fully tested by fire—which may be true; and if so, it is but so many tests in favor of my Patent Salamander Safe, added to the many now on record; which patent the said Gayler has continually infringed for more than four years past. Mr. Gayler asserts, "that during the past twenty years he has first introduced every valuable improvement now applied to safes." Added to which he tells the public, "Gayler's Safes are not filled with plaster-of-Paris, like most others," which statement the public will be slow to believe, when, in fact, he, the said Gayler, has infringed my patent since June, 1847, at which time I obtained judgment against said Gayler, in the sum of $1,000, for infringement of said patent up to that time, by the using of plaster-of-Paris. And he, the said Gayler, has, since 1847, by an order of the Court, rendered monthly account under oath, to said Court, of all Safes in which he used plaster-of-Paris, and on the 13th of July last, returned thirteen Safes as said the preceding month, which contained plaster-of-Paris. B. G. WILDER. N.B.—Any one in want of my Patent Salamander Safe can obtain it of S. C. HERING, Esq., 135 Water-st., or of Messrs. ROFF, STEARNS & CO., 146 Water-st., who have the exclusive right to make and sell said Safes, and if so bought, the buyer is not made a party to infringement, and liable to a suit for damages, a fact not to be understand. ZINC PAINTS, Manufactured at New-York, New-Jersey, by the NEW-JERSEY EXPLORING AND MINING CO. This Company is prepared to furnish a supply of their valuable ZINC PAINTS, which have been found, after several years' trial, both in Europe and in the United States, to retain their original beauty and protective properties, superior to any other Paint whatever. Their WHITE ZINC PAINT is merely an Oxide of Zinc, and is warranted free from all adulteration whatever. It has no poisonous properties so objectionable to the health of families and workmen in some other kinds of pigments. IT WILL NOT TURN YELLOW when exposed to sulphurous or mephitic exhalations, or even when shut up in a close room, nor is it affected by pictures hung on walls coated with it. As an outside Paint, it withstands the changes of weather better than any other, not being liable to turn chalky or to crumble and rub off. It may be worked with any color, or with water and oil, or with varnish instead of oil, thereby giving the really celebrated porcelain finish. The Company also manufacture BLACK AND COLORED ZINC PAINTS, which are beyond question, without any equal for coating roofs, ships, outhouses, fencing and all iron or other metallic surfaces. They are of pure METALLIC OXIDES, and are unaffected by salt water or other exposure, less than any other paints within our knowledge. Iron and other metals do not oxidize when coated with them, and they are remarkable for their fire-proof properties. Dealers supplied on liberal terms by S. T. JONES & CO., Agents for the Company, jy21 3m 93 Beaver-st., N. Y.

INDIA RUBBER.

A SHORT ANSWER to WM. JUDSON and the RUBBER COMBINATION.—For the past month the papers have teemed with a fresh supply of false and malicious attacks against H. H. DAY and his business, all emanating from Wm. Judson, the agent, partner and counsel of the Rubber Monopolists. A legal opinion from such a source is of course not worth answering, and his abuse is equally contemptible.

Failing in this, he now assumes to speak for the "Combination" of Rubber Monopolists, and threatens to prosecute my customers if they dare to buy goods from Day. This is too old a trick to be patented, and the public can't be gulled any longer. The best goods will command the market, and if the "Combination" do really make their goods according to "Goodyear's Patent," all their threats will not make their goods sell, or prevent my customers from buying my goods which are not made according to Goodyear's glue and molasses patent.

For the past four years these wholesale monopolizers of the rights of the people, who store off competition by threats of the law, have daily given out that Day's time had come—that he could n't stand it any longer; and yet he is on hand ready and able as ever to maintain his rights. In the only case which the Combination ever dared to bring to trial, they were beaten and Day got a verdict, but he has not heard yet that they have paid the costs, for which their sureties are liable.

Let them bring their actions to trial, and I promise them law and justice to their heart's content.

Let them come into Court if they dare. Their puffs of their own goods, and their threats against my customers are equally vain. The public are tired of such humbug. jy18 tf H. H. DAY.

BRILLIANT DISCOVERIES.—"The Decapitation of Thos. Fothank, Esq., Commissioner of Patents, by the executive," was one of Day's most wonderful discoveries, "in honor of which" he gave a "Select Dinner" in Washington last Winter. This discovery, however, was imaginative merely.

The payment to Goodyear in 1847 of $5,000 for a license to work under Goodyear's Patent, which Day has only lately discovered is of no use, is a great discovery, but made too late to benefit him.

Day's offer of $50 reward for the conviction of infringers on Goodyear's Patents, on which he himself had been the chief, and is now the only infringer, was a brilliant conception of Day's and undoubtedly original with him.

Day's discovery of Goodyear's great secret of vulcanizing Rubber a full year before his application for his Patent therefor for an expense to Day of only $68 paid to a man who had learned the secret in Goodyear's factory, was a brilliant exhibition of inventive genius and affords a striking proof of how closely one Inventor (!) will sometimes follow upon the heels of another. jy15 tf

CAUTION TO THE PUBLIC.—All vulcanized white Rubber, as well as black and other colors not stamped by Horace H. Day, "GOODYEAR'S PATENT," according to his covenant in his license from Goodyear, is an infringement on Goodyear's Patents, and all dealers in, or purchasers of these goods, are equally liable as trespassers upon Goodyear's acknowledged rights with Horace H. Day himself, the Maker of such goods, and will be prosecuted accordingly. Day has a license from Goodyear to make Shirred Goods only, and a few small articles, by paying a tariff to Goodyear of three cents per yard, equal to about two mills on each pair of Congress Boots, while Day himself charges ten cents per pair for the use of Goodyear's Shirred Goods in Congress Boots to the hard-working shoemakers. All the India Rubber shoes now made by Horace H. Day, are an infringement upon Goodyear's Patents, and all dealers therein render themselves liable in damages to Mr. GOODYEAR, the Patentee.

TO THE PUBLIC.—INDIA RUBBER SHOES.—Our attention has been called to an advertisement by Horace H. Day, published in the New-York Herald of July 11, 1851, and the Courier and Enquirer of same date, in which, after much unmerited abuse of our attorney, Wm. Judson, Esq., he asserts that *we dare not charge him with infringing Goodyear's Patents* under our own names; and that he does not infringe Goodyear's Patents in the manufacture of shoes.

We have purchased our license for the manufacture of India Rubber Shoes under Goodyear's Patents and paid our money, and are daily paying a tariff for the same, and any other person might have done the same, if disposed to do so rather than pirate
