Medical.

WHO IS INTERESTED?—DR. VAN ANTWERP, of Albany, having devoted his whole time for several years in examining human and suehuman causes and effects, has simplified the philosophy of Man to a practical method, by which he arrives at the nature and character of every disease which the human family are heirs to, and thereby unequivocally places opinion in all cases beyond supposition, of which he will be found ready to bear testimony to all who may favor him by calling.

Having heretofore rather avoided publicity beyond a private circle, mainly on account of his feeble state of health, and the want of reliable assistance, which objections have been effectually overcome by an improvement of his bodily force and the assistance of Dr. COX, a European Physician and Surgeon of extensive experience, by which he feels warranted to guarantee satisfaction in the delineation of Disease of every description, whether the patient be present or at a distance, and a speedy cure, if curable, for which every available means will be presented, strictly according to the nature and character of the disease, or the organic derangement, as the heart, liver, kidneys, lungs, stomach and bowels, from which derangements every variety of symptomatic disease defined by a name proceeds.

Fee for examination, prescription and medicine, from $5 to $10. Residence No. 128 Chambers-st., New-York.—Hours for examination from 9 to 12 A. M. and from 3 to 7 P. M. All letters must contain the real name and residence of the patient, post-paid, with the fee. s4 3t*

The canals being bounded by tense ligaments and a cross-bone (the os-pubis) have not been thoroughly compressed by the Truss and Supporter-Pads heretofore in use, but such end is now attained in the new Pads—the results from the use of which are such as to warrant through their application a confident hope of restoration from hernia and prolapsis of the uterus; many cases of long standing having already been thoroughly cured in a short period of time, and the instruments laid aside, their use being no longer required.
