THE SCIENTIFIC AMERICAN.—The first number of the seventh volume of this unequaled weekly journal is just issued. This paper is now universally acknowledged to be the best of the kind at this time in the world. No Mechanic, Inventor or Manufacturer should be without it. It contains a synopsis of all the patents granted, a large amount of scientific and instructive reading, and is splendidly illustrated with fine engravings. It is the cheapest work of the kind in the world.

Published weekly at $2 per annum by MUNN & CO., at their extensive Patent Agency Rooms, No. 128 Fulton-st., New-York. s20 2t*

PROFESSOR DODD'S ARITHMETIC.—A highly respectable teacher in Pennsylvania wrotes to the publishers of this work—"Mr class has just completed Dodd's Arithmetic, and I am happy to say that it has more than met my expectations. I give it my decided preference over every work of the kind with which I am acquainted. The publishers believe the same to be the uniform testimony of teachers, who use the work, without exception.

Schell's Primary Lessons in Arithmetic, and Emmes's Intellectual Arithmetic, are respectfully commended to the notice of teachers, as being superior to other Primary Arithmetics. FRAIT, WOODFORD & CO.,

A USEFUL BOOK for MERCHANTS and POST-MASTERS.—D. APPLETON & CO., No. 200 Broadway, have just published THE UNITED STATES POST-OFFICE GUIDE. By Ex. Rowan. With a County Map of the United States. 1 vol. 8vo., paper cover, $1; Cloth, $1 25.

The value of the matter contained in this publication can hardly be estimated. It is, in fact, priceless to those who desire information on any points connected with the postal service of our country. Besides this, there is a history of Post-Office systems throughout the world, with a view of the characteristics of all. A Table of Postages, a Map showing the Dorr Rhode Island system of the United States, &c. The book is very handsomely printed, and is just the thing for reference in offices and shops.

"This work contains a vast amount of information, already indispensable to the man of business. The slightest glance at it must convince every one of its value as a work of reference regarding the Post-Office Department, its regulations, the laws connected with the transportation of the mails, and various other important matters connected with the Postal system. It commences with a historical review of all Post-Office arrangements in this and other countries, which is remarkably interesting. We recommend this work to all commercial men, and to our readers generally." [Savannah News.] s22 1t
