Coal—Politics—Markets, Stocks, &c.

Correspondence of the N. Y. Tribune.

PHILADELPHIA, Friday, Oct. 10, 1851.

During the week ending yesterday, 16,237 tuns of coal were shipped by the Schuylkill Canal.

Our Public Night-schools reopen the 20th inst.

The greatest enthusiasm prevails among the friends of Governor Johnston in our City and County, as well as throughout the State. If the Whigs but turn out on Tuesday, and do their duty, you may rest assured of his triumphant election. The Loco-Focos have been, and are working desperately to defeat him; but, they will find, fruitlessly. The recent Christiana affair has secured to Governor Johnston in our County, at least *two thousand* votes, which would not have been used, under other circumstances, or if used, would have been cast for the Loco-Foco candidate. Rest assured that Johnston will be the next Governor of Pennsylvania.

COTTON is dull and the sales are on a very restricted scale, but without change in prices. In BREADSTUFFS there is but little doing. The FLOUR market is dull. Holders continue to demand $4 12½ ⅌ bbl. for fresh ground, but there is no export demand, and the only sales reported are small lots for city consumption at $4 12½ up to $5, as to quality. The market is bare of RYE FLOUR. The last sale of CORN MEAL was at $3. The demand for WHEAT continues limited, but prices are steady. Sales of 3,000 bushels good new Southern Red at 80c., and superior White at 87c. ⅌ bushel, but mostly of the latter description. There is no RYE coming in. CORN is steady at 63@63c. for good Yellow, but there is very little offering, and it is wanted. OATS are in good demand, and 3,000@4,000 bushels Southern sold at 32c. ⅌ bushel. WHISKY is dull. Small sales in barrels at 22c.; Lancaster County hhds. are held at the same price.

FRIDAY, Oct. 10—P.M.

The Stock market at the First Board was steady but not very active. After the Board an active demand sprung up and the market became very buoyant, and the Second Board exhibited the same buoyancy. Some large houses came in as buyers and stocks closed with a strong feeling. Governments were in large demand at advanced prices. The sales were $60,000 or $70,000 at ⅛@¼ ⅌ cent. advance. State stocks also were better and in demand. The Fancies show considerable improvement. Erie went to 78 but closed at 77¼, an advance of 1½ ⅌ cent. Reading improved ¼ ⅌ cent., Harlem, 1 ⅌ cent., Long Island, ¼ ⅌ cent. Norwich was in good demand after the Second Board, and 49¾ was bid, an advance of ¼ ⅌ cent. This is one of the stocks which has been unreasonably depressed during the late fall, going from 70 to 46, and it will probably be one to feel earliest and strongest the effect of any favorable reaction in the market. The earnings show a very favorable amount of increase, exceeding $3,000 in September, and the whole affairs of the Company are in a flourishing condition. The earnings of the current six months promise a dividend of 3 ⅌ cent. with a surplus of $10,000. The Erie Securities are firm and in fair demand. Hudson River has improved since the opening to 70½@71, an advance of 6 ⅌ cent. from the lowest point.

Sterling Exchange has been in very limited inquiry for the steamer to-morrow, and the market closes with a downward tendency. The supply on the market is considerable, and is daily increasing by arrivals from the South. The quotations are 9@10¼ ⅌ cent., good Bills having sold at 9½@9¾ ⅌ cent. Francs are 5.10½@5.12½. All Continental Bills are dull.

Freights continue quiet; small engagements of Grain at 3¼d., 1,000 bbls. Flour, 7½d., 400 bales Cotton, 3⅝. 6d. ⅌ bale; 400 boxes Cheese, 20s. To London, 900 bbls. 1s. 9d., to Havre, Cotton, ⅛c., to California there is a moderate business doing.

Dispatches from New-Orleans to-day quote Sterling Exchange at 8½@9 ⅌ cent. for leading bills. Exchange on New-York ¼ prem. for sight. At these rates the exports of specie cannot continue.

The money market has experienced a decided relief to-day, on call, and there is more currency for paper, although rates show no important change, and much caution is exhibited in selecting names. On call the rate is 7 ⅌ cent., usually with a commission, making it equal to 10@12 ⅌ cent., and frequently more. On Government and State Stocks the leading houses lend at 7 ⅌ cent. Paper goes at 9@15 ⅌ cent. for first-class; 18@12 ⅌ cent. being the usual rate. It is easier to sell good names at 12 ⅌ cent. to-day than it was at 15 ⅌ cent. last week.

Two small failures are announced, but they are not of sufficient importance to create any excitement. In our notice yesterday of the proposition of Mr. Earle we wrote that he offered to secure 40 cents instead of 100 cents, as printed. In relation to the failure of Mr. Imlay, *The Hartford Courant* says:

The announcement yesterday that Wm. H. Imlay, Esq., had made an assignment of his property, took the community by surprise. His wealth has been estimated at from half a million to a million of dollars, and in this State the credit of no one has stood higher. Mr. Imlay was a large indorser (it is said to the amount of $220,000) for his son-in-law, Mr. Daniel Buck, Jr., paper manufacturer, who failed last Spring, and on account of the refusal of the Banks to renew the suspended paper and the difficulty of raising money at this time, he thought it best for himself and his creditors that he should make an assignment. A portion of his property is set apart for preferred creditors, and the remainder is assigned to George Beach and John Hooker, of this city, and Elias Butler, of Hyde Park, N. Y., for the benefit of his creditors. His assets are estimated at a million of dollars and his liabilities are about half that sum. With proper time to wind up his affairs, it is thought that he will have several hundred thousand dollars left, after the payment of his liabilities. A large number of Atlantic Dock Bonds, with Mr. Imlay's indorsement, are held in this city and vicinity, and some of the holders felt a little nervous yesterday. But we understand the Company are abundantly able to meet all their engagements, and that therefore no uneasiness need be felt on this score, even if the indorser could not meet his obligations. Mr. Imlay is largely interested in this Company.

From Buffalo we have the announcement of the failure of Mr. W. O. Brown, one of the largest produce operators in the West. We have not heard an estimate of the amount of his liabilities, but we learn that the losses will fall mainly on Western Banks. No one, as far as we can learn, will suffer from him here.

The amount received at the Sub-Treasury, is $70,229; Paid, $78,674; Balance, $3,329,175.

The steamer of to-morrow has no specie engaged, nor can we hear of any considerable amount being put up for her. She may have $50,000 to $100,000.

The Brooklyn Common Council passed an ordinance last evening permitting the trains of the Long Island Company, under steam, to use Atlantic-st. at the rate of four miles per hour, sending a man ahead of each train with a flag, and dispensing with the use of whistles. This provision is to extend to thirty days, but will probably be continued. The Mayor signed the ordinance to-day, and the trains will commence running to-morrow (Saturday.) A Committee was appointed to investigate the question of dummies for the use of this Road. The business of the Road previous to its interruption by the Council, was very flattering, the earnings of September showing a gain of $2,200 over September of last year.

The earnings of the Rochester and Syracuse Road continue to show a very large gain. The receipts in September were $114,458 83.

The following letter, received by Mr. Maxwell will show that circular of the Secretary of the Treasury in relation to California shipments is for the present suspended:

"Until further instructed on the subject, you will suspend the execution of the circular No. 60, of the 18th ult., except as to the securely cording of the packages, with a lead seal attached. The expense of cording and sealing, which is to be charged to the parties, will be placed on a reasonable footing, and in no case to exceed the actual cost.

Thos. Corwin."

The foreign news is not very important commercially, but is generally favorable. The bullion in the Bank continues to increase, and has reached £14,665,140. The price of Bullion was declining under the large receipts. Money was plenty at previous rates.

Borne's Circular of the 26th of September, remarks: American stocks have been generally well supported this week, since the news of the termination of the Cuba invasion, but without demand or much business. Some United States Coupon Bonds, 1868, are offered at 112, and Certificates of 1867 at 105. Kentucky, 96@97½. Maryland Fives, sterling, 88½@89½. Pennsylvania, 81@83. Tennessee, 93½@94½. Virginia Sixes, 92@93½. Boston City Bonds, 92, sellers.

The demand is firm for the home trade, but moderate for the East and for export; the better grades are easier and more freely offered.
