Disasters, &c.

Bark E. Cohen, at San Francisco from New-York, experienced heavy weather off Cape Horn; was off the Cape 60 days; lost mainmast, head-boards, and nearly all the sails. All hands, with one exception, sick with scurvy, and lost two seamen, who died on board.

Schr Gordon, at Norfolk from St. Thomas, experienced nothing but heavy weather the whole passage; encountered a severe gale which lasted from the 4th to the 13th inst.

Brig Ada, from Mobile for New-York, dismasted, was passed 13th inst. 10 miles N. of Cape Hatteras.

RICHIBUCTO, N. B. Oct. 1—The ship Princess Victoria was driven ashore, and it is expected will become a total wreck. The Russian bark Minerva, whilst riding at anchor outside the Bar, completing her cargo, parted from her chain; the masts were cut away to save the vessel, but on Sunday morning about 11 o'clock she drove ashore, where she now lies a total wreck. Several other vessels have been stranded.

PICTOU, Oct. 9—The ship Letitia Hoyne, McQua, master, 656 tons burthen, loaded with timber, deals, staves, and flour from Quebec to Liverpool, G. B., ran ashore on the afternoon of Thursday, 25th of Sept. in Pleasant Bay, Magdalen Islands, with 8 feet water in her hold, and was abandoned, and sold by the master for £150. Materials to be sold on the 14th inst.

The bark Tangatabo, from Fogwash, bound for Liverpool, G. B., ran on a sand bank at the northern entrance of Port Hood Harbor, on the 21st ult., and after discharging part of her cargo floated off, and being leaky, is ordered to be taken to the Straits of Canso for repair.

The *Cape Town* (Cape of Good Hope) *Shipping and Mercantile Gazette* of Aug. 29, says: "The new bark Jeram, which arrived in this bay 23d inst., was built at Baltimore, for Mr. Rufus Greene, Jr., of Providence, R. I., expressly for the trade which is rapidly springing up between South and East Africa and the United States. She is named after a Banyan at Zanzibar, which is a collector of customs at that port. The Jeram is commanded by Captain John Currier, of Salem, Mass., and is a beautiful specimen of the perfection to which this class of naval architecture has been carried by our trans-Atlantic friends. Her first voyage to Table Bay was in reality performed in 34 days, as, after approaching within 20 miles of the land, she was driven off, and kept beating for two days by a strong South-Easterly gale. She made the time in 30 days from Boston—an unusually quick run at this season—and her ordinary rate of progress proves her to be a first-rate sailer. On four successive days, she made 243, 246, 238, and 234 miles a day; and her voyage altogether presents a striking illustration of the advantage of adhering to her course, for vessels passing southward through the Atlantic, laid down in the charts of Lieut Maury, of the United States Navy."

QUICK PASSAGE.—The fine ship John Bertram, Captain Lendholm, at Rio Janeiro, 7th ult., made the passage from San Francisco to Rio Janeiro in 56 days—the shortest passage on record.

We are informed that the Pacific, Captain Bailey, made the passage from New-York to Bahama 12 days and 3 hours, being 24 hours shorter than the passage of the Golden Gate.

SCHR. ELIZA, Guide, 30 days from Campeachy, (Mexico,) for New-York, put into Charleston, 12th, to repair sails.

Schr. Joseph Farwell came in contact with the brig Abeona off the Battery, New-York harbor, on Sunday, and received considerable damage. The brig was injured but little.

During the gale on Saturday night, pilot boat Coquette ran into Nantasket Roads, and at 3 o'clock Sunday morning dragged both anchors, went afoul of brig Georgiana, also at anchor, and was obliged to slip both anchors to get clear. The C. had planksheer and waterways on the larboard side stove clear through, and badly damaged rigging. In attempting to get back to the city, had all her sails blown away, and was obliged to run on the flats at South Boston. The Coquette got off the flats in the afternoon, with the assistance of the tow-boat Hercat, without damage, and was towed to Boston.
