Resolved (if the Senate concur) That the following amendment be proposed to the constitution of this State, and referred to the Legislature to be chosen at the next general election of Senators, and be published for three months previous to making such choice, in pursuance of the provisions of the first section of the thirteenth article of said constitution:—

Substitute for section three of article seven the following:—

After paying the said expenses of collection, superintendence and repairs of the canals, and the sums appropriated by the first and second sections of this article, there shall be appropriated and set apart in each fiscal year, out of the surplus revenues of the canals, as a sinking fund, a sum sufficient to pay the interest as it falls due, and extinguish the principal within eighteen years, of any loan made under this section; and if the said sinking fund shall not be sufficient to redeem any part of the principal at the stipulated times of payment, or to pay any part of the interest of such loans stipulated, the means to satisfy any such deficiency shall be secured on the credit of the said sinking fund. After complying with the foregoing provisions, there shall be paid annually out of said revenues into the treasury of the State, two hundred thousand dollars, to defray the ordinary expenses of government. The remainder shall, in each fiscal year, be applied to meet appropriations for the enlargement and completion of the canals mentioned in this section until the said canals shall be completed.
