☞ **Communicated.**—CONDUCT WORTHY OF IMITATION.—On Thursday, 6th inst., the Omnibus Light Guard, composed principally of Drivers of the city lines, numbering 80 muskets, H. W. Ryer, Commandant, left foot of Spring-st., N. Y., on the well conducted steamer Frank, on their annual target excursion and proceeded to Bull's Ferry, N. J., to display their skill in gunnery and enjoy a day's relaxation from their useful and laborious employment. After landing at Bull's Ferry and proceeding to the Target Ground, about two hundred yards from the landing, they resolved to fire one shot each, which they accomplished, and in so doing completely riddled their beautiful target; then the lucky winners, for the contest was sharp, received the prizes, about 25 in number, from Enoch Camp, Esq., who performed his office exceedingly well—retired to Collins's Hotel and partook of a dinner and concerted some dozens of wine, which dinner and wine both seemed to give satisfaction. They amused themselves about an hour and returned per steamer Frank to New-York.

The conduct of said Company contrasts so favorably with two other Companies who have recently visited my house, that I deem it due to the public and the O. L. G. to make the notice public, and I do hereby render to the O. L. G., for their gentlemanly conduct, the thanks and esteem of

EDWD. E. COLLINS,

☞ **Tilton's Improvement to the Violin.**—At a meeting of Gentlemen, professors and others interested in music, including Messrs. W. T. Roberts, U. C. Hill, George Loder, Grieber, Goodall, Geib, Peck, Hegelund, Bergner, Dags, Lebianco, Bockstein, Nash, Seina, Pfort, Weise, Harrington, Lenhard, Cole, Scherpf, and others, at the Apollo Rooms, on Wednesday afternoon, Nov. 12, for the purpose of investigating the merits of Mr. Tilton's Improvement to the violin,

Mr. W. T. ROBERTS was appointed Chairman, Mr. U. C. HILL Vice-Chairman, and Mr. E. W. PECK Secretary.

It was then proposed by Mr. G. Loder, that the instruments be tried by the several violinists present and compared with others, some of them old ones of superior merit, without the improvement, that the opinion of the gentlemen present might be had respecting the merits of Mr. Tilton's invention.

After the trial, Mr. U. C. Hill explained the invention, and expressed his opinion warmly in its favor, saying in conclusion that he should have it applied to one of his best instruments.

Mr. Roberts also expressed his strong approbation of the invention. Mr. George Loder said he had heard the improved instruments at Mr. Tilton's store, and that in order to test them had tried them in his orchestra, at Broucham's Lyceum, for the last month, with the most favorable result. He then proposed the following resolution, which was unanimously adopted:

Resolved, That this meeting do heartily approve of the invention of Mr. Tilton, and indorse its usefulness and its applicability to the violin, rendering the tones clearer, fuller, and of the quality and freedom of vibration of an old and valuable Italian instrument.

It was then moved,

That the thanks of this meeting be given to Mr. Tilton for his kindness in presenting his valuable invention to the attention of this meeting. Adjourned.

W. T. ROBERTS, Chairman.
G. W. PECK, Secretary. n15 1t*

JOHN S. GILES, Treasurer.

The Treasurer, in behalf of the Department, tenders his sincere thanks to Prof. ANDERSON for this unsolicited expression of liberality toward our charitable fund. Such a manifestation from one a comparative stranger among us, and from one from whom we have no claims but that of the common sympathies of our nature, merits our warmest applause. To these kind-hearted individuals who so generously aid in this noble work of charity, our thanks are due—to them belong the widow's benediction, the orphan's gratitude.

BAKER'S, No. 30 Beekman-st., is the place to get fashionable Dress Boots made to order, of the best French calf-skin, with patent spring shanks, for $3 50; stout boots, same price; double-soled water-proof boots $4 50; French patent leather boots, $5 50. ☞ **A Card.**—$2,000 to $1,000.—To the Premium Committee of the Twenty fourth Annual Fair of the American Institute.—A Challenge.—Believing that the award by the Premium Committee was not a fair and just reward, founded upon comparative merits of the Daguerreotype specimens exhibited at the late Fair, and also believing that the decision of said Committee is such as possessing other than encouraging inducements to the public and the followers of the art it is my lot to foster; in view of these facts, I deem it my duty to protest against said decision; and in order that my friends—the public and my co-laborers—may have an opportunity of having an honest and fair decision, I will stake $2,000 against $1,000, that the individuals that received the highest award from the Premium Committee did not exhibit, in their whole collection, sixteen pictures of equal size, displaying, each for each, an equal amount of skill and fidelity as the sixteen I exhibited. In justice to my reputation as a Daguerreotypist, I offer in good faith the above sum on the issue, the question to be decided by seven competent and impartial Daguerreotypists. All I desire is, a fair field, and no favors. I am ready to deposit the money, and abide the test forthwith.

☞ **A Challenge in the sum of $1,000.**—OPEN FOR ONE WEEK.—To all Safe Makers in the United States who do not make or infringe upon Winders' Patent, a right which I have enjoyed, and furnished to the public, with all the improvements since it was first patented. The result of several former trials when fairly tested with other Safes, and the numerous accidental fires which has brought them in contact with other Safes, has deservedly placed THE SALAMANDER SAFE, manufactured by me, far ahead of all similar protectors. In order that the public may have a further opportunity of judging whether their verdict was rendered in favor of my Safe has been a correct one, I propose another fair and impartial trial upon the following conditions:

First: A Committee of respectable citizens to be selected (as may hereafter be agreed upon) to conduct the trial.

Second: Each party accepting and entering upon terms in writing to furnish said Committee with a given number of names of parties who have purchased their Safes, and now have them in use.

Third: The Commitee to select one of each makers, of corresponding size, so that the maker cannot be allowed to manufacture one expressly for a furnace or blow-pipe heat, as such suspicion having always attached itself to all premeditated tests of safes. The public are not interested in knowing who can make a Safe to stand a blast furnace or a blow-pipe heat the longest. But it is of vast importance to the whole commercial world to know who furnishes them with a Safe which proves the best in a natural, accidental fire, such as one would be subjected to in the burning of a store, house, factory, or other building.

Fourth: The Committee to conduct the fire, and render a report in writing, for publication.—N. York, Nov. 10, 1851.

☞ **A Diversity of Opinion Exists** as to the most becoming style of arranging the Hair, but there is none with reference to the effect of DAVIS'S HYPERION, among those who have used it. For sale at the principal Depots, No. 5½ Ludlow-st., one door from Grand; C. H. Ring, No. 192 Broadway; E. M. Guion, No. 127 Bowery; P. B. Knapp, No. 362 Hudson-st.; J. B. Dodd, No. 771 Broadway; E. ☞ **Conclusive Evidence**—HYPERION FLUID.—Among the various nostrums which are daily given to the public for diseases of the hair, we have ever been averse to giving credence to them. But from the numerous respectable testimonials of the virtues of the Hyperion Fluid, with which we have been favored a perusal, we were inclined to make a trial of the same, being confidently assured that if it did no good it would do no harm, and the result was that it certainly gave to the hair a more healthy and luxuriant growth, and completely cleansed the skin from all scurf and dandruff. We are assured that it is almost an infallible cure for baldness, and a certain prevention to the hair turning gray. It is purely compounded of vegetable extracts, and safe in its application.

To be had of A. B. & D. SANDS, No. 100 Fulton-st.; Rushton, Clark & Co., No. 273 Broadway; J. Milnor & Co., No. 183 Broadway; Wm. H. Cary & Co., No. 245 Pearl-st., N. Y.; and by the druggists and perfumers throughout the world.

☞ **To the Public.**—A new mode of enforcing the settlement of disputed accounts and unjust demands, has been put in practice against me, by seeking the intervention of a Grand Jury. A person, who, two years ago, commenced a suit against me in the Superior Court, upon the most false and calumnious charges, finding the utter impossibility of sustaining it, and obtaining his object of extorting money, has now recourse to the secret session of a Grand Jury, which upon *ex parte* statements, innocently lends itself to his designs.

This body has often been used, like the Inquisition of Spain, for purposes of private vengeance; but a new element has now been added, that of pecuniary speculation. The prosecution possesses both; but it gives me no uneasiness. It is but supplementary to the efforts which sought to prejudice me, a year since, when I had the honor to be candidate of the Democratic party for Mayor of this city. The matter on which it is predicated is the same which was been pending in the civil courts, for two years, as "a matter of accounts," and also the same which has sprung upon me, as an electioneering trick, in the Fall of 1850, on the mere story of the plaintiff, and before the true merits of the cause could be defined. From that time to this, I have eagerly sought to press the cause to trial, but have always been baffled from that vindication, by the action of the other side.

Such evasions may be said to exhibit the character of the cause; and this present step in secret against a man who was in the City all the time, and who had not the slightest knowledge of any such proceedings, may be said to exhibit the motives of those who direct it. I do not wish to anticipate the questions of the case; neither do I ask for any suspension of public opinion in relation to it; I merely wish at this stage, to place beside the announcement of this action, the general aspect of the matter out of which it grows, in order to afford a true appreciation of the movement, and to protect myself from being prejudiced anew by the novel reproduction of a derogatory charge.

These considerations have conquered my reluctance to press a purely private matter on the public, and I resign it now to the due course of law, with the conviction that mistaken malice and avarice, have rendered me a service, by affording that opportunity to vindicate myself, which the peculiar nature of civil proceedings have heretofore denied.

New-York, Nov. 15, 1851. FERNANDO WOOD.

P.S.—It is due to the District Attorney to add, that I acquit him of any but correct motives in this proceeding, which has been, upon his part, entirely official, and forced upon him by parties who have deceived him. [*] F. W.
