Miscellaneous Advertisements.

LAND WARRANTS LOCATED.—The undersigned would inform all persons in the city of New-York and throughout the State interested in Land Warrants not located, that they have made an arrangement with an efficient and responsible Agent in the State of Wisconsin, by which they are enabled to locate warrants on the best lands not taken up in the State, at a very trifling expense to the warrantee or holder. Our agent is intimately acquainted with all the lands in the State still in market, and has accurate sectional maps of such unsold lands. He is connected in this business with the Hon. Theodore Conkey, former Superintendent of the Surveys in Northern Wisconsin, and who has accurate minutes of all surveys. He has constantly on hand a large list of the choicest Government lands in the State, made from the most rigid personal examination of such lands. And the undersigned would suggest to all persons holding warrants that the best lands are being rapidly taken up, and that the sooner their warrants are located, the greater will be their choice of location. The entire expense of locating a single warrant will not, in ordinary cases, exceed the sum of twelve dollars; and when located, the warrantee will receive a certificate of the location and an accurate map of the township in which the land lies, together with a description of the quality of the soil, timber and water privileges, if any thereon. Persons out of the city upon inclosing the warrants to us for location will receive a receipt therefor by return mail, and when the location is perfected, will receive the certificates, maps, &c; and we hold ourselves responsible for all warrants so received. It will be readily perceived that the advantages to the warrantee of an early location are two fold. 1st. Choice of the selection of land. 2d. The giving a definite character of value to their warrant, and rendering more available that which before was of uncertain advantage. The above arrangement extends also to the selling of lands and paying taxes in Northern Wisconsin, and to the protecting of timber lands.
