FROM LAKE SUPERIOR.—The last number of *The Lake Superior Journal* brought intelligence that the winter supplies had arrived at Marquette, where several hundred persons had been for six weeks without flour, and were actually suffering from famine. Several thousand barrels bulk of provisions, goods, &c., are at the Sault and cannot go forward.

The imports of various kinds at the Sault for the season have amounted to more than 100,000 bbls. bulk.

The exports for the year have been, of native copper in masses and barrel pork, about 1,800 tuns; of iron in blooms about 500 tuns; of white fish, lake trout and Siskowit, including those shipped from the Sault, about 4,000 barrels. At a moderate estimate, these articles are worth, as follows:—

1,800 Tuns of Copper, at $300 ⅌ tun	$540,000
500 Tuns of Iron Blooms, at $50 ⅌ tun	25,000
4,000 Barrels of Fish, at $5 ⅌ barrel	20,000
Total	$585,000

COURT CALENDAR—*This Day*—SUPERIOR COURT—Nos. 6, 14, 23, 41, 43, 44, 45, 46, 47, 48, 49, 50, 51, 52, 53, 54, 55, 56, 57, 58, 60, 61, 62, 63, 64, 65, 67, 68, 69, 70, 71, 72, 73, 74, 75, 76, 77, 78, 79, 81 to 89.

COMMON PLEAS—Part I. Nos. 5, 13, 19, 21, 33, 35, 37, 39, 41, 43, 45, 47, 49, 51, 53.—Part II.—Nos. 8, 32, 34, 36, 38, 40, 42, 44, 46, 48, 50, 52, 54, 56, 58, 60.

MONDAY, Jan. 5—P. M.

There was a buoyant feeling in the Stock market this morning, and the Fancies generally improved. Erie had an upward tendency and improved 1 ⅌ cent., closing at 81⅛. Convertibles sold at 91½, and Incomes at 94½, which is better in both cases. Reading shows an advance of ⅞. Norwich ½. Hudson River ⅛. Canton ½. Harlem ½. The Zinc Companies continue to advance. Sussex went to 12½, being 1½ ⅌ cent. better, and New-Jersey Mining to 12½, being ½ improvement. There was also a large private sale of Sussex at 12½. The new arrangements just concluded by these Companies for the practical development of the business in Zinc paints, it is believed, will add largely to their profits. Some wealthy gentlemen of New-Jersey have become interested in these Stocks, whose enterprise and capital will give an immediate and important impetus to the business. At the Second Board the feeling was upward for the leading Stocks, with considerable speculative feeling. Government and State Stocks are firm and in fair demand. United States Sixes of 1867 advanced ⅛. Delaware and Hudson sold at 98½, a decline of 1 ⅌ cent. Bank Stocks are steady.

The market is not active for Exchange, and the rates have rather a downward tendency. Sterling is 9¼@10½, the bulk of the transactions being at 10@10½. The Southern Bank agents are selling at 10¼, with City endorsements. The leading drawer is settling at the same rate. Francs are more plenty and lower, good bills having been sold at 5.17½@5.15.

The supply of Sterling is rather larger, and the demand not very active. Some decrease in the demand may be anticipated after the dividends have been remitted.

Freights are firm and more active for Cotton, but there is no change in other produce. Engagements 500 or 600 bales Cotton at 5-32@3-16d. Flour is 9d.; Grain 3d.; Dead Weight 12s. 6d.@15s.; 200 Shooks 3s.; Cheese 20s.; Resin 9d., &c. To London there is but little doing. To Havre a considerable amount of Cotton has been shipped. The packets of the 8th and 16th inst., are full at 1c., and the steamer Franklin at 1c. To California engagements are making at 50c.@70c. per foot.

There is a growing ease in the Money market, both on call and on paper. Of the latter there is but a small quantity of first-class in the market. Single name is rather slow, but two names are passed easily at 7@9 ⅌ cent. Erie Acceptances 8@9, and in demand, as they are receivable in payment for the new loan. On call the supply is free at 7 ⅌ cent., and some loans are making at 6 ⅌ cent. The Banks, it is estimated, have now in their vaults fully nine millions of coin, of which nearly four are in four Banks, and they are discounting with freedom, their offerings of the right grade. This amount of specie will probably be considerably increased during the month, as the shipments promise to be much less than the receipts from California.

In conversation to-day, with the head of a leading San Francisco Banking House, he predicted to us a yield of a hundred millions of gold in 1852, and a receipt in the United States of seventy millions.

We have news of two failures to-day; one we know to be false and the other is not very important if true.

The receipts of the Harlem Railroad Company continue to show a gain over last year. The earnings in

December, were	$49,151 66
December, 1850	40,770 92
Increase in 1851	$8,380 68

The opening of the road to Chatham, will give it a much more extended area of traffic, and its extension to Troy, will give it a connection with the northern web of roads, which must prove of great value.

The payment at the Sub-Treasury on account of the interest on the public debt, reaches nearly a million of dollars.

The Merchants' Insurance Company has declared a semi-annual dividend of 6 ⅌ cent., payable on the 16th inst.

Mr. Simeon Draper sold at auction to-day the following Stocks belonging to the defunct James Bank.

New-York 5s, 1855	$1,000	100½
" 5s, 1858	4,000	101
" 5s, 1860	5,000	101½
" 5½, 1860	2,000	105½
" 5½, 1861	4,000	105½
United States 5s, 1853	5,000	101
Michigan 6s, 1858	18,000	91

The prices obtained are rather higher than those at the Stock Board.

The Buffalo and Rochester Railroad Company have declared a semi-annual dividend of 5 ⅌ cent. The Alliance Insurance Company of Boston has declared a dividend of 16 ⅌ cent., amounting to $82,000, payable in scrip, for its earnings the past year, being the first year of its establishment. The Trenton Banking Company has declared a dividend of $1 25 on each share, equal to 4 ⅌ cent.

The Boston steamer will probably take a quarter of a million in specie on Wednesday.

We have a letter from Springfield, Ill., dated Dec. 15, which says that the Auditor has decided to carry into effect the Bank Law, and will give notice of his readiness to receive deposits of stocks and deliver circulating notes. A Bank has been organized at Chicago called the Merchants' and Mechanics' Bank. Capital, $100,000. President, L. D. Boone; Cashier, Stephen Bronson. Another is to be organized at Springfield by New-York capital.

There will, judging by present appearances, be a large number of bidders for the new Bonds about to be issued by the Erie Railroad Co. An offer of 85 was made to-day by responsible parties for the entire loan, and refused. They will probably bring in the neighborhood of 90. It must be remarked that these new Bonds are ten years shorter than the Convertibles, which sold at 90, and have about 1½ ⅌ cent. advantage for the taker, as they bear interest from January 1, while the last installment is not due until the 1st of July. This should be remembered in making bids.

The report of the Erie Company to the State Engineer states that in the fiscal year 1851, the Company conveyed 688,789 passengers and 250,096 tuns of freight, against 414,727 passengers and 131,312 tuns freight in 1850.

The annexed statistics of the Cotton movement show that the receipts at the ports continue to exceed those of last year, but that the exports are still behind:

The following is a statement of the movement in cotton since the 1st Sept. last, as compared with the previous three years:

	1852.	1851.	1850.	1849.
Receipts at the Ports	203,000	209,000	204,000	237,000
Exports to Great Britain	127,000	128,000	120,000	132,000
Exports to France	110,000	130,000	90,000	75,000
Exports to other For. ports	45,000	67,000	56,000	73,000
Total Exports	452,000	455,000	413,000	507,000
Stock on hand	387,000	421,000	457,000	400,000

Of which during the past week, included in the above:

	1852.	1851.	1850.	1849.
Receipts into the Ports	40,000	50,000	37,000	130,000
Exports to Great Britain	27,000	21,000	40,000	14,000
Exports to France	10,000	20,000	2,000	2,000
Exports to other For. ports	1,000	9,000	3,000	3,000
Total Exports	38,000	41,000	45,000	19,000

From which it will be seen that the excess in receipts now amounts to 56,000 bales. The increase in exports to Great Britain is 39,000; decrease to France, 20,000; to other foreign ports, 22,000. Total decrease in exports, 3,000 bales.

The Atrato Interoceanic Canal Company is forming in this City, to undertake this important work in earnest. The route possesses advantages which Baron Humboldt long since proclaimed to the world, and which are in part recorded in Congressional documents. (House Report No. 145.) The Atrato route is the most southern of those proposed for water communication between the two oceans. It commences at the very root of the Isthmus, where the Bay of Uraba opens the way into the mouth of the Atrato. This is a fine stream about 180 miles in length, with a very straight course and gentle current, and a depth of 7½ to 12 feet, according to the season. It rises in a swamp, which, on the south-west, sends out the San Juan, whose course for about 60 miles brings it to the Pacific, and one of the finest harbors known. Both these streams flow through regions abounding in gold mines, and the mountain ranges, which interpose an uninterrupted wall between the oceans, from Mexico downward, here sink and disappeared. Yet these two rivers have been out of the range of travelers since the overthrow of the Spanish power. The population is very thin, and some large districts are almost unpeopled and in the possession of Indians. Humboldt learned, to his surprise, that a canal was dug in 1784 between the head waters of the two rivers, by the inhabitants, and served for many years for the passage of loaded boats, carrying merchandise between the western coast and different points, even as far as Carthagena. The Congress of New-Granada have recently granted to some Americans an exclusive privilege to make a canal for the passage of larger vessels, with rights and facilities of the most favorable character.—Everything indicates that active operations will soon be commenced in those new and inviting regions, in various departments of industry. Specimens of several ores, particularly of gold, are in this city, which attest the riches beneath the soil, some having yielded at the rate of $22 to the pound. The rock is easily pulverized.

New-York Cattle Market—JANUARY 5.

[Reported for The Tribune.]

At the Washington Drove Yard, corner 4th-av. and 25th-st., and at the Hudson River Bull's Head, foot of Rose-st., for Beeves. For Cows, Calves, Sheep and Lambs, at Browning's 6th-st., near 3d-av.

AT WASHINGTON DROVE YARD.—Offered, 1,500 Beef Cattle (50 Southern, balance this State.) Market dull.—Sales good retailing qualities at from $6@$8 50. 200 head left over.

AT BROWNING'S.—60 Cows and Calves. Sales at from $23 to $32 50. All sold. Sheep and Lambs—3,500 in market. Prices range at from $2 75@$4@$7 25 for the former, and $1 50@2 25@3 25 for the latter.

AT CHAMBERLAIN'S—HUDSON RIVER BULL'S HEAD.—At market, 300 Beef Cattle—on hand 100—sales at 6¼@c. 3,000 Sheep and Lambs—on hand 500. Prices of Sheep $2, $3 50@$5 50; Lambs at $1 75, $2 50@$3.

Markets.....CAREFULLY REPORTED FOR THE TRIBUNE.

MONDAY, Jan. 5, 1852.

ASHES—The market is more active. Sales of 175 bbls. at $4 87½ for old Pots and $5 for new bills. Pearls command $5 62½ in small lots.

COTTON—The market is more active, but at no advance in price. 2,500 bales have changed hands, and the market closes more firmly.

FLOUR AND MEAL—There is increased firmness in our market for the low grades of State and Western Flour. There is a better demand for home and Eastern trade, and some shipping inquiry. The private advices by the Atlantic are more favorable than the published accounts, and we hear of numerous orders for export, generally limited to below our present quotations. The receipts via Railroad are quite light, and there is very little to be had at the close at our inside figures. Canadian is quiet, it being held above the views of shippers; $4 37½ is offered freely and declined. The sales of domestic reach 3,000 bbls. at $4 44@$4 50 for common to straight State; $4 50@$4 75 for mixed to fancy Michigan and Indiana, and $4 50@$4 62½ for good Ohio and favorite State; Southern Flour is in good demand in part for shipping, and we hear of sundry lots being shipped from first hands, closing with more firmness. The transactions reach 1,800 bbls at $4 44@$4 50 for mixed to straight brands, and $4 75@$5 25 for fancy. Rye Flour is scarce and wanted at $3 50 for fine and $4 for superfine. Corn meal is inactive and the supply light. Sales of 100 bbls. superior Jersey at $3 37½.

GRAIN—Our market for Wheat is better, the demand is more active both for exports and for milling; there is very little offering, and the tendency is strongly upward; sales of 7,000 bush. good mixed Ohio at $1. Rye is quiet and is nominal at 70c. Barley is heavy at 80c. Oats are plenty and are in fair request at 40c@40½c. for State and 43c@43½c. for Jersey. Corn is in fair demand for the local consumption and the East, and the market is steady. White is scarce and wanted, and prices nominal; the sales are 21,000 bush. western Mixed in lots at 60c. in store, other kinds are nominal, with very little new offering.

WHISKY—The market is lower, and is still heavy. The demand is moderate. Sales of 150 bbls Prison, at 21c. Drudge is dull, at 21c. Our last report was incorrect.

PROVISIONS—Our market for Pork is dull and drooping. The supply is larger in excess of the demand, and prices favor the buyer. Sales of 100 bbls., at $14 62½@$14 75 for old Mess; $13 37½@$13 50 for do. Prime; $15@$15 12½ for new Mess, and $13 75@$13 87½ for do. Prime. Beef is inactive, but steady. Sales of 100 bbls., at $8 25@$9 for Mess, and $6@$5 50 for Prime. Prime Mess is inactive, at $15@$15 50. Beef Hams are steady. Sales of 75 bbls., at $13 75@$20 ⅌ bbl. Pickled meats are dull, and quotations would be nominal. Dressed Hogs are less plenty, and they are in demand, at 8½c. Lard is firm, but very dull. The supply of City made is large, and daily increasing. Sales of 100 bbls. prime, at 8c., and 200 kegs good to extra, at 9@9½c. Butter is dull, but steady, at 11@11½c for Ohio, and 14@16c. for Western New-York. Cheese is very quiet, at 6½@7½c. for fair to prime.

TOBACCO—There is more doing, but prices are unchanged. Sales of 50 hhds. Kentucky, on private terms; 60 bales, of Havana, at 40c., and 200 bales of Cuba, on private terms.

TEAS—The public sale of Teas on Saturday, by Messrs. Hoffman & Co., though the first of the season, was one of old qualities, and did not meet with much favor from the trade. The Blacks realized the closing prices of last year, but the Greens sold at a decline of 2c.

WOOL is more quiet. There have been some failures among the manufacturers which has produced much distrust in the market. For cash payments the market is uncomfortably easy. Stocks are large in the country under hypothecation, though small here. 12,600 ℔ unwashed Southern Fleece sold at 22c.; 3,600 ℔ do., 19c.; 23,000 ℔ unwashed at 19c.; 3,000 ℔ Fine Fleece at 43c.; 14 bales super pulled Wool and No. 1, at 32c.; 30 bales extra at 37c. @38c.

Receipts of Produce
