The Great Kentucky Remedy.—Dr. John Bull's sarsaparilla has never failed to give relief. Among the medical productions that science has discovered, or are prepared for the alleviation of human suffering, from diseases which spring from a vitiated condition of the blood and organs of nutrition, foremost stands Dr. Bull's improved and genuine sarsaparilla. Where other remedies have failed to destroy the essential principle of disease, as it was worming its mole-like way into the tissue of the body, and undermining the foundations of health, this remedy, pervading every organ, tissue and part of the body, has, by its powerful alterative influence, arrested its progress, and has never, in a single instance, failed to remove disease from the system. As the genial rays of a vernal sun infuse new life into the vegetable world, so does this invigorating preparation of Dr. Bull's invigorate the debilitated and sickly, and call a new life, fresh and blooming, springs up from the parched earth after copious showers, so does health, strength and happiness follow the footsteps of this all-searching remedy. Hundreds are dragging one lee after the other, from the shattered condition in which they were left by last year's epidemic. Thousands are suffering from extreme debility, pains in the bones, torpid liver and indigestion, from the effects of medical new shop treatment in cases of diarrhœa. To all such we say, give Dr. Bull's sarsaparilla a trial. It invigorates the liver to immediate action, gives tone to the stomach by removing all morbid secretions and strengthening the digestive organs, and is the only true scientific preparation of sarsaparilla that can be relied on.
