WEDNESDAY, Jan 7—P.M.

There was a steady feeling in the Stock market to-day without any important changes from yesterday. Erie Stock and Securities are firm and not offering in large quantities. Reading had an upward tendency under rumors from Philadelphia that a 4 ⅌ cent. cash dividend had been made by the Directors, and it closed at 60⅞, seller thirty. For Norwich 51 cash was bid, dividend off. The receipts of December show a small gain over those of December, 1850. A sale of Farmers' Trust was made at 72, seller thirty, being the first sale of this stock at the Board within a month. Delaware and Hudson was very heavy, and 96 only was bid. Government Stocks are in good demand, and 6s, 1867, advanced ¼ ⅌ cent. There is some foreign demand, and the Treasury Report has had a favorable effect. There is a good inquiry for Bank Stocks at full prices. At the Second Board the market was steady, with a firmer feeling in the Mining Stocks.

The market is quiet but steady for Exchange, with only a moderate supply of bills other than those drawn by Bankers. Sterling is 10⅛@10¼c. for first class names, with some produce bills at 9⅞@9⅞c. France are rather firmer at 5.16⅛@5.13⅛. Amsterdam, 41½@41⅝c. Hamburg, 36⅛@36⅜c. Bremen, 78⅛@78½c.

In Freights there is a moderate business doing at previous rates. To Liverpool, 2,500 bbls. Flour 9d., 2,000 bbls. Stores 18d., 500 bbls. Resin 9d. To London, 12,000 lbs. Bone 4d., 2,500 bbls. Naval Stores 1s. 9d. & 2s., some Heavy Goods 25s., 90 tcs. Rice 20s., and half-pipes Wine 6s. Two vessels were chartered for Porto Rico at 37½@40c. for Sugar and $3 for Molasses, and port charges paid. Another from Cuba at $3 for Molasses. A Dane to load Paddy at Charleston for Copenhagen at 8½d. An American bark for light staves to Marseilles at about $15. An American bark to load Coffee at Rio at 95c. for New-York, and an English ship to load Flour at Baltimore for London at 2s. 3d. The ship Congress, 357 tuns, 20 years old, sold for a whaler at about $8,000, and the ship Winfield Scott has also been sold on private terms. An Ice freight for Antigua was made at previous rates. To Havre Cotton is steady at ⅛c.

The receipts at the Sub-Treasury were large to-day—$257,269. Payments, $11,610. Balance, $1,709,176.

There was a current rumor on 'Change to-day that a very large failure would be announced this afternoon. After full inquiry we could not learn the name nor the truth of the rumor.

Some of the New Jersey Free Banks appear to find it very difficult to take care of their circulation and arrangements are making to send their notes home for redemption, where few or none are prepared to meet them. The notes of two of these Banks were not redeemed to-day by the owners. Nearly one-half of the circulation of this City now consists of this Jersey currency which appears to be not a very desirable substitute for our own State currency which we previously had.

The Marion brings $1,290 in specie. The Cunarder from Boston, to-day, took only $23,000 in gold. The steamer on Saturday will probably have in the neighborhood of half a million, but as the Banks are supposed to hold now nine and a half millions this will produce no effect on the market.

A letter from London, by the last steamer, says:

The crisis in France has induced many English capitalists to invest their surplus funds, this week, in American stocks. I understand that the Barings, Mr. George Peabody, Messrs. Bell, Son & Co., and other holders of our stocks, have lately had numerous inquiries respecting the condition of different State and City Stocks in the United States.

The Ohio and Pennsylvania Railroad was completed and opened to Alliance, where it connects with the Cleveland and Columbus Railroad, yesterday, and the passenger trains to Cleveland went through the entire distance. This completes a continuous chain of railway from this City to Cleveland and Cincinnati, with the exception of some 30 miles next east of Pittsburgh. The Ohio and Pennsylvania Road will be further completed to Massillon in a few weeks.

It appears that something must be speedily done to prevent the sale of the Merchant's Exchange under judgments obtained by the foreign holders of the bonds of the Company. The Court of Appeals have confirmed the judgment obtained by James G. King, Receiver, for about $800,000. The sale of this property to foreign capitalists would be a disgrace to the merchants of New-York, and we should think there was patriotism enough among them to relieve this Company from its embarrassments. The rents are now about $75,000, and the property, which cost $1,000,000, would seem to be ample security for the amount needed.

The Telegraph reports the failure of Mr. Glendy Burke, of New Orleans, facetiously called "Glenby Burke" in the telegraph to the Evening papers. He was formerly President of the Canal Bank, and considered a man of wealth.

The Equitable Insurance Company have declared a semi-annual dividend of ten per cent., payable on the 10th inst.

It will be seen from our advertising columns that the Milwaukee and Mississippi Railroad Company have made prompt provision for the payment or their semi-annual interest, which became due the 1st inst.

The Road contemplated to be built by this Company reaches from Milwaukee, on Lake Michigan, to the mouth of the Wisconsin River at its confluence with the Mississippi River, about two hundred miles, taking an almost direct course west, passing through the heart of the State of Wisconsin, and when completed will be one of the grand highways of the country. Madison, the Capital of the State, is on a direct line midway between Lake Michigan and the Mississippi River. Already is there along the line of this Road, as appears from the last Census, a population of near two hundred thousand inhabitants, whose passage and business will, of necessity, fall upon the Road, saying nothing of the vast business accumulated and accumulating upon the Upper Mississippi River, that will become tributary to a greater or less extent to this Road. The Road was opened as far as the village of Waukesha, twenty and a half miles, on the 25th day of February last. To this point it cost about $210,000. Its net earnings over and above expenses upon this twenty and a half miles, are as follows:

NET EARNINGS ABOVE EXPENSES.

March	$719 26	August	$2,310 00
April	840 93	September	2,240 00
May	1,333 24	October	2,529 02
June	1,663 96	November	2,451 00
July	2,226 76		
Total			$16,314 17

These figures show that upward of $2,000 ⅌ month of net earnings were realized from the opening of the Road, and should the remaining months of the year show as good earnings, it will appear that a dividend equal to 10 ⅌ cent. has been realized upon the cost of the Road to Waukesha.

One very great merit of most of the Western Roads is the cheapness of construction, and the Directors of the Milwaukee and Mississippi Railroad Company appear to have managed the construction of the Road with very sound economy. The estimated cost of the Road from Milwaukee to Whitewater—the first division—a distance of fifty miles, as appears from the Engineer's report, was $12,162 22 ⅌ mile, including depôts, furniture and right of way, and so far as the experiment has been made, the estimate has been found in the main to be accurate.

The Company have just now added about seventeen miles more to the Road, making in all say thirty-seven miles in operation. At this point it will command the transportation of Wheat and other grains—the great staples of the country—which it could not do when running only twenty miles, so that the earnings of the Road may be expected to be more than proportionably enhanced.

Further, it is understood that the Road is under contract with very responsible parties, to be completed next year to Rock River, an additional distance of thirty miles, at which point it will sweep the whole business of the valley of that river, lying in Wisconsin, already so celebrated for its fertility, and the enterprise and thrift of its population.

Markets—CAREFULLY REPORTED FOR THE TRIBUNE.

WEDNESDAY, Jan. 7.

ASHES—The market is without change. Sales of 50 bbls. at $5 for Pots, and $5 62½ for Pearls.

COTTON is very active at about ¼c. advance. 2,500 bales sold, partly to arrive, and intended for shipping.

FLOUR AND MEAL—The market is firm for the low grades of State and Western Flour, the demand more active for the trade, and little or nothing to be had below our inside figures for State. There is a good demand for State for export at $4 37½@$4 44, but these prices are declined. There is more doing for the East, and with little arriving via railroad, the market closes buoyant. Canadian is better, and in demand. Sales of 2,700 bbls. good straight brands at $4 50. The sales of Domestic reach 4,600 bbls. at $4 50@$4 56½ for common to straight State; $4 58@$4 75 for mixed to fancy Michigan and Indiana; $4 62½ for good Ohio and favorite State. Southern is more active, with a good demand for the trade and for export. The supply is still moderate. Sales of 2,300 bbls. at $4 44@$4 56½ for mixed to straight brands; $4 75@$5 25 for fancy. Included in the sales are 1,000 bbls. old Brandywine in store at $5 25 for export. Corn Meal is quiet at $3 25@$3 37½ for Jersey. Rye Flour is dull. Buckwheat Flour is plenty at $1 56@$2 37½ ⅌ 100 lb.

GRAIN—There is a fair demand for Wheat, and there is more willingness on the part of buyers to meet holders, and the market is buoyant. The demand is fair for export.—The sales are 9,000 bush. Canadian White on private terms, and 1,800 bush. Long Island at 95c. for Red, and $1 for White. Barley is heavy and more freely offered. Sales of 2,000 bush. good two-rowed (Long Island) at 90c. Rye is quiet; some small lots have been sold at the Railroad Depôt at 77c. Oats are plenty and hardly so firm; sales of State at 45@46c. and Jersey at 43@47c.; the supply is increasing. Corn is very steady and in limited demand for the home trade and the East; there is some inquiry for White for export, but the sales are none on the market. Sales of 5,000 bush. Western Mixed at 55c. in store. Northern and Southern Yellow are nominal at 59@60½c.

WHISKY—A fair demand for Prime, and with a good supply prices are a shade lower. Sales of 220 bbls. at 20½@21c. Dredge is quiet at 20½c.

PROVISIONS—There is rather more doing in Pork, and the market is better for new. The receipts are light, and the demand for lots to go out of the market is better. Sales of 700 bbls. at 14 62½@14 75 for old Mess; 13 37½@13 50 for old Prime; $15@15 25 for new Mess, and 13 75@13 87½ for new Prime. Prime Mess is dull at $15 for City cut, and clear at $16. Beef is in moderate demand, and the market is steady. Sales of 100 bbls. Extra Mess at 10 75, and 70 bbls. Country Prime at $4. Prime Mess is in limited demand at $15@$16. Beef Hams are plenty and are dull—Sales of 50 bbls. at 13 25 ⅌ 200 lbs. Dressed Hogs are in demand at 6¼@6½c. Lard is in fair request and is firm. The supply is moderate. Sales of 100 bbls. and firkins at 9@9½c. and 150 kegs at 9½@9¾c. Butter is more salable, at firmer prices. Cheese is dull at 6½@7½c.

NAVAL STORES are dull. Rough Turpentine is very firm at $3 66, with sales of 1,200 bbls. for three days. Spirits are heavy, and only small sales are reported at 34@35c., which is lower. Resin is very little sought for; 1,400 bbls. sold at $1 37½@1 37½ for common Wilmington.

RICE continues to sell, to arrive. The shipping demand is fair; 400 tcs. sold at $3 12½@$3 50 for export; prime is scarce.

HEMP is very steady, with few transactions; 100 bales American dew-rotted sold at $117 50.

TEXAS—Messrs. Hoffman & Co. offered another catalogue of Texas to-day, which fell heavily on the market. The lots were very undesirable. The Blacks were nearly all withdrawn, as satisfactory prices could not be obtained. The Greens, which formed the greater part of the offering, were forced to a sale, and realized a decline of 2c. since Saturday, making 4c. since the close of last year.

FRUIT—We have only to note sales of 800 boxes bunch Raisins at $1 62½.

WINES—The sales of Wines are 152 quarter casks Burgundy at 47½@50c.; 150 do. Port at 72½@$1 75; 50 do. Sherry at 50@57½c., and 400 baskets Champagne at $5 50@$15 25.

This principle is being judiciously carried out by the Association, and the result cannot fail to be the laying a foundation for each member of a competency, if not wealth.
