FINANCIAL.

$1,000,000 BONDS OF THE VIRGINIA AND Tennessee Railroad Company.—Proposals will be required for the whole or any part of the above issue of bonds. They are dated 1st July, 1854, and payable to bearer, in the city of New York, on the 30th June, 1884, with interest coupons attached, at the rate of 6 per cent per annum, payable semi annually at the Bank of America, on the 1st of January and July of each year, and one half their amount convertible into the stock of the company at the option of the holder. These bonds are issued under full authority of the stockholders, for the purpose of finishing and equipping the road, and they are secured by a second mortgage on the road, with all the real estate, fixtures and equipments, franchises, appurtenances and privileges appertaining thereto. The first and prior mortgage is for $1,500,000 of which $1,000,000 was taken by the State of Virginia, on the following very advantageous terms:—Six per cent interest, and the principal to be liquidated by payments annually of one per cent for thirty-four years, commencing on the 1st of July, 1853. The remaining $500,000 were sold at par. The capital of the company is $3,000,000, three-fifths of which is held by the State of Virginia, and the whole amount paid in is $2,975,100. The length of the road, from the city of Lynchburg to the Tennessee line, is 204 miles, of which 13 are entirely finished and in operation. The remaining sixty nine miles require only $235,000 to complete them, and ten months labor is only necessary to put the entire road into full operation. There has been expended on the road about $5,000,000 in construction, rolling stock and expenses, a sum double the amount of both mortgages, which together do not exceed $15,000 per mile of road. The road forms a link in the chain of roads which are to become probably the most important route in the Union, giving an almost straight line from the Northern and Eastern cities to those on the Gulf of Mexico and the Mississippi, shortening the distance more than two hundred miles; and there is but one more link to be finished to afford a continuous railroad transportation from the city of Washington to Montgomery, Alabama. But independent of the travel that will come to it as a part of the great South and North line, the Virginia and Tennessee Railroad can rely on local business of its own, which is clearly ascertained by the earnings of last year, with only eighty five miles open, ($163,039 79,) as being sufficient of itself to support the road. It passes almost its whole length through a region abounding with a variety of minerals of the most valuable nature, such as lead, coal, iron, copper, salt and gypsum all of which exist in great abundance, which have been hitherto neglected, but which now flow being developed so that they can be conveyed to market. In short the prospects of the road are most flattering; and restored as it has been by the State, and supported generally by the people of Virginia, with so large a cash capital actually paid in, it is believed no security has been recently offered of a better character. The Company have agreed to set apart one per cent annually on the amount of their bonds from the earnings of the road as a sinking fund to meet the payment of them at maturity; and the stockholders have adopted as a line of policy, to declare no dividend excepting from a cash surplus, after the interest and sinking fund have been provided for.

The terms on which the sale will be made are 25 per cent down, and the balance in payments of 10 per cent, every thirty days till all paid. If the whole amount is paid at once, interest to 1st July to be allowed. The right of rejection of any or any part of the bids is reserved, if deemed for the interests of the Company to do so. The bonds will be lodged in bank, to be delivered when the whole amount is paid. Full information will be given on all subjects connected with the financial affairs of the Company, which could be derived by parties wishing to offer for the bonds, and documents and references obtained by applying to Adrian H. Muller, Esq., No. 38 Wall street, New York, to whom offers must be sent, sealed, and marked "Tender for Railroad Bonds," on or before the 25th day of May next.
