We Extract from the St. Louis Republican the following article respecting an important improvement in manufacturing a valuable commodity in commerce, which, if it be the offspring of a scientific pen, and it is doubtless written by a man of close observation. If the saving of "one third" is established, the value of the improvement must be immense. Parties wanting information respecting this matter can ascertain of us to whom to apply:—"Improvement in the Manufacture of White Lead.—Mr. Editor—I have recently witnessed some experiments in the manufacture of white lead, by a patent, to a new process, for which a patent has recently been obtained, by a citizen of this city, which strikes me as a great improvement on the plan at present adopted. The process by which the metallic lead is converted into the carbonate of lead is at once simple, speedy, economical and thorough. When carried out, this plan will, I am satisfied, result in a saving of at least one third of the cost attending the present mode of manufacturing this important article of commerce, and as a consequence will redound greatly to the benefit of the patentee as well as to the public generally, who are large consumers of white lead. The proprietors are busily engaged in carrying into effect their new improvement, and the numerous specimens which they have produced are all of a superior quality, and leave no doubt of the success of their plan. The public will soon have an opportunity of examining these specimens for themselves, and of judging of the merits of the process by which they are produced."

A Safe—A Bargain.—A Superior Safe for sale low, only thirty days in use; the best make in the city. Address C. P., Herald office.

Prof. M. Vergnes' Electro-Chemical Baths. —The efficacy of the electro-chemical baths, discovered by M. Vergnes, in extracting from the human system all mealific substances, either taken as medicines or absorbed while exercising the professions of painters, gilders, looking-glass platers, &c., is no longer a question of doubt. Prof. Vergnes' experience warrants him in affirming and guaranteeing that these baths will relieve and permanently cure all those afflicted with rheumatism (inflammatory or chronic) paralysis, neuralgia, contracted muscles and the various nervous and dyspeptic affections caused by the presence of minerals in the system. The remedy is simple in its arrangements and almost instantaneous in its effect; differing far from all other medical expedients, it simply strengthens Nature in her efficacy by an agent at once potent and kindred in character, and thus enables her to expel the morbid causes of disturbance, and to restore the normal conditions of health. A large, well furnished and appointed house has been opened at No. 710 Broadway, where the Professor will give his personal attention to those who may require his services. He will be assisted by an intelligent and competent physician; and for the better convenience of some of his patients, will continue his branch establishment at No. 200 Sixth avenue. He begs to inform the medical profession, and the public, that he has made arrangements which will enable him to give the baths at the houses of those patients who are unable to visit him. Several new methods have been discovered and applied with great success to local inflammation. As the application of the bath, by incompetent or unskilful persons, might result in serious injury instead of benefit, patients would do well to apply to Prof. VERGNES direct, or at least to thoroughly satisfy themselves as to the competency of such as propose its application. N. B.—Persons from the country may be accommodated with board in the same building. A few students will be received. Special department for ladies.

Forty Years' Experience and Practice on diseases of the human hair, by A. GRANDJEAN, for the last twenty years had his office at No. 1 Astor House. Be Cautious.—Impure Cod Liver Oil.—It requires great care in order to obtain the pure article, as there is so much sold that is unfit for use and injurious to the health. There being no certain test for pure cod liver oil, persons cannot be too careful in procuring it from undoubted sources. I warrant every bottle of my oil pure as it runs from the codfish livers, light straw color and sweet, no rancid or unpleasant taste to it as most of it have. FREDERICK V. RUSHTON, only at No. 10 Astor House, corner Barclay street, and No. 417 Broadway, corner Canal street, New York, and No. 170 Chestnut street, Philadelphia, where a treatise giving the curative properties of the oil in consumption may be had gratis. Scrofula, Eruptions, Rheumatism, Mercurial and other ulcers cured, no matter how extensive or long standing. The following statements are a few out of hundreds; go and see them.—

Having suffered dreadfully from scrofulous ulcers on my face, head, nose, throat, tongue, arms, hands, and other parts of my person, for over one year, and having been attended by Professor Parker, and Drs. James R. Wood and Kimbark, who pronounced my case hopeless, I was recommended to Dr. Heine, 353 Broome street, who cured me in a very short time. I shall with pleasure impart further particulars by calling at my residence, 682 Fourth street, near avenue D.

MRS. MARGARET DEAY.

I was cured by Dr. Heine, 353 Broome street, of a dreadful ulceration of my throat and nose and excruciating pain and swelling of my bones and joints, after having been under the care of Drs. Bush and Cochrane, in the City Hospital, and under the care of Drs. James R. Wood, Chalmers, Griffin, and others. Dr. Heine cured me in a few weeks. For further particulars call at the boarding house of Mrs. Murphy, No. 148 Walker street. SOLOMON GIBSON.

With pleasure I in crm my friends and the public generally, that I am restored to perfect health, after a great deal of suffering from a great number of large ulcers—I had lost the entire use of my limbs, my joints were all stiffened—in fact no one ever supposed that I could be cured. After having tried many doctors and spent hundreds of dollars for all kinds of quack medicines, Dr. Heine, 353 Broome street, soon cured me with very little medicine.

THE BEDOTT PAPERS

Is now the book most talked about. The most staid and conservative editors cannot keep their faces straight.

Says the New York Observer:—A volume more full of genial humor and irresistible Yankee character has not yet been published—not even excepting the experiences of the renowned "Sam Slick."

Says the Boston Olive Branch:—The book is one that will keep all eyes wide awake. Its author was a gifted creature, the wife of a clergyman, and is now, alas, dead. Here were the keenest powers of satire—her drollery is inimitable. The preface is delightfully written by Alice B. Neal.

Says the New York Evangelist:—A book of genuine humor and well directed, successful sarcasm. The foibles of female character, the ugliness and absurdity of envy, detraction and match-making, and other prominent sins, are hit with great point and shrewdness.

Says the New York Commercial Advertiser:—The Widow Bedott is a rival to Sam Slick, and in some respects is much the most ludicrous and mirth-provoking of the two. She is made the medium of the most humorous sketches of Yankee character, which it is impossible to read without laughing immoderately.

The publisher takes the liberty of adding the following. On page 31 of the book the Widow writes as follows:—

I'll never change my single lot—
I think twould be a sin—
The inconsolable widow of Deacon Bedott
Don't intend to get married agin.

But after her capture of Elder Sniffles, she indites the following lines to him:—

Priscilla the fair, and Shadrach the wise,
Have united their fortunes in the tenderest of ties,
And in sweet mutually joining in the sacrimonial connection,
Have bid adoo to their previous affliction.

The rest of the poem the reader will find on page 190 of the book, which can be found at all bookstores. Price $1 25.
