TO WHOM IT MAY CONCERN.—In the trunk of DANIEL DUICE, lately arrested for depredations upon the U. S. Mail at Columbus, Ohio, there were found, among other things, the following DAGUERREOTYPES, supposed to have been taken from the mails, viz:

One double Jenny Lind case, containing picture of Gentleman and Lady—case bound with scarlet velvet, and brass edges. The gentleman has the appearance of sandy complexion, is bald on the front part of his head, and has whiskers on the lower part of his face; has on bosom pin, and cane in his hand; appears to be thirty-five or forty years old.

One quarter case, lined with silk velvet, gilt inside, containing the picture of a gentleman, with high forehead, hair combed on top of the head, and appears to be somewhat curly; age probably about forty.

Four 1-16 cases containing pictures—one of a Lady, and three of Gentlemen. These cases and pictures contain no peculiarity by which they can be particularly described.

Persons who have lost Daguerreotypes sent by mails passing through this point, may be able to find them by attending to this notice, and are requested, without delay, to call at the Columbus, Ohio Post Office, or to address me by letter. A. F. PERRY, P. M. Columbus, O. 6f lm

ZINC PAINTS.—The New Jersey ZINC CO., having enlarged and completed their works, are prepared to supply from the Company's warehouse, their white and colored Zinc paints, at the following reduced prices:

No. 1 White ground in oil 9 cts. per lb.
No. 2 White ground in oil 8 cts. per lb.
No. 3 White ground in oil 7 cts. per lb.
Brown and Black ground in oil 5½ cts. per lb.
Dry white of Zinc 6 cts. per lb.

WHITE ZINC PAINT, after several years trial in Europe and the United States, both as inside and outside paint, has been found to retain its original beauty and protective properties longer than any other paint; and for whiteness and brilliancy it stands unrivaled; and as the same weight will cover from 40 to 50 per cent more surface than the same weight of lead paint, it is really much cheaper to the consumer. It is warranted free from adulteration, and no stronger evidence can be afforded of its superiority than is derived from the fact that the French Government, after long continued experiments, has adapted its use in all its buildings and public works. It has no poisonous properties, like other pigments, so injurious to the health of workmen and of families occupying rooms recently painted. As an inside paint, it will not turn yellow, even when exposed to the sulphurous gases of coal fires or the foul air of ships. Their White Zinc ground in varnish produces the porcelain finish. Their

BROWN AND BLACK ZINC PAINTS have peculiar drying properties, which in a few hours form a hard and solid metallic coating upon wood, brick, iron and other metallic surfaces, remarkable for their fire-proof properties. They are well adapted for marine purposes, having been found to resist the corroding action of salt water, so destructive to other paints. Dealers supplied on liberal terms by MANNING & SQUIER, Agents, No. 45 Dey-st., N. Y. 9f tf

RHEUMATIC and PARALYTIC REMEDY.—These Purgative Powders are one of the most valuable preparations known for Rheumatism. Their operation and action appear to be a specific, if not infallible. They are also highly recommended for Paralysis.

The annexed list of persons is given as references of the curative qualities of these Powders: Aaron Swartz, Post-Office Chatham-square; Col. Hulshart, No. 39 Hester-st.; Samuel Taft, No. 164 Madison-st.; Peter Henderson, No. 172 Madison-st.; Robert Dean, No. 159 Monroe-st.; James Lennon, No. 73 Nassau-st., and Mrs. Harris, No. 19 Gardner-st., Newark.

In very severe cases of Rheumatism a liniment is also used as an outward application, and sold with the Powders.

These Powders are put up in boxes, and the directions labeled on them. Price 75 cents a box. Prepared and sold, wholesale and retail, by CHARLES FOX, No. 214½ Division st., New-York. Sold also by JOHN SLATER, Bookseller and Stationer, No. 204 Chatham square, and GEO. LOW, No. 53 Walnut-st., Newark. 16f 13M&21f 518*

ARTIFICIAL LEECHES—ALEXANDER'S PATENT—No. 131 Fulton st., (next to Herald Office.)—These superior Artificial Leeches are coming into general use, not only in the country and at sea, where the difficulty of procuring the common Leech renders these instruments invaluable, but also in the cities, they are greatly preferred to the obnoxious reptiles for their convenience, efficacy and economy, as the cost of one application on the old system is more than that of a box of these, which are always on hand, and last for many years. In proof of their superiority, we have reports and testimonials of some of the principal Academies of Medicine in Europe and America, and of eminent physicians, which may be seen at the Office, No. 131 Fulton st. j27 1m*
