P. SATHER.

Machinery, &c.

AT last the Shoe Manufacturers of this city are awakened to the fact, if they continue to control this market, and kept pace with the extensive manufactories of Lynn, they must adopt Singer's Sewing Machine, or the sales will imperatively go where the best work is done; for nearly a year have the manufacturers of Lynn been using those machines, and reaping tremendous profits. New York must not, will not be out-done. Office, I. M. Singer & Co., No. 258 Broadway. The most incredulous thoroughly convinced by a practical demonstration. We invite all to come and witness this wonder of the age.
I. M. SINGER & CO., 258 Broadway.

DAY & McMULLEN'S PATENT HOSE.—The trial made of this incomparable Water Hose for two years past has fully demonstrated its superiority. Orders from Railroads, Factories Water Companies and others solicited. Every piece warranted to give satisfaction by the patentee and manufacturer. The following is one of the many certificates, and published to show the estimation from actual use:
JERSEY CITY, Dec. 17, 1851.
HORACE H. DAY, No. 23 Courtlandt-st., N. Y.—*Dear Sir:* It takes great pleasure in stating to you, in answer to your inquiry in regard to the India Rubber Hose furnished by you for the New-Jersey Railroad and Transportation Company, that we have found it of the very best description, and to answer much better purpose than either leather or canvas. It is not only more durable, but in the end the most economical. We have now rubber hose on some of our locomotives that we purchased of you two years ago, which has been in constant use and is still as good as ever, and I have found your four-ply to stand pressure of 150 lbs. to the square inch.
Yours, very respectfully, JAMES McFARLAND,
Superintendent Motive Power for N. J. R. R. Trans. Co.

STEAM PACKING—TYER & HELM'S PATENT.—20,000 lbs. now in store, different thicknesses. The quality of this article, which will stand near 100 degrees higher heat than any other rubber, has been tested for two years and over. The American and British steamships, and those gone to California, use it with entire approval. The undersigned will warrant this new patent packing to give entire satisfaction in every case. No person but the undersigned can use the zinc in the manufacture of rubber, and no other kind will stand as high a heat. Warehouse No. 23 Courtlandt-st. All orders addressed to the manufacturer and owner of Tyer & Helm's Patent. HORACE H. DAY.

Salamander Safes.

THE GREAT FIRE in CHILLICOTHE, Ohio. One-third of the town burnt to ashes!
CHILLICOTHE, O., Tuesday, April 13, 1852.
MESSRS. STEARNS & MARVIN—Gentlemen: Yours of the 5th is at hand. In reply, every Safe in the fire, except yours, has proved good for nothing. I lost a large Safe—it was perfectly destroyed; but in the small Salamander I bought from you, nothing was injured. Your obedient servant,
WM. T. CLEMSON.

The above letter shows that in a real hot fire RICH'S SALAMANDERS are the only Safes to be depended upon. In the Pearl-st. fire, eleven Safes, of different makers, were totally destroyed, Rich's Safe alone bidding defiance to the flames, preserving notes, bonds and mortgages, to the value of $100,000. The Chillicothe fire is a parallel case—every Safe but Rich's is destroyed. These repeated occurrences prove incontestibly that Wilder's Patent Salamanders, with Rich's improvement, are the best Safes made in the United States, or in the whole world. They can be had at the dépôt, No. 146 Water-st., and at the Factory, corner of St. Mark's-place and Avenue A, New-York.

SALAMANDER SAFES—WILDER'S PATENT—RICH'S IMPROVEMENT.—The great superiority of these fire-proof Safes over all others, in every accidental fire where they come into competition, has induced certain parties, in this City and elsewhere, to imitate the appearance of our Safe, and also to adopt the word "Salamander," which is as much an infringement of the patent as if they used the Salamander composition; and the holders or users of such so-called "Salamanders" are liable for damages to the patentee, who has commenced suits against various parties in this City for such infringement.
The public are aware that Wilder's Patent Salamander Safe, as manufactured by Rich & Co., with Rich's Improvement was the only Safe that could stand the heat of the Pearl-st. fire, when eleven Safes, made by other Safe manufacturers in this City, were destroyed. One of them, standing by the side of Rich's previous to the fire, was found afterward in the shape of a skeleton—not a vestige of its contents to be seen. In the recent fire in Chillicothe, Ohio, Rich's Safes were the only Safes that passed through the fiery ordeal; all the others were entirely destroyed. It is a fact, that in hundreds of accidental fires in various parts of the Union, during a period of twelve years that these Safes have been in use, there is no record of any book or scrap of paper being burnt in one of Rich's Safes.
The firm of Rich & Co. (now Stearns & Marvin) have been the pioneers of every improvement in Safes. They did not rest satisfied with the "Original Wilder's Salamander," which was a damp Safe, but they invented an improvement to prevent that dampness, and obtained a patent for said improvement. The consequence is, that their Safes are warranted not to weep or leak, nor damp the books and papers. They also were the first to use chilled iron in the construction of their Safes, thus rendering the burglar's tools of no avail. This improvement has lately been claimed by others, although the records in the Patent Office, at Washington, show the application of Robertson & Rich, (the predecessors of Rich & Co.) upwards of ten years ago.
A large assortment of these fire-proof Safes, with and without Yale's patent powder-proof locks, and Day & Newell's Safe locks, for sale at the dépôt, No. 146 Water-st., and at the factory corner of St. Mark's place and Avenue A, New-York.
STEARNS & MARVIN, Successors to Rich & Co., sole owners of Wilder's Patent for the States of New Jersey, Maryland, District of Columbia, North and South Carolina, Georgia, Alabama, Louisiana, Florida, Tennessee, Ohio and Indiana; and owners of half the patent for the States of New-York, Texas and California. Sole owners of Rich's Patent for the whole of the United States.

SALAMANDER SAFES—Wilder's Patent, Rich's Improvement.
STEARNS & MARVIN,
No. 146 Water-st., New-York, are the only makers of the above-named celebrated Safes, combining both patents.

DR. ROBACK'S LECTURES on ASTROLOGY and MAGIC.—LECTURE NUMBER SIX.—Astrology and Magic seem to have originated in the East, but they soon spread to the West and to the North. "Occult Science" was known to the Druids of Ancient Gaul and Briton, and practiced by the "Northmen" of Norway, Denmark and Iceland. Sweden, my own country, has from the earliest ages been famous for its astrologers, and their fame is perpetuated in many a runic rhyme and romantic story. My own family name occurs in many of these, and at the present time. Gustave Roback, my father's brother, is considered one of the first astrologists in Europe. Of myself I say, without any feeling of egotism or vanity, that the gift of divination I possess, cannot and never has been surpassed. This will scarcely be doubted when I state that of ten thousand nativities I have cast in Pennsylvania, and upward of two thousand in New-York, not one has proved inaccurate. Who has ever heard or known that I have failed in my predictions, or that my ministrations have been for other than good? I invite all who need advice, all to whom it is important to be relieved from difficulty, all who desire counsel, founded on the basis of truth itself, to my residence, No. 6 White-st., where I will unravel for them the tangled skein of fate, and present to them a chart founded on the language of the stars, in which their whole future shall be traced.

FIFTY THOUSAND PERSONS DIE annually in England of Consumption. In the New-England States the proportion is one in four or five. In Boston, probably one in four. In the City of New-York, sixty-seven died in two weeks in December of this disease. It is less prevalent in the more northern latitudes, as Russia, Canada, and among the Alps of Switzerland, where the winters are long and severe, and there are fewer sudden changes.
No theory can be more welcome to the human mind than the one which establishes on good grounds the hope for prolonged existence; if the allegations of those who are at least entitled to veracity may be believed, there is a preventative and a remedy.
The great Author of Nature has provided us with a remedy for Consumption, and the diseases leading thereto which are so fearfully common in our country. Has He left us to find relief from that fatal scourge by ransacking other lands? No, the best Nature's own Remed
