the sons and daughters of the most refined ladies and gentlemen in the land. And we shall live until the time when every child of mortality will be taken care of and led up in paths of virtue as safely as if he had been born to a millionaire's fortune. Dr. T.'s remarks were received with deep attention and satisfaction.

After the address of Dr. Tyng, the children sang "The old House at Home."

Capt. Hart then made a brief and very feeling speech. He had been a sailor all his life; he was left destitute in his infancy, and he could well appreciate the immense value of such a noble work. Capt. H. is now in charge of the Seamen's Retreat, where there is a most flourishing Temperance Society of 800 members, and much good work has been done within the past year. Capt. H. strongly encouraged the managers of the Home for Children to go on; their work was one of high moral and religious worth, and God will bless it.

The following officers were chosen for the ensuing year:

First Directress—Mrs. W. E. Tomlinson.
Second Directress—Miss C. O. Downes.
Treasurer—Mrs. W. D. Cuthbertson.
Recording Secretary—Mrs. Edward Bement.
Corresponding Secretary—Miss M. Clarkson.
Managers—Mrs. George Griswold, Mrs. Wm. H. Aspinwall, Mrs. Dr. W. Parker, Mrs. C. R. Robert, Mrs. S. B. Gilpin, Mrs. J. Wotherspoon, Mrs. J. L. Aspinwall, Mrs. Edward King, Mrs. H. K. Bogert, Mrs. W. B. Townsend, Mrs. Gerardis Clark, Mrs. John Bard, Mrs. Wm. E. Sedgwick. Misses S. Morgan, Mary Munro, N. M. Griswold, C. D. Leroy, J. Leroy, Routh, Bard, and Morris.

Board of Advisers—Messrs. W. H. Aspinwall, Chas. H. Marshall, Moses H. Grinnell, C. N. Talbot, W. D. Cuthbertson, Edward Bement and W. G. Bull.

After benediction, and the singing of a farewell song by the children, the company partook of a plentiful collation, and returned to the City just in time to be caught in the shower.

TEMPERANCE WIDE AWAKE.—Notwithstanding the inclemency of the weather last evening, another very large and respectable audience came together, showing much enthusiasm before the hour of meeting. The services opened by an ode from Mr. Staley, much to the pleasure of those present. W. H. Van Wagner then occupied an hour or more holding the audience (as he always does) in most earnest attention and quiet, broken only by repeated outbursts of applause. His argument was dignified and logical, and when Mr. V. took his seat, it was amid long and deafening applause. Mr. Marsland then sung a beautiful ode, to which the audience gave such warm and long applause that he was recalled, and sung another ode, much to the delight of all present. Mr. Smith, from Wayne County, then addressed the meeting in a very earnest and practical manner, to which the audience responded in warmest applause; after which, Master Nash sung, to the great delight of all. Mr. Hewett, Vice-President, made some deeply interesting remarks at the close of the meeting, after which it adjourned till this evening. To-day, at 3 o'clock P. M., the ladies of the Seventh Ward will meet under this beautiful pavilion to make a demonstration and form a Temperance Alliance auxiliary to the Seventh Ward Alliance.

☞ The ladies of the Seventh Ward are requested to meet at Van Wagner's big tent this afternoon, at 3 o'clock, to form a Ladies' Temperance Alliance, to aid in carrying on the warfare against old King Alcohol. All who feel interested in the cause are earnestly requested to attend.

POLICE AND POSTERITY.—We learn that the wife of an Eighth Ward Policeman, a few days since, made her "lord and master" a present of *three* smart children at a single (or triple) birth.

☞ Rum-shops under the new Essex Market in Grand-st. are said to be contemplated by our present Common Council. Well: so long as that Council keeps a rum-hole for its own use, why should it affect squeamishness about building or letting such for the use and resort of others?

BURSTING OF A CAMPHENE LAMP.—Mrs. Parker, of No. 80 Thompson-st., was severely burned on Wednesday evening, in consequence of a Camphene lamp having burst while in her hands.—On her clothes taking fire, she rushed into the street, when Officer Sherrift, of the Eighth Ward, who was near, extinguished the flames, and saved her life.

FIRES.—The alarm of fire in the Eighth District, last evening, was caused by the eburning of some tar barrels on pier 4 N. R.

Yesterday afternoon a fire broke out in the roof of No. 81 Cross-st., occasioned by some sparks falling upon it from the chimney. The flames were extinguished with a few pails of water.

FIRE IN JERSEY CITY.—A fire broke out about half-past one yesterday afternoon, in the Pyrotechnic establishment of Isaac Edge, in Steuben-street, and before it was subdued, the building and contents were destroyed, together with the adjoining buildings as far east as Washington-street, owned by Wm. R. Drayton, and occupied as slaughter houses by the Messrs. Irwin and Mr. Taylor. The livestock belonging to the butchers was saved, but a quantity of hay was destroyed. No insurance on any of the buildings, or on the other property lost. The fire is supposed to have been caused by combustion among some of the matter belonging to the manufacture of fireworks.

A NEW SWINDLE.—Yesterday afternoon a German lady called at the hardware store of W. N. Seymour & Co., No. 4 Chatham-square, made a few purchases and tendered a genuine $5 note, for which she received her change. Soon after her return home a man genteely dressed appeared at her house, having in his possession a spurious $5 bill, "Globe Bank, N. Y," and stated he had been sent by the firm to require another bill, as she had passed that one for her purchases, at the same time naming what she had bought. She was confident it was not the bill, but he was so determined about it, threatening suit, &c., that she was frightened and gave him a good bill for it. Her husband afterward remembered the name of the bank and called to require an explanation, when the fraud was brought to light. The scoundrel must have observed her make the purchase, and followed her home. As others are liable to have the same trick practiced upon them, we have deemed it our duty to give this timely warning.

ARREST OF A YOUNG FORGER.—A bright looking English boy, about 17 years of age, named Cornelius DeLowrey, was arrested on Wednesday afternoon, at the Bank of the State of New-York, for presenting a forged check, purporting to have been drawn by Rollins & Brothers, brokers. The forgery was detected at the moment the check was presented, and the teller immediately sent for Mr. Rollins, who soon arrived with officer Black of the 1st Ward, and the lad was arrested. He pretended that the check had been handed to him by a gentleman at the corner of Wall-st. and Broadway, who requested him to get the check cashed and hand over the money to him. The prisoner was subsequently recognized by the teller of the Bank of North America, as the boy who, on the 7th April last, presented at that bank a forged check for $300, purporting to have been signed by Hopkins & Co., which check was paid.

The following is a copy of the check on which the lad was arrested:

No. 1427. NEW-YORK, June 2, 1852.
Bank of the State of New-York, pay to Ketchum & Co., or order, Three Hundred Dollars. ROLLINS & BROS.
$300.

The prisoner states that his mother resides at No. 64 Mulberry-st. He was taken before Justice Bogart, and committed to prison for examination.

THE LATE MURDER IN THE NINTH WARD.—The Coroner yesterday held and inquest at his office upon the body of James Dumfy, a native of Ireland, 32 years of age, who died on Wednesday at the New-York Hospital, from the effects of a fracture of the skull, received at an early hour on Sunday last, while the deceased with some friends was passing through West-st., at which time he was attacked by a man named Wm. Lunnen, who felled him to the pavement with a blow on the head from a large and heavy club. The facts in the case were fully published in our edition of Monday last. Several witnesses were examined before the Coroner, and their testimony corroborated the statement made by the deceased on his auto mortem examination, the substance of which we gave at the time above stated. The jury after a very brief absence rendered the following verdict, viz: "We find that James Dumfy came to his death by a blow or blows inflicted by the hands of William Lunnen, and also that Robert Burney was accessory before the fact." On the result of the verdict, the accused were remanded to prison to await the action of the Grand Jury. The deceased leaves a widow, residing in Clarkson-st.

FATAL ACCIDENT.—About 6 o'clock last night, a man named Christian Lowry, a German, while crossing the Hudson River Railroad track, at Forty-fourth-st., was run over by a train and had both his legs broken. Officers Ost and Lowe, of the Nineteenth Ward Police, brought him to the Hospital, but he died in a few minutes after his arrival.

ANOTHER DEADLY ASSAULT.—Thomas Hill, a butcher doing business in Tenth-av., near Twenty-eighth-st., was yesterday arrested by Officer Cobee, of the Twentieth Ward, and committed to the Tombs, to await the result of injuries alleged to have been committed by him on the 25th ult., upon the person of James W. Cooper, of No. 307 Tenth-st., who now lies at the point of death. The Coroner yesterday empannelled a Jury to inquire into the cause of the injuries, and the deposition of the injured man, together with other testimony, was taken.

James W. Cooper, being sworn—Says that about 4 o'clock P. M. on Wednesday last, I went to the butcher shop of Thos. Hill to get some meat; I inquired the price of porter-house steaks and was told by Hill that they were fourteen pence per pound; I replied that I could get them across town for one shilling per pound; Mr. Hill said he would bet ten dollars I could not; I answered, "If you will go to my house I will put up the money, and take you across town and prove it." He then said to me, "Do you want any meat? If you don't then clear out of the market." He then clinched me. I walked to the door and went to the edge of the sidewalk, and turned round to look for my little son, who was with me at the time. Hill came out of the shop, came up to me, knocked me down, and kicked me two or three times in the private parts. I got up and went to Dr. Rone and got a leech to put upon my eye, which had been struck by him. I do not recollect calling him an Irish thief, or an Irish son of a b—h. I did not challenge him out in the street to fight. I did not square off to him, nor strike him. I never had any difficulty with the man before. JAMES M. COOPER.

Sworn to before me this 2d day of June, 1852.
JOHN IVES, Coroner.

James Cooper, son of the injured man, who was with his father at the time of the assault, was sworn, and testified to seeing Hill strike his father and knock him down, and, while down, kick him several times. Previous to this, however, he says, that his father challenged Hill out to fight, and called him an Irish son of a b—h.

James Hill, of No. 255 Tenth-st., brother to the accused, sworn, says: I was in the store when Mr. Cooper came in. He had some conversation with my brother, and was finally put out by him. After getting upon the side-walk, he said to my brother, "Come out you thief—you Irish son of a b—h!" I cannot tell who struck first; they both went at it together. My brother knocked Mr. Cooper down and kicked him; I cannot say how many times; I do not think he kicked him three times. My brother was not in anger.

Dr. Alvah Rowe, of No. 214 West Thirty-first-st., who attended Mr. Copper the day following that on which he was assaulted, was called and testified to finding an extensive discoloration of the part which had been struck, which was very much swollen, and also the left eye to be blackened. The physician gave it as his opinion that there was no hope of the recovery of the patient.

The testimony being here concluded, the matter was placed in the hands of the Jury. After the evidence had been briefly summed up by the Coroner, and after a short consultation, the following verdict was rendered, viz:

"That James W. Cooper came to his injuries at the hands of Thomas Hill, on Wednesday, the 25th of May, 1852."

On the rendition of the verdict the accused was committed, as above stated.

FOUND DROWNED.—The Coroner yesterday held an Inquest at the foot of One Hundred and Eighty-sixth-st., N. R., upon the body of an unknown female, found in the water at that place by Mr. David Barry, who resides in the vicinity. A verdict of "Death under circumstances unknown to the Jury," was rendered. The deceased presented the appearance of having been in the water for several weeks.

The body of an unknown boy was found yesterday afternoon in the water at the foot of Third-st., E. R. The deceased was genteelly dressed. Coroner Ives was notified and will hold an Inquest upon the body this morning.

DISHONEST SERVANT.—Catharine Conselly, a domestic in the family of Mrs. Elizabeth Hill, residing at No. 1 Thirty second-st., was yesterday arrested by Officer Panderly, of the Twentieth Ward, charged with stealing a bracelet, breastpin, gold chain, and other jewelry, valued in all at $40, the property of her employer. She was taken before Justice Stuart and committed for examination.

SERIOUS ACCIDENT.—At 10½ o'clock P. M., on Wednesday, a man whose name was not ascertained, in attempting to jump from one of the Fulton ferry-boats to the bridge before the boat was made fast, missed his aim, and was caught between the bridge and the boat. His feet and legs were very badly crushed. The Police of the Second Ward conveyed him to his residence in Walker-st.

U. S. COMMISSIONER'S OFFICE—Before Commissioner Nelson.—*Charge of passing counterfeit money.*—A young mulatto man named William Long was arrested and examined on a charge of passing (or attempting to do so) a counterfeit silver Spanish dollar, knowing it to be so.

Frederick Meenske (a German) testified to keeping a grocery and liquor store at No. 15 Anthony-st; that between 9 and 10 o'clock on Monday evening last, Long, in company with a woman, entered the store, called for and each drank some gin, and Long presented the dollar in question in pay; it was exhibited, and appeared to be an imitation well calculated to deceive; tried it by a test and found it to be counterfeit; went to the Fifth Ward Station-House and caused Long to be arrested; in the forenoon of the same day Long had come in with a woman, and bought some charcoal and indigo, and paid for them with a leaden ten cent piece.

Complainant's wife also testified to Long having offered the dollar in payment.

Capt. Carpenter, of the Fifth Ward Police, testified to having given orders for the arrest of Long, and a Police officer testified to having arrested him about 11 o'clock, at a grocery corner of West Broadway and Anthony-st; he was quite drunk, but went to the Station-House quietly. He was committed.

MARINE COURT.—Before Judge Cowles.—*Owner towboat Catharine* agt. *Marshal et. al.*—To recover damages for collision between the towboats Caroline and Ajax, already referred to. Verdict for defendants.

Moses H. Acker agt. *Samuel W. Goodridge, et. al.*—To recover back $125 paid for a passage to California, as per the following receipt:

"Berth No. 68.—Ship North Star, J. D. BARNAY, Master.
NEW YORK, April 22, 1852.
This entitles the bearer, Moses H. Acker, to a third cabin passage the present voyage to the diggings of the chosen excepted; hence to San Francisco in the above ship, for the sum of $125.
S. W. GOODRIDGE & Co."

Messrs. G. & Co., at the time of the ticket being bought, were fitting out the North Star. She was to sail the 20th April, but the sailing was postponed from time to time. On going on board to inquire when she would sail, the answer usually was, "as soon as sufficient freight is obtained."

Finally on going on board they discovered that the arrangement of the cabin had been changed, so that plaintiff's cabin was located in an entirely different part of the cabin, without ventilation or light—that much of the cabin originally intended for passengers was stowed with freight, and that it was uncomfortable, and even unsafe, to go in her. There was also something said on the trial as to provisions not being good. Plaintiff and others returned on shore for the purpose of taking legal advice, and the ship sailed and left them behind, taking in her their baggage.

The Court considered, under all the circumstances, that plaintiff's conduct in leaving the ship was proper, and that the action could lie. Judgment for plaintiff in amount, with costs.

Before Judge Lynch.

Evans and others agt. *John Crary.*—Suit by three seamen of the brig Runnymede, against the Captain, for damages in being put upon short allowance at sea, and also for balance of 6½ months wages.

The men shipped at Cardiff, Wales, on the 10th November, on a voyage thence to Palermo; thence to Gergenta and back to Palermo, thence to New-York; where they arrived two or three weeks ago, and were discharged.

The proof was, that during the whole of the voyage, they got but a quarter of a pound of flour instead of half a pound each, twice a week; no butter after leaving Palermo; and when six weeks out from Palermo, they were put on allowance of beef, first three-quarters of a pound a day down to three ounces per day, and also an allowance of a quarter of a pound of bread per day, and a pint of water.

In defense it was said that the voyage was longer than had been anticipated, and that the short allowance arose from the period of the voyage—that no butter could be had at Palermo, and it was shown that the Captain, in order to supply in some measure the shortness of provisions and water, gave them oranges on the voyage.

The Court considered that there had been great neglect on the part of the Captain, in not providing sufficient supplies, and gave judgment for plaintiffs for $18 each, damages, as to short allowance, and the whole of their claim as to wages, with costs.

SERIOUS ACCIDENT ON THE LONG ISLAND RAILROAD.—A woman named Mary Eagan was seriously injured last evening by being caught on the cow-catcher of the 7 o'clock train, at Bedford. It appears she was standing on an elevated piece of ground beside the track, with an umbrella in her hand, and some how fell down, when the train was too near to avoid the accident. The engine was instantly reversed, but the cars ran several rods before the woman could be extricated. She was carried to her home, and the engineer was taken into custody by the police. It is thought her injuries will prove fatal.

LADIES' INSTITUTE.—We have had presented to us the Circular of an Institution for Young Ladies, to be opened by the Misses Field, No. 20 South 3d-st., in the city of Williamsburgh, on the 9th inst. From the reputation of the young ladies who engage in this enterprise, for competence and efficiency in teaching, we are satisfied that the institution will be sustained creditably to themselves and satisfactory to those who may favor them with their patronage. The location has been selected with reference to the pleasure and health of the pupils, having an ample play-ground enclosed, for exercise and recreation. As only a limited number of boarding pupils will be taken, we have confidence that under the supervision of the family of my friend, Rev. J. Field, that daughters intrusted to their care will receive the especial attentions and comforts of a home. [Christian Advocate and Journal.

THURSDAY, June 3—P. M.

There was a moderately active business to-day at the Stock Board, without important variation in quotations. The general tendency of the fancies was downward. Reading, however, was firm, and closed at 78⅛@78½. In other Stocks the variations were not material. The sales of Government and State Stocks, and leading Railroad Bonds, were to considerable extent at full prices. Indiana 5s sold at ½ per cent. advance, and Canal Preferred 5s at 47, a further advance of ½ per cent. For Virginia 6s, 111 was bid, and sales are privately making at 112, for banking purposes and for foreign demand. Erie 1st Mortgage Bonds sold at 116. At the close the fancy market was quiet. For Chemung Railroad 89½ is offered. This is a 9 per cent. Stock at present prices, and not 7 per cent. as misprinted yesterday.

There is but little doing in Sterling and rates are barely maintained at 10@10½. Francs, 5.16¼@5.15.

In Freights for Liverpool there is no activity, but shipments are firm. Cotton, 5-32d.; Flour, 13d.@14d.; Grain, 4d.; Beef, 2@2 6. To London: Naval Stores, 2; Flour, 18d.@21d., &c. To Havre: Cotton, 5-16c. A Russian brig took Lumber from Darien to Marseilles at $12.

Some loans have been made on call at 3@3½ ☞ cent, but the current rates are still 4@5 ☞ cent. on call and first-class short paper. The accumulation of unemployed money in Wall-st. is very great.

The amount received at the Sub-Treasury is $88,053. Paid, $63,803. Balance, $4,038,952.

The receipts of the Hudson River Railroad for May were about $61,000.

The earnings of the Madison and Indianapolis Road continue to show a large increase. The receipts of the week ending 29th May are.....$8,900
Same week last year.....5,900
Increase 60 ☞ cent.....$3,000

The $200,000 of Brunswick Canal and Railroad Bonds were sold to-day by Mr. Draper, and brought 70 to 83 ☞ cent., averaging nearly 73½ ☞ cent. This sale, we understand, gives the Company sufficient funds to complete all their works.

The Illinois Central Railroad Company notify stockholders that the third instalment of five ☞ cent on the four millions construction bonds will be payable on the 6th of July.

Messrs. Carpenter & Vermilye offer at private sale $100,000 Six ☞ Cent. Bonds of the City of Louisville, Ky., of $1,000 each, bearing an interest of six ☞ cent., and the interest payable in May and November, at the Bank of America, in this City. The particulars of this required loan will be found in our advertising columns. Louisville is one of the most flourishing cities of the West, and her credit stands high.

Land Warrants are in fair demand at $124@$127 per 160 acres. The supply is good.

The Metropolitan Bank, we learn, is again in Michigan with a call for specie on the Government Stock Bank, which is being met with gold dollars, each bill being separately presented and payment demanded. At this rate some six or seven dollars ☞ day are probably redeemed. We hear also that some more suits have been commenced against the Metropolitan for violating the Bank Act in relation to foreign bank notes, purporting on their face to be payable in this State.

The imports of Specie at Boston for the month of May were $169,804, of which $139,308 was in gold, principally from Liverpool, and $30,496 in silver, from the British Provinces. The exports during the month were $229,342 50 in gold and $80,800 in silver. The imports of Specie from January to May, inclusive, amount to $424,023, and the total exports during the same period to $807,070.

Money is extremely abundant in Philadelphia, Boston and Cincinnati, more so at the latter place than for a number of years.

At the present session of the Legislature of Virginia, acts have been passed chartering the independent banks at Fairfax, in Culpepper; at Parkersburgh Wood; at Clarksburg, at Rockbridge, in Lexington; at Scottsville, in Albemarle. The minimum of the capital of the above is $50,000 for each bank. Also, banks have been chartered at Fairmount and Pincastle, same minimum. Independent banks, with a capital of $100,000, have been chartered at Wythesville, in Wythe, and at Hampton, in Elizabeth City. The Central Bank at Staunton, chartered last session, has its minimum capital reduced to $100,000; also, the Merchants' Bank at Lynchburg.

A communication in *The Charleston Courier* states, that for the last ten years the sea has not only been encroaching on the harbors of the Southern States, but has threatened to invade their rice river domain with its salt inundations. The mouths of the Waccamaw and of the Santee have been alike alarmed with its pickling qualities, and the Cooper has suffered under these unfavorable influences almost to its sources. The right arm of Charleston, yielding some 20,000 tierces of rice for export, is in danger of being lopped off, and one of the most valuable staples, and the most perfect system of cultivation by irrigation, may be lost to the State, if speedy and effectual measures are not adopted to drive back the salt to its natural element, the ocean.

The Albany Journal says, in relation to the Lumber trade:

The Lumber trade during the week has been very active. From the appearance of the yards, and from information obtained from dealers, the sales made during this period sum up, in the aggregate, an amount far exceeding the receipts. The Genesee Valley Canal is now in good navigable condition, and in the course of the ensuing week a supply of some descriptions is looked for from that section. There is a goodly amount of Lumber here awaiting the arrival of certain vessels, but as a general thing, freights are dull, the arrival of vessels having kept up with the shipping demand.

There is a scarcity of good clear pine, tally boards, dry pine plank, spruce plank and hemlock joist, but of other descriptions there is a fair assortment on the market. There is no important change to notice in the value of any of the kinds enumerated in the subjoined table.

The market is steady and the range of prices given cover the sales of the week, at which the holders are very firm.

We annex the receipts at this place from the opening of the Canals to the 30th May:—

	Boards and Scantling, ft.	Shingles, M.	Timber, c. ft.	Staves, No.
1850	36,322,250	9,067	11,174	14,820,020
1851	43,898,893	12,236	33,430	11,222,920
1852	42,610,035	9,695	9,725	11,937,575

For the purpose of enabling the trade to settle what has heretofore been considered a moooted question, we have obtained from the official returns, which we annex, a statement showing the quantity of lumber, &c., which came to tide water via the Erie and Champlain canals, and the amount arriving at the four receiving offices during the season of 1851:

	Boards and Scantling, ft.	Shingles, M.	Timber, c. ft.	Staves, No.
