Orders from Railroads, Factories, Water Companies and others solicited. Every piece warranted to give satisfaction by the patentee and manufacturer. The following is one of the many certificates, and published to show the estimation from actual use: JERSEY CITY, Dec. 17, 1851.
HORACE H. DAY, No. 23 Courtlandt-st., N. Y.—*Dear Sir:* I take great pleasure in stating to you, in answer to your inquiry in regard to the India Rubber Hose furnished by you for the New-Jersey Railroad and Transportation Company, that we have found it of the very best description, and to answer much better purpose than either leather or canvas. It is not only more durable, but in the end the most economical. We have now rubber hose on some of our locomotives that we purchased of you two years ago, which has been in constant use and is still as good as ever, and I have found your four-ply to stand pressure of 150 lbs. to the square inch.
Yours, very respectfully, JAMES McFARLAND,
Superintendent Motive Power for N. J. R. R. Trans. Co.

GREAT SALE of RAILROAD BONDS.—On FRIDAY, the 23d JULY at 12 o'clock at noon, at the Merchants' Exchange, SIMEON DRAPER will SELL BY AUCTION, and PEREMPTORILY, to the HIGHEST BIDDERS, the following RAILROAD BONDS, &c., which offer unusual inducements to investors, as they are mostly the best-secured obligations of completed and dividend-earning Railroads, viz:

$50,000 of 7 per cent. Bonds of the MANSFIELD and SANDUSKY CITY RAILROAD, reimbursable in 1860, with coupons bearing interest, payable January 1 and July 1, of each year, at the Mechanics' Bank, in New-York. These Bonds are part of the only issue of $750,000, secured by the first mortgage on the whole road, and its franchises, in trust to Henry Grinnell, Oliver Slate, Jr., and Theodore Dehon.

The Mansfield and Sandusky City Railroad is now in successful operation through its entire length, from Sandusky, on Lake Erie, 87 miles, southward, through a flourishing section of the rich State of Ohio, to the city of Mansfield. Under its auspices, and worked by its forces, the Columbus and Lake Erie Railroad extends from Mansfield, 60 miles, in a further southerly direction, to Newark, in advantageous connection with the main East and West Ohio lines. A further continuation of the road is in progress, which will unite with the Iron Railroad and the Scioto and Hocking Valley Railroad—passing through the best coal and iron regions of the State, and forming, altogether, a straight north and south line and a direct communication from the great Lakes to Portsmouth and to Burlington, two of the most important points on the Ohio River. The money actually expended on this Road, besides the proceeds of the Mortgage Loans, is represented by $3,000,000 Capital Stock. The public will know how to appreciate the Bonds of a Road in this condition.

$200,000 of the 7 per cent. first and only Mortgage Bonds of the VERMONT VALLEY RAILROAD COMPANY, at maturity in 1860, with coupons, payable semi annually in New-York.

This Railroad is about 24 miles in length, and extends from Brattleboro' to Bellows Falls, through the valley of Connecticut River, and forms part of the main trunk line from New-York to the White Mountains, Montreal, and all Lower Canada. It is completely built, laid with a 57 lb T rail, equipped and furnished throughout at a cost of more than $1,000,000, and is now running in excellent order, with an increasing traffic, which is gradually developing itself; and the Road, with all its furniture, equipment and franchises, is mortgaged to Robert Schuyler, Gouverneur Morris and Elihu Townsend, in trust for the benefit of Bondholders. This mortgage was created by the authority of the Stockholders, as well as of the Directors of the Company, to secure the holders of $500,000 of Bonds, of which $114,000 bear six per cent. interest, and $386,000 bear seven per cent. interest; of the latter $200,000 is now offered to the public.

The Vermont Valley Railroad extends along the midway section of the rich valley of the Connecticut River, in the midst of a well cultivated and improving district. Its southern terminus at Brattleboro is 197 miles from New-York and is in direct communication with that city, over the Connecticut River, New-Haven and Hartford, and New-York and New-Haven Railroads, and at its Northern terminus (Bellows Falls) it unites with the Rutland and Burlington, Vermont Central, Sullivan and Passumpsic Railroads, affording of the connection over the former of 118 miles to Burlington on Lake Champlain, and thence to Montreal, and over the Sullivan and Passumpsic of about 100 miles to St Johnsbury, and by the Newbury branch to the White Mountains.

Its central position, as an indispensable link, connecting all these Railroads, and forming an important part of the great line along Connecticut River, the only direct route from the South to New-Hampshire and Northern Vermont, a resort of growing favor to the tourist, throws a large and fast-increasing passenger traffic over this Road.

$100,000 of the CAPITAL STOCK of the above Railroad; the whole amount of Stock issued, or to be issued by the Vermont Valley Railroad Company, is $500,000, of which only $100,000's offered for sale.

The prospects of this road are improving rapidly. The attention of Eastern capitalists has been turned to the advantages of its position, which, properly availed of, cannot fail to make the stock a profitable investment.

$100,000 7 per cent. Bonds of the SARATOGA and WASHINGTON RAILROAD COMPANY. This is a well known and ably conducted Railroad, doing a flourishing business, and forming the sole connection between Saratoga Springs and Lake Champlain, at Whitehall, and with most of the Vermont Roads at Rutland.

Its length is forty-one miles, with a branch from Whitehall, 14 miles toward Rutland, and it is in every respect a thoroughly built and well furnished Road. At Saratoga, it unites with the great southern and western routes—the Rensselaer and Saratoga, and Saratoga and Schenectady Roads, and their continuations. From Schenectady and the west, a new passenger and merchandise traffic has within a year sprung up over this road, via Whitehall and Rutland, to Boston; the favorable nature of the grades overcomes the very small increase in distance, and is diverting from the Albany and Boston Railroad a continually augmenting proportion of this western and Boston business.

The Saratoga and Washington Railroad owe about $600,000 in Mortgage Bonds. Its earnings, after paying expenses of working, and replacement of rails and equipment, and interest on its debt, are ample to yield a fair dividend to its stockholders. Last year this dividend was 6 per cent. The opening in the course of a month, of the Plattsburg and Montreal Railroads, will greatly increase the receipts of this Railway, and the contemplated works west of Lake Champlain, opening into a country yet unpenetrated by railroads, must, in time, develop still further its already profitable business. These bonds are perfectly unquestionable.

$50,000 seven per cent. First Mortgage Bonds of the CHESTER VALLEY RAILROAD, due in New-York in 1872, with interest, payable semi-annually in the same city.

The whole amount of this issue of Bonds is $500,000, and they are secured by the first mortgage on the whole property of the Company, including the complete and the incomplete works of the road and its franchises; and they are further convertible at the option of the holder into a preferred stock, entitled to perpetual preferred dividends at 8 per cent. per annum, before the balance of the stock, which is fully paid up, amounting to $600,000, can receive any dividend. The Trustees are, Shepherd Knapp, Alfred C. Fraser and D. S. Miller.

The Chester Valley Railroad of Pennsylvania, extends from the Philadelphia and Norristown, and Reading Railroads at Norristown, 22 miles through the Great Valley of Chester County, to the Columbia Railroad at Downingtown, 37 miles from Philadelphia. There has been about $1,000,000 expended upon it already, and its completion is secured for the 1st December next.

The expense and difficulty attending the transportation of the vast coal freight business of the Reading Railroad, from its two city termini to the Columbia Railroad; the heavy grades by which the latter or State Road approaches Philadelphia, imperatively call for the opening out of the Chester Valley Railway, which occupies a natural channel for a road, and forms a perfect communication between the Reading Railroad and the Great Western Pennsylvania Railroads, affording the latter what they never before have had, an easy access by the Chester Valley and the Norristown Railroads, into the heart of the city.
