A CHILD BY EXPRESS.—Adams & Co.'s Express recently added a feature to its facilities, by forwarding a female child, seven years old, from Washington City to its parents at Dayton, Ohio. The child had been separated from its distressed parents for years, and no means were provided for its return until the agent of this Express undertook the service, and successfully demonstrated the availability of this means of transportation.

VIOLENT ASSAULT UPON A POLICEMAN.—Shortly after 9 o'clock yesterday morning a disturbance took place in Mulberry st., which attracted several men. Officer Lee, of the Sixth Ward, on hearing the noise, hastened to the spot and attempted to arrest Thomas Brown, one of the party, he was heavily assaulted by Brown, who knocked him down. The officer subsequently fractured, the bones of his arm, and Brown then made his escape, pretending that he was officer. Brown then made his escape, pretending though he had been arrested by a party of the Sixth Ward Police, but was mistaken, he was taken before Justice Osborne and committed to prison. The injured Officer was removed to the New-York Hospital.

MYSTERIOUS DISAPPEARANCE.—An Irishman, formerly a waiter at a public house at Cape May, left his place of business on the 15th of August, and has not since been heard of. On that day, he took passage on board the steamboat Knickerbocker for this City. One of the passengers of the boat states that he saw Strain in the act of going ashore after the boat had arrived, but it is thought that he is still on board the boat. Others think that he fell overboard and was drowned. His baggage was found at the steamboat office, foot of Cedar st. He resided in the rear of Sixth-st., where his wife still lives.

FIRES—INCENDIARISM.—A fire was discovered on Monday night about 11 o'clock in a small shop kept by Wolhelm Obamarn at No. 265 Pearl-st. The Police think the premises were set on fire. Very little damage was sustained. The stock was insured for $300 in the Pacific Insurance Company, and is valued by the Police at only $10. The matter is under investigation.

A fire occurred early yesterday morning at No. 153 Water-st., which was extinguished by the Police with only slight damage.

Fire broke out on Monday night in the bakery of J. L. Bedford & Co., No. 154 South-st. The store, with its contents, was nearly destroyed. The loss is slightly covered by insurance. The damage is estimated at $5,000.

PRESENTATION.—The Captains of Police of this City, twenty in number, desirous of showing their respect for Charles Burdet, Esq., the Secretary of the Board, Mayor Kingsland, as well as their appreciation of the many favors received at his hands, met on Monday evening at the Mayor's Office, for the purpose of presenting a testimonial to that gentleman. Captain J. S. Hart, of the Seventeenth Patrol District, made the presentation in the name of his associates. The testimonial was a heavy silver tobacco box, with the following inscription: "Presented to Chas. Burdet, Esq., by the Captains of Police of the City of New York, Sept. 13, 1852."

FIRE.—About noon yesterday, an alarm was sounded for the VIth (new) fire District, caused by the burning of a building in Johnson alley, running from Johnson-st. between Washington and Adams-st., and occupied by William Steele, as a feather brush manufactory. The fire originated in an upper story of the main building, which is of brick and communicated to a wooden structure adjoining and attached to the same factory. The flames made considerable progress before the fire department could bear upon them, and a large portion of the contents were either consumed or greatly damaged. The firemen arrived on the ground promptly, and worked in good earnest, and the flames were soon subdued. The Chief of Police, and force under his direction, were also promptly on the ground, and rendered good service in keeping back the crowd, thus enabling the fire department to work without hindrance. The fire amounts to several thousand dollars: covered by insurance.

After the usual preliminary business, Supervisor Brommaker presented a communication from Philip S. Crooke, Esq., with accompanying opinion from Judge Bronson, on the validity of the title to the Crooke farm; both of which were placed on file. Mr. Brooks, from Committee on Alms House, reported having received estimates for building a sewer and sink at the County Farm. Mr. Sankey is the lowest bidder and the Committee recommend that they be empowered to enter into a contract with him at the price named in his estimate, and in the event of his refusing to contract that they be empowered to contract with the next lowest bidder. Mr. Sankey's estimate is $2 13 per foot for the sewer and $3 98 for the sink. The report was adopted.

Tuesday, Sept. 14—P. M.

The Stock market was rather active today, and there was a good deal of firmness in most of the Fancies. Cumberland Coal was an exception, and went to 70¾, but afterward recovered to 71¼, a decline of ¼ ₱ cent. Nicaragua, under the unsettled state of its affairs, also was heavy, and fell off to 9¾. Pennsylvania Coal was also dull, and declined to 114¾. At the Second Board it recovered to 115¼. The other Fancies generally were better. Stonington was very buoyant, and sold at 60¼, an advance of 1 per cent. The Company have sold a portion of their land not needed for their own purposes to the Fishkill Road, and the business of September promises well—all of which has had a favorable effect. Erie was well sustained, advancing an ¼ per cent on yesterday. It is now well understood in the street, that within a year the ten and a half millions of capital stock of the Company will be full, as we stated yesterday, and operators govern themselves accordingly. A little further decline would bring in a party to take 20,000 shares out of the market. Norwich is also improving, and 54 was bid. The traffic of this road looks well for this month. Zinc is firm at 12¾. Some very favorable experiments in a new process of making paint have just been concluded, and the parties concerned believe they will be enabled to reduce the cost of production seventy-five per cent. M. A. Trust continues to advance, and touched 22¾. Harlem is quiet. Long Island left off at about the closing prices of yesterday. The premium Stocks are well held. Northern Indians went to 12¾—an advance of 1 per cent. After the Second Board, 124 was bid. Madison is steady at 10¾. Michigan Central, 112¾, &c. There was a fair inquiry for Governments and $61,000 6s, 1867, sold at 118¼, being ¼ per cent improvement. They were not taken, as was supposed, for foreign shipment. Indiana Canal Preferred 5s, sold at 48½, showing a firm market. A sale of $10,000 California 7s was made at 96.

In Sterling there is a moderate business, and the market is steady at 10¼@10¾. Francs 5.15@5.13¾, with considerable transactions.

Freights are more firmly held without many transactions. To Liverpool Cotton is 3-16d.; Flour 15@18d., with engagements 1,000 to 1,500 bbls.; 400 bbls Resin, 13½d.; 10,000 bush. Wheat, 5d., and 1,500 do. 5½d. To London there is but little room with considerable produce offering. A British vessel was taken full 4,000 bbls. Flour, at 1/10. To Havre the market is very dull. There is a fair business doing to California at previous rates.

The receipts at the Sub-Treasury are small. $84,066, Payments, $16,296; Balance, $6,641,639.

The Chancellor of New-Jersey has granted an injunction against the Trenton Mutual Life and Fire Insurance Co., on complaint of several persons for mismanagement.

To-morrow (Wednesday) at 3 P. M., Mr. John Thompson, No. 2 Wall-st, will open the sealed bids sent to him for the $300,000 City of Wheeling 6 ₱ cent. coupon Bonds, guaranteed by the State of Virginia, and issued to the Baltimore and Ohio Railroad Company. They have twenty years to run, and form an undeniably valuable security, of the most desirable character, being identical in security with the State Stocks now selling at 111 @ 112 ₱ cent. Payment, except of the premium, is not required until the 6th of January, unless preferred by the taker. The new Constitution of the State of Virginia prohibits guarantees of any sort, but such guaranty was given to these bonds before the new Constitution was adopted, and is therefore in full force; the stronger on account of the subsequent prohibition.

To-morrow the bids for $3,000,000 Pa. Central Railroad loan will be opened. The whole loan will probably be taken for foreign account at about par.

The Dry Goods trade continues fully active. Prices are firm, with a better supply of Staple Domestics. Unbleached Sheetings and Shirtings are in brisk request at full previous prices. Bleached Goods are also very active, at prices favoring the seller more than the buyer. Drills are active at steady rates. Osnaberghs are firmer, with a good demand. Denims are less abundant on the market at the regular price of 8c. Ticks are moderately active, but good qualities have advanced a trifle. Stripes are rather scarce and firm. Canton Flannels are in scanty supply, and prices look upward under a good demand. Printing Cloths are dull, but prices are very steady at 3½ @ 3¾c. Prints are still active at full prices for all the desirable styles of the season—the demand has not materially abated. Ginghams are active, with a supply less than the demand—prices do not vary. Good styles of De Laines are still in good demand at regular rates—the low qualities have been all along neglected. The Home Manufactures have enjoyed a good and remunerating trade this season, as remunerative prices were readily paid by a large body of consumers, although there has been a large demand for French De Laines. Cloths are in better supply, yet the demand is active, and prices without change. Stock is beginning slowly to accumulate. Cassimeres are in active request, and at firm prices. Heavy goods are more in demand. Satinets are brisk and buoyant. Lindseys have further advanced, with a good demand. Tweeds are more active, at regular and firm prices. Jeans are dull and rather heavy. Flannels have established an advance, and are brisk. Blankets firm and active. There is rather more doing in Shawls, and asking rates are readily conceded. The supply of French Goods is better, and the demand consequently is more freely supplied, yet prices are very firm, and all descriptions of goods of prime and medium grades are very brisk of sale. There have been several sales at auction since our last notice, where the offerings were large and prices were well maintained. Messrs. Fosters' sale of to-day was a very animated one. The DeLaines, the Bombazines, the Shawls, the Silks, the Velvets, the Ribbons, though sold without reserve, excited a brisk competition, and marked a real demand for the goods, at good and remunerating prices. Dress Goods are getting scarce comparatively, with the large demand. The Humboldt's valuable cargo comes in at an acceptable time. A good market awaits it. Desirable Silks and other Millinery goods, have been in broken supply. Though the importations are large, there is no indication that they are too large for the great demand. Dealers bought sparingly at first, and are obliged to fill their wants at improving rates. French Cloths, Doeskins and Cassimeres are very active at higher rates. The German fabrics share fully in the better state of trade this season, and large sales of them are daily making. British goods, though much less active than French or German, are still in demand, especially Orleans and Coburghs, and all heavy Cloths, Ginghams, Prints and De Laines of British manufacture are selling at fair prices. Linens are active at lower prices. Scotch goods sell well. The trade is very healthy. The clothiers are still buying moderately. The Western is still the most active, but Northern and this State dealers are now in the market.

The Nashville Republican states that the surveys of the Louisville and Nashville Railroad are completed. The cost of the road, complete and in running order, with equipments, dépôts, &c., is estimated at $5,000,000. Of this amount the City of Louisville has subscribed $1,000,000, and large amounts have been also subscribed by counties on the line, and by individuals. Tennessee will be called upon to subscribe another million, which is said to be all that is now wanted to carry the work through.

The last Annual Report of the Mad River and Lake Erie Railroad Company gives the annexed exhibit of receipts and expenditures for the years ending June, 1851 and 1852:

Even the above does not exhibit a true state of the finances, for the deficit of the net earnings is more than made up by the diminished running expenses. Thus:

Gross receipts for the year ending June	$442,272 98
Net decrease of running expenses	25,401 04
