The American Mining Company have advices from Cuba of a very favorable character in regard to the "Buena Esperanza" and "San Augustine" mines. In the former the vein is large and rich and the party is taking out three tuns per day instead of one tun, as by the previous accounts. In the San Augustine a rich lode of black copper is being worked with good results. A letter from R. P. Remmington, Esq., the Superintendent Trustee of the Great Northern Lead Company at the mines, to S. T. Jones, Esq., the Vice-President, gives very glowing accounts of the discoveries recently made. He says:

I send you some very remarkable specimens, although at first sight you may hardly think them so. No. 1 consists of two pieces—fair samples from quite a bold vein—a new discovery, cut by accident, south of the great Coal Hill vein, last Thursday, while the men were digging foundation pits for the gearing. This vein carries such ore, as you see, directly under the grass as the Coal Hill vein did, and is only fifty feet south, so that a cross-cut at the bottom of the present excavations, at an expense of $200, will prove it 200 feet high. It is a most singular thing that it was not discovered by the former parties. They came within ten feet of doing so. No. 2 are from an average of the great shaft at the Union Mine. The nature and richness of these samples and of the lode itself, for economical working and rich productions are of the first order. No. 3 is an average of the western shaft opened three weeks ago, a lode worth $200 per fathom, but poorer than any of the rest. No. 4 are samples of the old backs at Coal Hill, all of which will, apparently, pay handsomely. We have just discovered another most splendid lode at the Union Mine, north. It has been uncovered sixty feet. The value of these mines is, in my opinion, enhanced thirty-three and a third per cent. by these discoveries.

The Boston Journal says:

Money is in fair request at rates previously given. Within a few days many of our City Banks have been called upon for loans and balances due country Banks. This has temporarily deprived regular customers of the facilities of discounts to the full extent of their applications, but is, however, a curtailment for a few days only. It is the general impression among monied men that the worst effects of the pressure have been felt, and the local causes having passed away once more, the financial horizon seems almost cloudless.

FOREIGN MARKETS.

Baring Brothers & Co.'s Circular.

Per America.] LONDON, Friday, Oct. 1, 1852—5 P. M.

We have no material change to notice in the Produce markets this week; a steady demand prevails for most articles of consumption, and prices generally are firmly supported. Cotton is ¼d. dearer. Iron continues to advance. Breadstuffs are unchanged. The rate of discount is unaltered. Money remaining abundant, though in more demand. By the last return the amount of Bullion in the Bank of England was £21,967,295. Consols leave off 99 a 100¼, both for money and the account. Bar Silver has advanced to 5s. 0½d., and New Dollars to 4s 1½d., both being wanted for India, the Honorable East India Company having raised their rate of Exchange for Bills on Bengal and Madras to 2s. 1d., and on Bombay to 2s. ½d., the Company's rupee. By telegraph from Trieste, we just learn the arrival of the Overland Mail, which left Bombay Sept. 1.

Cochineal is rather firmer. 410 bags have been offered at public sale, which have chiefly found buyers at former prices to 1d. advance. Honduras Silver 3s. 6d. a 3s. 11d.; Black 4s. 6d. a 5s. 6d. Tenerife 3s. 10d. a 4s. 3d. Dead Grain of new crop Honduras sold from 2s. 6d. a 3s. 1d.; present stock is 11,247 bags against 6,918 bags last year.

Cocoa is in demand. 700 bags Trinidad at auction have sold freely from 43s. 6d. a 50s. for ordinary gray to good red.

Coffee, firmly held, continues in moderate request at the previous currency. 700 cases and 900 bags Plantation Ceylon offered at auction, have partly found buyers at steady rates. Native Ceylon neglected, and 50 casks and 300 bags all bought in at 43s. 6d. a 44s. In the near Continental ports prices are firmly supported; but the demand is, as usual, limited, following so nearly on the Dutch sales. The Mediterranean advices report an advancing tendency, with moderate stocks.

In the Corn market we have little change to notice. Inferior samples of English Wheat are very difficult of sale; but prices of good and fine English and Foreign are supported, and United States Flour meets a fair sale from 22s. a 22s. 6d., while choice brands of Baltimore would probably bring 6d. a 1s. more. Spring Corn without material alteration. Indian Corn dull at the previous feeling. Last week's average price of English Wheat was 39s. 6d., and the quantity declared 105,850 qrs.

HIDES—Rather more disposition to sell salted River Plate at 3½ a 4½d. per lb.

INDIGO—The market continues in an excited state and 7d. a 8d. advance has been paid for selected parcels; but the business has been limited, as the chief holders have not been disposed to offer their goods. The declarations for the ensuing sales are now closed; they amount to 30,968 chests, but it is most probable that a large portion will be withdrawn. Stock to-day 30,634 chests, 1,227 cerons against 37,149 chests 2,014 cerons last year.

In the IRON trade there has been increased activity, and prices continue to advance. In Scotch Pig an active speculative business is doing, and prices at Glasgow have advanced to 56s. 6d. for mixed numbers.

LINSEED—The arrival on the coast of about 70,000 qrs. has given a heavy tone to the market, and forced sales of Black Sea have been made at 43s. 6d. and 44s. In other cargoes, held for previous rates, nothing has been done.

In the Refined market there is a steady business doing. 1,170 boxes middling to fine white Havana have been offered at auction, which the damaged sold from 24s. 6d. a 26s., the sound (970 boxes) being bought in at 28s. 6d. a 30s., being for above the value. Richardson Brothers & Co.'s Circular.

Per America.] LIVERPOOL, 16th Month, 1st, 1852.

Since Tuesday last no change has taken place in the state of the trade.

At our market this morning we had but a thin attendance. Wheat moved off to a moderate extent at the prices of our last market day. For Philadelphia and Baltimore Flour there was a good inquiry for home use and shipment to Ireland, at 24s. a 24s. 3d., but holders were firm for such as were of fair color and dress for 24s. 6d., which limited sales. For Sours the inquiry was less active than last week or in the early part of this. Irish Flour was inquired after, but there was little offering.

Yellow Indian Corn on the spot, was not sought for, but there was rather more demand for White; prices of each are unchanged. No sales were reported in cargoes C. F. and I. Oats and Oatmeal without change in either demand or value from our report of these trades on Tuesday.

Brown, Shipley & Co.'s Circular.

Per America.] LIVERPOOL, Oct. 1, 1852.

Since the departure of the last steamer there has been an animated demand for Cotton with an advance on the lower and middling qualities of American, while the better descriptions are firm at our last quotations, in consequence of the unfavorable accounts of the coming crop brought by the America and Arctic. Egyptian Cotton has also largely participated in the improvement, the sales of this description reaching 21,000 bales at ¼d. per lb. above previous rates, owing to the prospect of an inadequate supply of Sea Island during the coming season.

The business for the week ending last evening sums up to 36,250 bales, of which speculators have taken 4,000 and exporters 4,150 bales. To-day the sales are 12,000 bales. The quotations are: Fair Orleans, 6¾; Middling, 5¾; Fair Mobile, 6¼; Middling, 5¾; Fair Uplands, 6¼; Middling, 5¾; Ordinary, 5 a 5¼; Inferior, 4 a 4¾. Trade in Manchester is good, Yarns being in request at an advance of ¼ a ½d. per lb., with a fair inquiry for Goods at previous prices.

We have no change to notice in our Corn market, the business being to a moderate extent at the following quotations: White Wheat, 5s. 3d. a 6s. 6d.; Red, 5s. 3d. a 5s. 9d. per 70 lbs.; Western Canal and Canada Flour, 23s. 6d. a 24s.; Philadelphia and Baltimore, 23s. 3d.; Ohio, 24s. 6d.; Sour, 17s. a 19s. per bbl.; White Indian Corn, 30s.; Yellow, 29s. 6d. and Mixed 28s. per quarter.

Turpentine is in good demand at the advanced price of 38s. a 38s. 3d. per cwt., while common American Rosin has commanded the high price of 3s. 9d. a 4s. per cwt.
