gave an evidence of capability on the part of the teachers and assiduity on the part of the scholars generally. Remarks were made by the Rev. Mr. McClure of the Reformed Dutch Church of Jersey City. The Principal of the Male Department is Mr. G. H. Lindsly; of the Female Department, Miss Mary Westray; and of the Primary Department, Mrs. Eveland. Yesterday at 9 o'clock the examination of the Male Department No. 1 commenced, and closed at noon. In the afternoon yesterday Primary School No. 3 was examined, and on to-day and to-morrow No. 2 in all its departments will undergo an examination.

DESPERADOES.—A Mr. Cheever, residing by himself in Haight-st., was aroused (*The Sentinel says*) by ruffians on Saturday night, who rapped at his door, asking for lodgings. He thought he knew the voices, and opened the door, when he discovered standing there two men bundled up in overcoats, who crowded themselves into his dwelling, when one of them drew a pistol upon him and the other attacked him with a billet of wood and beat him severely. He succeeded in getting possession of his loaded gun, at which they left the premises quickly. He fired after them but missed them, and they escaped. It is believed that their intention was to have murdered him and robbed his house of money and other valuables which they supposed were there. It is believed that the desperadoes are known, and warrants have been issued for the suspected persons, and officers are searching for them.

TUESDAY, NOV. 9—P. M.

There was an active business at the Stock Board this morning, with generally a good feeling, but in some cases a decline on previous rates. Canton was heavy and fell off to 86⅞@86⅞. Erie had also a downward tendency and touched 85¼, but afterward recovered to 86, showing ⅛ ⅌ cent. advance on yesterday's price. Long Island was firm and closed at 37⅞. A sale of 500 shares was made at 39, buyers 6 months. Reading was firm. Harlem took an upward move and was in demand at 71¾. The receipts for October are reported between $71,000@$72,000. Nicaragua was one of the buoyant stocks, and went to 29, an improvement of 1½ ⅌ cent. Morris was steady, with moderate sales. N. A. Trust is dull at previous rates. The public do not seem disposed to take it off the hands of the speculators; a bear sale was made at 20, seller 12 months. Stonington and Norwich are steady. The Coal stocks are firmer, and Cumberland recovered from the decline of yesterday, 1½ ⅌ cent., going to 64. St. Lawrence Mining sold at 1½, in consequence of the installment of $1 ⅌ share called by the Directors. The premium stocks were in demand at full prices. North Indiana sold at 128, the highest point it has touched; and Rochester and Syracuse 124½. Railroad Bonds, first class, and State and Government Stocks are in request and held very firmly. At the Second Board the feeling was buoyant, better prices were bid, and the market closed with firmness.

The market is dull for Sterling at anything over ten per cent. for leading names. The supply of Southern bills is large. Francs, 5.15@5.13¾.

In Freights there is not much doing, but the market is firm. To Liverpool Flour, 2/3@2/6; 10,000 bushels Wheat, 0/7; 250 bales Cotton, 0/7; 500 bbls. Resin, 2/0; 500 bbls. Turpentine, 2/9; to London, Flour and Naval Stores, 3/; Grain, /8¼d.; Dead Weight, 25/@30/; Oil, &c., 30/. To Havre, Cotton, ⅛. A ship was taken up to load Cotton at Charleston for Havre, at 1c. per lb.

The amount received at the Sub-Treasury is $130,403, paid $3,954; balance, $3,801,265.

The Money Market remains unchanged, with, if anything, an increasing supply on call. The rates are 5@6 ⅌ cent., with an occasional at loan 4½, on desirable collaterals. First-class short paper is scarce, and goes at 5@6½ ⅌ cent.; long 6@7 ⅌ cent.

Private letters by the Star of the West, state that the amount of gold on freight, by the Panama steamer, would be two and a quarter millions, which is larger than was anticipated. This continued influx of two to two and a half millions of gold semi-monthly, with only a moderate export, must influence materially the money market for the next three months.

The Dry Goods trade still keeps active from second hands, among those who break bulk. The country near by trade is still drawing supplies, and prices, under the influence of low stocks, are well maintained. Unbleached Shirtings and Sheetings are in fair request, without abatement in price. Bleached Goods are rather less active than they have been, and show some accumulation of stock, but which is not too large to weaken prices. Drills are still scarce and much wanted, with little coming forward not previously engaged. Browns are 7¼, Blues 9½, and Bleached 8½. Osnaburghs are active and firm. Denims are steady, with a light stock. Stripes are dull. Ticks moderately active. Canton Flannels are brisk and firm, with a light stock. Printing Cloths are buoyant, with a moderate demand and light stock. Prints continue to come forward fresh to meet the later demand of the season. Ginghams are active, at regular rates. The activity of demand has been persistent through the season, and seems not to abate. De Laines are in fair request, and are steady in price. Cloths are dull. The supply is also checked, so that prices are firm. Fancy Cassimeres move briskly, at regular rates. Plain styles and blacks are also in demand. Satinets are quiet, and the stock is increasing; holders are firm. Tweeds and Jeans are inactive. Linseys are steady at 17c @18c. Flannels have advanced, with a fair demand and short supply. Blankets are brisk and firm. Shawls are in demand, and without excess of stock. The Auction season is nearly over. One large sale of French goods is yet, however, to come off on Wednesday. The demand is yet fair. The taste of the consumers has been well catered for this season by importers of French goods, and never previously have so few undesirable goods been presented on the market. The quantity also has not been excessive except in Gloves, which is almost the only article that has suffered in price. Of course the closing season does not present the activity witnessed a month ago, yet there is a lingering demand. Cloths are in moderate request at full prices. British Goods are not very active, but a fair business is doing. The Woolen jobbers are buying, as well as the Clothing trade, but the demand is more for Spring than Fall Goods, to meet the wants of distant markets.

The earnings of the Madison and Indianapolis Railroad Company, continue to be very large, as will be seen by the annexed statement:

The following table exhibits the condition of the Banks of this State on the 26th March, 26th June, and the 4th September, 1852:

Due to Bank	19,083,264	25,269,187	23,796,352

The above table exhibits an increase in loans and discounts, compared with the previous report, of $8,655,357, and an increase of capital of only $2,501,533. In the report of Sept. 27, 1851, the entire banking capital in the State was $57,572,025, showing an increase within the year of $4,635,191. At that time the loans and discount account amounted to $106,765,340, while those of last September exceed this amount of $23,179,063, and that with only four-and-a-half millions increase of capital. The specie in vault is some three millions less than in June last—nearly equal to the amount on hand the latter part of March last and some three millions more in the report of Sept. 27, 1851. The unregistered notes in circulation are being gradually called in and destroyed. In Sept., 1851, there were in circulation $558,264, showing a withdrawal during the year of $33,706 of this description of currency. The table shows an increase in circulation of some two millions of dollars, and an increase in deposit nearly equal to that amount. The June report embraces returns from 239 Banks and one branch, and the September is made up from 258 Banks and one branch. Reports were received from 238; the remaining twenty (individual Banks) have given notice of closing their affairs, and the figures, as to them, were taken from the books of the Department, hence the difference in the totals of the two columns. Since the last report (June 16) eleven new Banks have reported for the first time.

United States Bank Stock is selling at Philadelphia at 84 per share.

At Boston the Money market is easy.

It is stated that the Franklin Railroad Company will have their road complete from Erie to its connection with the Cleveland and Ashtabula Road, and in full operation by the close of the year. This road will furnish a direct railroad connection between New-York and Cleveland.
