Monday, Nov. 22—P. M.

The week opens with an active Stock market and generally higher prices were obtained. The speculative feeling is increasing, and there is a larger infusion of outside operators than has been noticed for some time past. The strongest movement is in Canton, which went to 97, a further advance of 2½ ₱ cent. Long Island also continues to move upward, and went to 45¾, an advance of 2 ₱ cent. Erie was not pressed on the market and was sustained at an advance of ¼ ₱ cent. on Saturday's closing price. The Hornellsville road is now open and a six feet guage extends from this City to Buffalo. This connection will add considerably to the business of the Erie. Harlem was buoyant and improved ¼ ₱ cent., closing at 73¾. Stonington was also firm at 57½, an improvement of ¼ ₱ cent. Norwich also improved ¼ ₱ cent. Hudson River closed at 79 after going to 79½. All the railroads are growing in favor. The Coal Stocks are firm and in fair request. Pennsylvania sold at 122; Cumberland, 64¼; Parker, 51; Dauphin, 67. The Land Stocks are very buoyant. Besides the advance in Canton, Cary went up 50c. ₱ share, closing in demand at 13, and Edgeworth 7¼. Nicaragua closed firm at 28¼, under heavy bearing. The sales were 2,500 shares. The premium Stocks are in demand and have still an upward tendency. Northern Indiana and Southern Michigan Railroad sold at 133; Albany and Schenectady, 115; Michigan Central, 112¾; Panama, 144, buyer 60; New-York and New-Haven, 115¼; Ohio Life and Trust, 107, &c. The demand for Bonds was good and the sales reach $150,000, nearly all Railroad bonds, at full prices.

The market closed steady and with fair demand.

There is rather more firmness at the South in Exchange, and this has given more strength to this market. Sterling is 9@10¼, with but little doing. Francs 5.15@5.12½.

In Freights the rates continue to advance with considerable activity. To Liverpool the engagements are some 60,000 bushels Wheat at ⅞@9½ in bulk, /10 in bags. Flour, 2/9@3/6 asked; 500 bbls. Resin, 3/6; 200@300 bales Cotton, 7-16@⅜ asked; 150 bxs. Tobacco, 3/6. To London, 500 bbls. Oil, 35/; Oil Cake in bulk, 37/@40/; Flour, 3/6 asked; Grain, /10. To California there is considerable doing.

The amount received at the Treasury was $80,260; paid, $226,401; balance, $3,347,420. The Secretary it is understood is still buying the public debt of 1853.

There is no new feature in the money market excepting larger activity in consequence of the increased transactions of the Stock market. The rates of interest are 4½@6 ₱ cent. on call loans and A No. 1 paper.

The statement in one of the morning papers in regard to the Cumberland Coal Co., are incorrect. There is no difficulty between the Baltimore and Ohio Railroad Co. and the Cumberland. The journal alluded to says:

"It has been ascertained that the Company never contemplated its contract with the Baltimore and Ohio Railroad Company for the transportation of coal, and in accordance with this neglect have not deposited one dollar with them for the construction of coal cars. The quantity of coal sent forward in October did not exceed [illegible] thousand tuns, equal to about two hundred tuns per day, and instead of paying their freight in cash, on the first day of the month, the fixed day of payment, the agent at Baltimore gave his draft, at one day's sight, on the President of the Coal Company, thus gaining the use of the advantage of about eight days.

"This is all wrong. The Company have consummated their contract with the railroad, and we have seen the deed executed duly executed by Mr. Swann, the President, and we have also seen the cancelled draft of the Treasurer of the Railroad for the first installment of $50,000 of the $250,000 loan to be made for the construction of cars, marked "paid" by one of the Wall-st. banks. The quantity of coal sent forward in October was 9,357 tuns by railroad, and 7,414 tuns by canal, making 16,771 tuns, instead of 6,000 tuns as stated above. In regard to the payment of freight it has always been made upon the presentation of the bill to the Baltimore agent in a draft on the officer here at one day's sight, giving time for the examination of the bill. This course was not departed from in this case. The last installment on the stock has been promptly paid, with the exception of a small amount now in course of payment to the old rumor of the falling of the roof of the Maryland Mining Company's mine, it referred to about an acre or two of one of the chambers, which fell some time since. There has been no such event since the property came into possession of the Cumberland Company."

The Canal Commissioners have determined not to designate any day for closing the canals of the State, being desirous that navigation should be continued as long as the weather will permit.

To-morrow, Tuesday, at 2 o'clock, Messrs. Carpenter & Vermilye will open the bids for the proposed loan of $100,000 to the City of Rochester, on city bonds. These bonds are for $1,000 each, have coupons attached, have twenty years to run, and will bear 5 or 6 per cent. annual interest, according to the terms of the most favorable bids. Proposals are to be made, therefore, stating the rate, as well as the price, or the bids will be without effect. The interest is payable semi-annually.

The aggregate imports of last week were $2,010,981; of the month, $6,636,366. The exports of merchandise for the month were, $3,311,572. This exceeds the total exports of Nov. 1851.

The Pittsburgh Gazette urges the citizens of Pittsburgh to subscribe liberally to the Alleghany Valley Railroad, and as an inducement, says:

"We are happy to understand, from good authority, that New-York capitalists stand ready in the event of this subscription being made, to advance the necessary means to finish both this work and the Pittsburgh and Steubenville Railroad.

Reading Railroad shares are now worth so much more than the Convertible Bonds of the Company that holders are beginning to convert them into stock. On Friday and Saturday last, we understand, over $150,000 were so converted. Other parties have signified their intention to do likewise.

The Miners' (Md.) *Journal* says that the Cumberland fine Coal is not only in great demand for blacksmithing purposes, but the engineers of locomotive and stationary engines regard it of equal, if not greater, value than the course for the generation of steam. The prejudice against fine coal is fast disappearing, and by this means the amount consumed will be very much increased.

The message of the Governor of Arkansas is strongly in favor of the construction of a Railroad from the Mississippi to the Pacific, and advocates Memphis as the eastern starting-place. He enters into an argument to prove that the road can be built at a cost of sixty millions of dollars, and that when completed it will pay six ₱ cent. ₱ annum upon the investment. In order that the stock may be taken without delay, he proposes that the United States Government shall guarantee that rate of interest for forty years. As an indemnity, the company to be required to transport the mails, Government stores and munitions of war free from charge during the same period.

The Governor also recommends that the State shall make an effort to restore its credit, by funding its debt, estimated at about two millions, and issuing new securities therefor, redeemable in 1890.

Hogs and Cattle.—*The Cincinnati Gazette* of the 18th says:

The pork packing season has now fairly commenced, and the market is not devoid of the usual excitement, though it is evident that packers generally regard present prices as sufficiently high to induce very cautious movements. The advance in products in the Eastern and Southern markets has, however, imparted more confidence to the trade, although at the same time it is believed that current rates for old products are not calculated to affect materially the future price of the new: and we call the advance in the price of Hogs during the week fully 25 cents per 100 lbs. In addition to this, the rates of premium paid by slaughterers have advanced, and we understand that 35 cents per head is now obtainable. Hogs, therefore, net holders $5 60@$5 70 per 100 lbs.

Our correspondent at St. Louis writes that packers there are very fearful, and in consequence of their refusal to accede to the demands of sellers it is probable the number packed in that city will not exceed 50,000 head.

The following comparison of prices last season and this, will prove interesting as showing the starting points for the rates of two years:

	Nov. 16, '51.	Nov. 16, '52.
New Mess Pork	$12 00@—	$14 75@—
Green Hams	— 6¾@6¾	— 7½@7½
Green Shoulders	— 3¾	— —
Green Sides	— 4¾	— —

COTTON is exceedingly dull, only 460 bales were sold to-day.

FLOUR AND MEAL—Our market for the low grades of State and Western Flour opened firmer, with a moderate local and Eastern demand; at the close there was less firmness and buoyancy apparent, and our extreme figures could only be obtained for very good brands. There is nothing doing for export, but we notice a good speculative inquiry, induced by the prospect of an early close of canal navigation. The receipts are large to-day, mostly of the low grades. Canadian is firm and in fair request; sales of 1,300 bbls. on the spot at $5 12½ and 1,000 bbls. for March delivery at $5 50. Genesee is not offered and is firm at $1 50. Canadian has been freely offered at the decline. The sales are 2,500 bushels prime White Michigan at $1 22, 1,000 bushels do. at $1 24, which is above the market, 4,000 bushels Red Indiana (Wabash) at $1 12, 7,500 bushels prime Red Southern at $1 11, and 16,000 prime White Canadian at $1 12½. Sales of 22,000 bush. at 82@85c. for new Southern, 87@90 for Western mixed, and 88@89 for old round Yellow.

Prime, $11 50@$12 for Vermont Mess, $12 50@$12 67½ for re-packed Chicago and $14@14 25 for extra do. Beef Hams are firm; sales of 140 bbls. at $18 for Chicago. Lard is a trifle better and the supply is limited; sales of old at 12½@12½c. in bbls. and kegs, and 1,000 kgs. new to arrive at 12½c.
