PETITION AGAINST ENCOURAGEMENT to WILD CAT BANKING.—We have already published a partial list of the signers. The following names were added to the petition on Saturday. They do not include those published in *The Tribune* and *Herald* of that day. There are many papers in circulation that could not be got hold of in time for this morning. There is but one opinion among merchants and business men on this subject. All are in favor of it. We shall make no further publication of names. The remainder will go to Albany with those now and heretofore published.

To the Honorable the Legislature of the State of New-York:

We, the undersigned, merchants and others, doing business in the City of New-York, understanding that efforts are being made to establish the circulation of the bills of many of the "Banks of circulation," purporting to be issued in Illinois, Indiana, and other Western States, by procuring the consent of one of the New-York City Banks to receive them on deposit, at a discount of three quarters of one per cent., thereby securing the indorsement and aid of such City Bank to force this currency upon the community, to their serious loss and greatly to the detriment of the circulation of the Banks of this State, hereby protest against such proceeding, and pray your Honorable body to pass such laws as will protect the public and prevent any Bank in this State from receiving the circulating bills of the Banks of any other State at a greater rate of discount than is fixed by law for the redemption of the bills of the Banks of this State at their agencies. And your petitioners will ever pray.
