In continuation of the system of auction sales, this Company will offer at public auction, on Wednesday, the 25th day of March, 1863, at 12 o'clock, at the room now used as the Merchants' Exchange, Nos. 26 and 28 Exchange place, corner of William street, by Simeon Draper, auctioneer, THIRTY THOUSAND TONS OF FRESH MINED SCRANTON COAL, embracing all the usual sizes, and deliverable at their Depot, Elizabethport, N. J., after the first of April next. They will repeat such auctions under on or about the 20th of each month during the year 1863. The sale will be positive. Each lot put up will be sold to the highest bidder; no bids, in any form whatever, being made for account of or on behalf of the Company. Fifty cents per ton, in bankable funds, to be paid at the time and place of sale, and the balance in like funds, on receiving the order for the coal, which must be called for within ten days thereafter, and the coal taken away within thirty days from the day of sale, unless navigation is obstructed. Buyers who wish, however, can have an additional thirty days for taking the delivery of their purchases, by making a further deposit of fifty cents per ton, within the ten days above specified. Interest, at 7 per cent per annum, will in such case be charged on the balance, from the time stipulated for payment until paid, and twenty-five cents per ton to cover the expense of stocking the coal—both to be paid on delivery of order. The other conditions of sale will be substantially those hitherto accepted by all purchasers by private contract of coal deliverable at Elizabethport, so far as applicable. The coal will be delivered direct from the mines, when practicable—otherwise from the stock. These conditions will be modified to meet the wants of ocean steamers, whose arrival cannot be definitely fixed. With a reliable avenue from the Lackawanna and Wyoming valleys to tide water, open every day in the year (Sundays excepted), requiring but twelve hours for the transit of the trains, the advantages of such sales, and the superior condition in which the coal will be delivered, are so apparent, they cannot doubt this mode of selling will commend itself to the favorable consideration of both the trade and consumers, whose co-operation is respectfully invited.
