IRON WORKS.—On WEDNESDAY, May 11, at 12 o'clock M., on the premises, if not previously disposed of at private sale, the Providence Iron Company, to close a concern, offer for sale their very extensive and complete establishment for manufacturing Iron, situated on tide water, at Fox Point, in Providence.

These works have all been erected within seven years, are in good order, and ready to be put into immediate operation, and are equal to the production of 24 tons of iron into plates and bars per day.

Connected with the above is a Wire Mill, capable of running 8 tuns of rods per day, for which there is a regular and increasing demand in Providence, at the present moment, at least equal to the entire production of the mill. Also, Reynolds's Patent Wrought Spike and Nail Machines, which will turn out 10 tuns per day. Also a Cut Nail Mill, capable of turning out 150 to 175 casks per day, and which could be easily arranged to double that product.

As this establishment was built for use, no expense was spared in having everything about it of the most perfect kind, and the inventory exhibits as complete an establishment, perhaps, as is to be found in New-England.

It is thought that no place in the United States presents a better opening for the successful prosecution, by a practical man, of the manufacture of wire rods, iron, nails and spikes, rather than the City of Providence, the center of a large and rapidly increasing manufacturing district, requiring for consumption the entire production of these works.

These works being on tide water, where the largest class of vessels which frequent our Bay can load and receive cargoes without lighterage, allows of their receiving their supplies of coal and iron at the lowest rate of freight; and labor can at all times be had on as good terms as elsewhere in New-England.

As it is supposed the purchaser would desire to examine the premises, further description is deemed unnecessary. The property will be sold cheap, and the terms of payment will be made easy.

For an examination of the property apply to W. H. HENDERSON, on the premises, and for terms an application may be made to either of the subscribers in Providence. HENRY L. KENDALL, EDWARD PEARCE, DANIEL PAINE.

Providence, R. I., March 22, 1853.

JAMES M. MILLER & Co. will sell THIS MORNING, at 8½ o'clock, at No. 70 Catharine-st., the contents of a Hardware Store, consisting of all kinds of articles in the line suitable for dealers and housekeepers. Sale without reserve.

ALBERT H. NICOLAY Auctioneer.

PEREMPTORY SALE of 34 choice plots of GROUND and 6 new FRAME HOUSES, situated near the Depôts of CENTRAL MORRISANIA and FAIRMOUNT, UPPER MORRISANIA, on TUESDAY, April 26, at 10 o'clock, at the Merchants' Exchange, without reserve, 20 choice plots of Ground, situated at Central Morrisania, near the depôt, varying in size from 50 to 100 feet front and rear, and from 120 to 150 feet in depth.

Also 4 neat 2-story attic and basement frame Houses, built in the best manner, within a few months; possession 1st May. By a covenant in the deed, every plot has to have built upon it, by May 1, 1854, a dwelling-house to cost not less than $500, so that an immediate neighborhood is certain, and many first-class Houses are now erected. All the streets are laid out and graded, and trees planted in front of the lots 25 feet apart, and from the beauty of its site and the character of its many owners, this village will undoubtedly be the "gem" of the Morrisania. As soon as the depôt is completed, the cars will stop directly on the ground.

Also, in the beautiful village of Fairmount, Upper Morrisania, 14 choice plots of ground, varying in size from 50 to 100 feet front and rear, and from 150 to 250 feet in depth.

Also, 2 very superior 2-story attic and basement frame Houses, built in the very best manner, by day's work, last summer, possession of which can be had 1st May. It is required that all plots in this village shall have a dwelling-house, to cost not less than $800, built by 1st December, 1853; and there are now a number of very fine houses built there. The streets are opened and graded, and the principal avenue is planked on the sidewalk. There are 26 daily trains to and from these two villages, and the commutation is only nine cents per day. The convenience of access is so great, this property being only ten miles from the City Hall, together with the healthy location, and the most excellent neighborhood, all combined, offers unusual inducements to those seeking a country residence, as well as a safe and profitable investment, and must rapidly increase in value. It is expected that, in addition to the convenience of access by the Harlem Railroad, that a depôt will be established by the New-Rochelle Railroad Company this summer. Persons wishing to see the property, by taking the 3½ P. M. train for Morrisania, and inquiring at Pridham's Hotel, at the bar, (close to the depôt,) will find a person waiting who will show the property.

Terms—10 per cent., and the Auctioneer's fee, on the day of sale; 40 per cent. on the 10th of May, when full warrantee deeds will be delivered; and the balance can remain on bond and mortage for three years, at 7 per cent., or 5 per cent. discount for cash. The privilege of buying half a plot will be given on condition that the payment shall be all cash.

For lithographic maps and full particulars, apply to F. W. MERIAM, Esq., No. 42 Beekman-st., or to the Auctioneer, No. 40 Wall-st., N. Y.
