ASTROLOGY.

ASTRO-PHRENOLOGY OR ASTROLOGY AND PHRENology Harmonized.—Public attention is urgently solicited to this Science, as practised on moral and christian principles, by Dr. L. D. Broughton, who, by minute investigation and large practice for the last twenty years, is enabled to set out before the public the art of delineating Human Character, by the position of the Heavenly Bodies, in a more scientific form than has ever yet appeared.

"I tell thee,
There's not a pulse beats in the human frame
That is not governed by the stars above us.
The blood that fills our veins, its ebb and flow
And flow, is swayed by them, is certainly
As are the restless tides of the salt sea.
By the resplendant Moon; and at thy birth
Thy mother's eye gazed not more steadfastly
On thee, than did the Star that rules thy fate.
Showering upon thy head an influence,
Malignant or benign."

When practised by honest and intelligent persons, this method of defining human character will be found vastly superior to every other mode, and entirely divested of all the cant and sophistry with which this useful and heavenly science has been hitherto encumbered by impostors. Dr. L. D. Broughton, Professor of Astro-Phrenology, has great pleasure in announcing to the admirers of this science that he may be visited at his residence, 129 Greene street, near Prince street, where he will be happy to give attention and such advice as his long experience in a confidence with the Holy Scriptures may render necessary. Persons wishing to test the truthfulness of this science, heads of families requiring a profession, trade or calling for their children, and all those who make nature and moral duty their study, will derive much benefit by consulting Dr. L. D. Broughton, who will practically illustrate the electric phenomena of the planets; voices, and others, not on the character of man, in the moral mental and physical capacities, specially pointing out the nature and qualities of the mind—the constitution of the body as regards health and disease—the mental and corporeal affections, and their influence on individual prosperity, marriage, profession and trade, mercantile speculation, and the probability of success or failure and success in any particular pursuit—in short, analyze particulars of personal talent and power necessary to be known, can be faithfully illustrated by this incomparable science, the knowledge being deduced purely from the position of the heavenly bodies (at the time of birth), which, according to the sacred writings, were created for the firmament by the great Omnipotent, for signs, for seasons, for days and years, to shine upon earth, to rule the day and the night, which fought in their courses against Sisera, and which conducted the wise men of the East to the birthplace of our Saviour.

TERMS—Gentlemen, $1; ladies, 50 cents; gentlemen's questions answered by letter, enclosing $1. Also, phrenological examinations made verbal 50 cents; with a chart $1. All persons forwarding letters, stating the time and place of birth, with their sex (male or female), enclosing $5, will receive by mail a chart with their nativity fully explained in every point required. Address Dr. L. D. Broughton, 129 Greene street, New York. Business hours from 9 o'clock A. M. to 9 P. M.

ABCLOVE B. MAURICE, THE GREAT AND REAL Astrologer's advice is based upon scientific principles. What is Astrology? It is the practical part of the science of Astronomy; and, as the theory of navigation would be of little service to man without the experience derived from traversing the ocean's bounds, so astronomy is of little moment unconnected with its practical value, developed in astral lore. Astrology teaches the nature of the various planets, the influence they exert upon our earth in their passage through the successive signs of the zodiac, the effects upon the tempers and fortunes of mankind, according to their positions. Professor Maurice has a profound knowledge of the rules of the science of the stars; and, as the hand of fate has marked out the path of each individual, so will Professor Maurice unfold his meanderings, covering the whole field of all that relates to your happiness or misery through life; he will describe the intended husband or wife and tells the very day you will marry, and in causing speedy marriages will bring success out of the most hopeless cases. All who consult Professor Maurice will be sure of success in any undertaking and have good luck and be prosperous through life. No. 126 Bleecker street, three blocks from Broadway. Ladies, 50c.; gentlemen, $1. All hours, till nine in the evening.
