ONLY THREE DAYS LEFT.—Improve the present time—$15 only for a beautiful Country Residence in the pleasant village of Roseville, adjoining Lakeland, where a new Church and a number of private dwellings have already been erected, (and several more are now being erected,) and crops of almost every kind may be seen growing equal to any on Long Island, and very near the much-admired lake Ronkonkoma. 2,000 desirable building Lots and 50 Farms will be distributed among 600 shareholders on the 6th June, 1853. Each subscriber, for only $15, will receive a warrantee deed for four Building Lots 25 by 100 feet each, or a Farm of from 2 to 20 acres. This is a fine opportunity to get clear of paying enormous rents in this city, and owning a delightful and healthy Country Residence, near the city where the domestic comforts of a family circle can be fully realized, and where 21,000 Building Lots and about 300 Farms have already been sold. A few farms of from five acres and upward can now be had if applied for immediately, at from $20 to $50 per acre, and as it regards the quality of the soil, I refer to a statement which was made at the American Institute, at a regular meeting of the Farmers' Club, on the 21st of June, instant, and without any knowledge of mine, from which statement the following is an extract, viz:

"With respect to Long Island lands, which had been so much talked of at the two previous meetings, when discussing the subject of 'study soil,' the following fact was recorded: Edwin Jackson has from one to two thousand acres on the south side of Long Island, about 47 miles from New-York, where the land is not better, if as good, as about Lakeland Station. He has this year grown carrots 22 acres, beets 5 acres. He estimates the carrot crop at 800 bushels per acre, worth from 30 to 40 cents per bushel, or from $6,000 to $7,000 for the crop. Mr. Ireland, who has a farm in the vicinity, thinks the Lakeland Station soil is better than his."

As but a short time is left to procure a share in these Lots and Farms—a few only being left—application should be made immediately to CHARLES WOOD, No. 248 Broadway, where maps and pamphlets can be had gratis.

FOREIGN PATENTS.—IMPORTANT INFORMATION to EXHIBITORS of AMERICAN INVENTIONS at the coming WORLD'S FAIR.

In the recent Laws of most of the nations of Europe there are clauses which declare "Patents of Importation" to be taken, and those are granted to any applicant, regardless of who may be the actual inventor. This is especially the case in England, which country having no commercial and manufacturing interests similar to our own, gives more attention to our inventions than to those of any other nation. Inasmuch, then, as of the approaching Fair large numbers of manufacturers will doubtless be here expressly to obtain what they can in the way of improvements, and who will unquestionably take those they can get for the mere expense of patenting, it is important that exhibitors of new inventions, who do not intend to abandon their rights abroad, should proceed at once to secure themselves. Under the new laws of England "Provisional Protection" is given for six months at moderate expense.

The subscriber will secure Patents for Great Britain, and all other parts of Europe, in time for delivery at the Fair, if immediate steps be taken for that purpose. JOSEPH P. PIRSSON, No. 5 Wall-st.
