FOREIGN PATENTS.—IMPORTANT INFORMATION to EXHIBITORS of AMERICAN INVENTIONS at the coming WORLD'S FAIR. In the recent laws of most of the nations of Europe there are clauses allowing "Patents of Importation" to be taken, and those are granted to any applicant, regardless of who may be the actual inventor. This is especially the case in England, which country having commercial and manufacturing interests similar to our own, gives more attention to our inventions than to those of any other nation. Inventors, then, as at the approaching Fair large numbers of manufacturers will doubtless be here expressly to obtain what they can in the way of improvements, and who will unquestionably take those they can get for the mere expense of patenting, it is important that exhibitors of new inventions who do not intend to abandon their rights abroad, should proceed at once to secure themselves. Under the new laws of England "Provisional Protection" is given for six months at moderate expense. The subscriber will secure Patents for Great Britain, and all other parts of Europe, in time for delivery at the Fair, if immediate steps be taken for that purpose. JOSEPH P. PIRSSON, No. 5 Wall-st.

CROWN LAND OFFICE, QUEBEC.—Notice is hereby given, that a number of valuable Timber Berths in the St. Maurice Territory, will be disposed of by Public Auction, in the City of Quebec, on the 18th of July next.

The Berths are all situated adjacent to navigable streams, and contain an average area of fifty square miles each. The whole tract to be disposed of at the present sale, contains about 4,000 square miles.

There are already several American Houses engaged in the Lumber Trade in this District, and the American Public will find the vast extent of Timber Territory, drained by the River St. Maurice and its tributaries, worthy of attention.

A Map of the Territory, indicating the Berths to be offered for sale, and any further information, may be obtained at the office of A. M. HART, Counsellor-at-Law, 92 Wall-st., New-York. (3d flor.)

WATER POWER on the ST. MAURICE for SALE.—The subscribers offer for sale their Water Power, at the Shawenegan Falls, on the River St. Maurice, together with the adjoining property, consisting of 365 acres of land held in free and common socage. These Falls are upward of 186 feet in height, so that the Water Power may safely be said to be unlimited; above the Falls the property extends along a bay formed by a bend in the river, where any quantity of logs can be retained in perfect safety at all seasons of the year, so that the basin below affords every facility for rafting. Sawlogs can be had in great abundance, the vast extent of territory drained by the St. Maurice and its tributaries, being now opened by the Government works.

Considering all the advantages which the property now offered for sale possesses, the subscribers do not hesitate to say, that a more eligible situation cannot be found in Canada, for the manufacture of sawn lumber, either for British or American markets. For plans and further particulars apply to George Irvine, Esq., Quebec; G. Baptist & Co., Three Rivers; James Burns, Esq., Montreal; G. P. Ogden & Co., Troy; D. R. McKay, Boston; where plans of the property may be seen.

If not sold by private sale, the property will be disposed of at auction on the ensuing day, at the Crown Land Agent's office, Quebec, 14th July next. Lumber can be transported from the mills to New-York at $4 25 per 1000 feet.

LARGE SALE of LOTS at KEYPORT.—ANTHONY J. BLEECKER will sell on THURSDAY, June 30, at the Merchants' Exchange, in the City of New-York, FIVE HUNDRED of the most valuable BUILDING LOTS in the new part of Keyport—the property of the Florence and Keyport Company.

This town is situated on the Raritan Bay, in the direct air line between New-York and Philadelphia. It has been located for the purpose of opening a great main thoroughfare from New-York to the South, and as the prominent Seaport Town and Port of Entry for the State of New-Jersey. Extensive and permanent docks have been constructed, and a ferry established by boats now leaving five times a day, at low fares. Roads are being opened, all terminating at this point, as the only outlet to a large and fertile district of country, which will come to this the depôt for all the trade and travel across the State, and the most important ferry route connected with New-York.

The increasing necessity for a straight Free Route from New-York to the South, which has been so long prohibited, will make the growth of this place the more rapid and immediate. As the chief commercial port, it must soon become the largest and most populous city in New-Jersey. Mechanics, manufacturers, and capitalists are invited to examine the property; it presents an opportunity for a profitable investment such as no similar place ever offered before.

The steamers America and May Queen leave foot of Chambers-st. every day, except Sundays, at 10, 2, and 4 o'clock; returning, leave Keyport, the last trip, at 6 P. M.

Maps and information may be had at Keyport, or at the office of the Florence and Keyport Co., No. 23 William-st., New-York.
