VOL. XIII.....No. 3,814. NEW-YORK, FRIDAY, JULY 8, 1853. PRICE TWO CENTS.

Special Notices.

☞ **Card.**—In consequence of the various articles which have recently appeared in the public prints, the DIRECTORS of the PACIFIC MAIL STEAMSHIP COMPANY deem it incumbent on them to announce that they have not authorized any combination with any party for the purpose of establishing higher rates of freight and passage money between the Atlantic ports and California—nor do they contemplate any such combination—their purpose being to confine their attention solely to their own business, and to the transportation of passengers and specie in the safest and cheapest manner practicable.

The time consumed by land carriage across the Isthmus of Panama has been lengthened by the greatly increased bulk of the mails and the measures necessary for the safeguard of the specie. A remedy for this will be provided by the early completion of the Panama Railroad, and with this consequent saving of time the Directors have always anticipated a reduction in cost of freight and passage between California and Atlantic ports. By order of the Board of Directors,

New-York, July 1, 1853. WM. H. DAVIDGE, Secretary.

☞ **Notice.**—A meeting of the Trustees of the proposed Gold Hill Mining Company will take place at the office of H. S. Dunham, No. 107 Fulton-st., TO-DAY, (Friday) at 1 o'clock P. M.

LATTING OBSERVATORY NOW OPENED to the PUBLIC.—This Observatory, situated on 42d and 43d sts., between 5th and 6th-avs., (entrance on 42d-st.,) in the city, possesses many points of interest to the public generally, not only in being constructed upon a new and novel principle in architecture, but from its great strength and perfect symmetry of form, together with the many conveniences attached, rendering it one of the most attractive places of resort in the city. From its various landings, New York and its environs, for a vast distance in every direction, is distinctly visible, and many of the most exquisite views of land and sea to be found on this continent are unfolded to the gaze of the beholder. The light of the Observatory is 100 feet, which is based on 75 feet. It is probably one of the strongest erections that can possibly be constructed of wood and iron.

The Board of Directors are now having constructed an immense Drummond Light, of sufficient power to light up the Harbor of New-York, which they intend to place upon the extreme top of the Observatory. Upon the upper landing will be placed a Spy-Glass, through which the visitor will be enabled to see in every direction for a distance of 40 to 60 miles. Upon the other landings, numerous glasses can be found for the free use of visitors. In other parts of the Observatory will be placed Dissolving Views, Cosmoramas, Scientific and Optical Instruments, Works of Art, and many other objects of interest, useful and attractive, in the interior of the Building. The Directors are determined to make this Observatory the highest structure upon this continent, but to make it an object of special interest to all. Admittance 25 cents. CHAS. P. GROSVENOR, Secretary.

MAZE GARDEN—Situated on 5th av., opposite the entrance to the Croton Reservoir, and in the vicinity of the Crystal Palace.

The Garden occupies two acres of ground, covered with a large growth of deciduous and evergreen trees and shrubs, adorned with Arbors, Fountains, and Vases, intersected by serpentine walks, and surrounded by grassy slopes—effectively combining the beauties of Nature and Art. In the main building upon the premises are two fine Refreshment Saloons, commodious Piazzas, and a LADIES' TOILET-ROOM, to which connects an Ottoman.

The most attractive feature of the Garden, is the MAZE, or LABYRINTH. This is constructed after the plan of the celebrated one in Hampton Court, London, formed in the early part of King William's reign, and is the only one in this country. Its intricacies will be a source of great amusement and enjoyment.

The Proprietors would also respectfully inform the citizens of New-York, as well as strangers visiting the city, during the "Exhibition of the Crystal Palace," that they have completed arrangements to serve the best
CREAM, ICES, AND OTHER REFRESHMENTS,
to ladies and gentlemen who may honor the Maze Garden with their patronage. Having made arrangements with Mr. BENJAMIN M. SHEARE, (the eminent confectioner of the Capital City—Albany—whose celebrity for the finest Cream, Ices, and Confectionery, is so well known in this country,) for such a supply of the best refreshments from his establishment, they feel assured that, with the prompt attendance of good waiters, they will give full satisfaction to their patrons.

NO SPIRITUOUS LIQUORS OR INTOXICATING BEVERAGES WILL BE SERVED.

To be open EVERY DAY, on and after the first day of July, 1853, from 8 A. M. until sunset.

THE BIBLE IN THE COUNTING-HOUSE.—A Course of Lectures to Merchants, by H. A. Boardman, D.D., author of "The Bible in the Family," &c. One volume, 12mo. Price $1.

NOTICES OF THE PRESS.

"We know of no book where the mercantile class will find more clearly and truthfully delineated their temptations, dangers, and duties, or where they will meet with more thoughts which will do to be carried with them to the counting-house, the streets, and the market-place, for every day use. Such a volume ought to be particularly valued by young men who are setting out on the hazardous journey of business life." [Presbyterian.

"These lectures are now before us in an elegantly printed volume. They constitute the most thorough manual for the moral and religious guidance of commercial men that has yet been published. We have no more forcible or more impressive writer than Dr Boardman." [Evening Bulletin.

"We heartily wish it may find its way into every counting-house and store and place of business in our city." [Boston Traveller.

"It is a clearer and more forcible presentation of the moralities of commerce, and a safer guide through the perplexities and perils incident to a mercantile career, than we have ever before seen. It is eminently judicious and practical, and forms a worthy supplement to the great work of Dr. Chalmers on the same subject, adapted to the more modern modes of doing business." [N. Y. Courier and Enquirer.

"Three lectures are replete with sound sense, broad and lofty views, and abound in eloquence." [Portland Eclectic.

"We trust that copies of this truly valuable volume will find their way into every counting-house, and that the truths they embody will be deeply impressed on all who read them." [North American and U. S. Gazette.

"Dr. Beardman is evidently a business man in the pulpit. The lectures are eleven in number, kind in spirit, but truthful and pointed. Their circulation cannot fail to be extensive and their influence happy." [Christian Intelligencer.
