SCHLESWIG HOLSTEIN.—THE UNDERSIGNED HAVing been appointed a committee for the collection of a fund for the relief of the suffering Schleswig Holsteins, appeal to the Germans of New York to interest themselves in the noble cause represented by them.
Our countrymen all over Germany are proving their sincere sympathy with the fate of the brave inhabitants of the German duchies in the most emphatic manner; but the suffering, especially among the late employes of the government, who have paid for their patriotism with the immediate loss of their income, is so great that every offering which the German heart may be prompted to give to the German cause will be needed, and such assistance is confidently expected also from the Germans of America.
Fully as we respond to this expectation, Germans of New York, and by ample gifts assure our suffering countrymen in the distant fatherland of our heartfelt sympathy with their struggle against oppression and wrong.
The undersigned will be happy to receive your contributions. LEOPOLD SILBERWITH, 48 Wall street.

TO DEALERS IN POULTRY, GAME, &C.

The New York Sportman's Club, call the attention of all persons dealing in game to the provisions of an act of the Legislature of this State, passed April 23, 1862, chapter 474, entitled an act for the preservation of Moose, Wild Deer, Birds and fresh water Fish, and hereby give notice to all whom it may concern, that on and after the 15th day of January, 1864, the provisions of said act will be strictly enforced. New York, Jan. 1, 1864.

THE UNITED STATES SANITARY COMMISSION IS in urgent want of funds. Its operations for the relief of the army were never more extensive and effective than now. Its depots and agents are at every military centre from Washington to the Rio Grande. The money value of the supplies it issued to the Army of the Potomac during and immediately after Gettysburg exceeded seventy thousand dollars. Its issues at Chattanooga were on a like scale. Thousands of men needing "special relief" are daily cared for in its "Homes." Its steamboats and wagon trains follow our soldiers everywhere. Its other and equally important departments of work—sanitary inspection, hospital inspection, hospital directory, transportation of the sick and wounded, &c.—are in full operation. The cost of all this life saving work is not less than forty five thousand dollars per month. Its funds are now much reduced, and immediate contributions are requested to sustain it.
The fairs that have been got up with such admirable and unprecedented energy and success at Chicago, Cincinnati and Boston, though reported everywhere as "for the benefit of the Sanitary Commission," have not as yet contributed a dollar to its treasury. The large sums thus raised have been received by the branches of the Commission at those cities respectively.
These branches apply them most usefully, mainly to the purchase of material to be made up into clothing, bedding, &c., and for like purposes. They thus relieve the treasury of the Commission from the necessity of purchasing supplies belonging to certain classes; but they render no aid to any other department of its work.
Those who desire fuller information as to the organization, method and cost of the Commission are referred to a statement of its system and of the application of its funds just published, copies of which may be had on application at the office of the United States Sanitary Commission, No. 823 Broadway, or at the bookstore of A. D. F. Randolph, No. 683 Broadway.
It is submitted to all humane and patriotic men that the Commission has saved, and is daily saving, lives the country cannot afford to lose; that it is doing to economize the life and health of our soldiers is worth to the country ten times the money the Commission has received, and is of direct practical importance to every one interested in diminishing the cost and the duration of the war.
Contributions may be sent to the Treasurer, at No. 63 Wall street, or No. 823 Broadway, New York.
By order of the Standing Committee.
GEORGE T. STRONG, Treasurer United States Sanitary Commission.
DECEMBER 28, 1863.
