

J. M. ALEXANDER SENDS CROOK \$25

Someone Wired Him From Memphis, as Rev. M. O. Alexander and He Sent Money.

It will be interesting to know that the same crook who tried to get \$35 out of Mr. Ben Alexander of this city, by posing in Dallas, Texas, as his brother, Rev. Milton O. Alexander, and who successfully worked the scheme on Mr. Dobbins, also got \$25 from Mr. J. M. Alexander, superintendent of the mills at Pelzer.

Several days ago Mr. Alexander in Pelzer received a wire from Memphis, Tenn., stating that Rev. Alexander was there and needed the money. Mr. Alexander accordingly wired back \$25 and paid the costs.

As was stated, Mr. Dobbins wired to Dallas telling the telegraph company not to pay the \$35 he had wired. His wire reached them in time and it was not delivered. As yet there have been no arrests in Dallas.

MR. JOHNSON WILL START WORK SOON

C. & W. C., Will Later Build Large Freight Depot on South Main Street Property.

Work of remodeling the two store rooms in the Anderson hotel building on South Main street for the C. & W. C. passenger station and the construction of the umbrella shed will be started within the next few days, as soon as some minor details are settled between Mr. W. W. Johnson, the contractor, and the railway people.

As stated a few days ago these two store rooms will be fixed up in first class style and the umbrella sheds will be built. The track of the C. & W. C. was placed up there several months ago but for some time the freight station has been used for a passenger depot.

Later it is the purpose of the railroad to also construct a large and attractive freight depot on some of the South Main street property, but it is stated that this will not be done until conditions get better.

WANT ELECTRIC CHAIR TO DISPLACE GALLOWS

Atlanta, Ga., July 9.—A strong plea for the substitution of the electric chair for the gallows in Georgia is being made before the legislature by several members. The proposed bill provides for the erection of a death chair at the state prison farm in Milledgeville or in Atlanta, all condemned prisoners to be executed there instead of the county where the crime was committed. The committee has postponed action until it can investigate the relative merits of chair and scaffold—but none of the members has volunteered to become a test case.

GEORGIA SOLONS UPHOLD TAX EQUALIZATION LAW

Atlanta, July 9.—The tax equalization law which was part of Governor Slaton's program for putting Georgia on a substantial financial basis and which has been in operation for some time will not be interfered with by the present legislature.

The fight to repeal it came to a head yesterday afternoon and met with complete disaster. It was killed in the senate and in all probability will not come up any more this year.

Suggestive Names. (Nashville Banner.) The German general, von Mackensen, has a name very suggestive of Scotch ancestry, and Gen. von Sanders, the German commander of the Turkish forces on the Gallipoli peninsula, likewise bears a cognomen of peculiarly Celtic sound.

The von was "made in Germany," but the Sanders must have been originally imported from Ireland. No Celtic admixture was needed to add to the fighting quality of the Germans, but that kind of blood never has been found an impediment in the respect.

This serves to recall that it has been claimed that the great von Moltke was the descendant of a Scotch soldier who followed the fortunes of the Stuarts and fled from his country to Prussia after the battle of Culloden, the name in time having become Germanized.

THE STREETS ALMOST READY FOR PAVING

SOUTH MAIN STREET WORK IS BEING FINISHED IN HURRY

NEW CEMENT DRAIN

Will Have to Be Put Down on Greenville Street—Present Drains Not of Right Grade.

With the work of the street paving progressing nicely and that also of getting the streets in readiness for this work by the city street forces, it will not be a great while before Anderson will again have some streets that are not torn up.

Mr. Sanders, the city engineer, stated yesterday that South Main street as far as the city council work is concerned is nearly finished. There still remains some work on a concrete culvert just north of McCully street. The storm sewers, however, and the paving of the sidewalks are about complete.

The city engineer says all the streets to be paved are ready for the paving contractors except Greenville and North Main. There is some work to be done also on Church street. It will be necessary to put down cement drains on Greenville street from one end to the other. A part of this street has Belgian block drains and the other part has cement drains, but these latter drains are not on proper grade, and will have to be torn up and new drains put down.

From the brick piled on South Main street it can readily be seen that something is soon to be done. Many remarks about the good appearance of the brick are heard every day.
