gold, with perhaps some uneasiness as to the effect of the large wants of breadstuffs upon exchanges. The demand for gold for military chests, usual upon war preparations, had also been felt. But these symptoms subside with returning peace.

Uncurrent money is very abundant. The Metropolitan takes it at ¼, and the brokers at ½. The losses on counterfeits of the Bank more than counterbalance the difference, however. The squabbles about taking each other's notes are a serious inconvenience, as well as the scrabbling for cash balances. As a body the Bank managers are a most incompetent set of men.

The new Minister to the Court of St. James was in Wall-st. to-day doing business prior to his departure to-morrow.

The Banks made their returns June 11, and reported $19,120,606 specie on hand. Since then $9,743,200 has been received from California, and, including Wednesday's export, $6,604,520 has gone abroad, and $800,000 into Government vaults, which would leave $2,500,000 for the Banks, but some of them allege that they hold, together $19,000,000 less, which would make $3,000,000 unaccounted for. It will be well to collect the estimates of different officers and gauge them by the results next week.

Gold ingots are at a discount. Some parcels have changed hands this morning at 1 per cent. discount for cash. The Sub Treasury refuses to take them in exchange for coin, though they have been offered large parcels at the usual mint discount of ¼ per cent. Could the Treasury have done this, it would have been a great relief to the market. There is no demand for specie to ship by to-morrow's Collins steamer. The Cunarder of Wednesday will take a large sum, all for France via Liverpool and Havre.

The Niagara's advices, as conveyed from Halifax by telegraph, are, that in London, Money for commercial purposes is abundant. Consols improving; closing price 96¼ for Money. Bar Silver lower. Dollars sell at 4s. 11¼d. Eagles in moderate demand at 79s. 4½d.

Paris Bourse closed on the end at 78f. 30c for Threes, 163f. 50 for Fours and a half per Cents.

Bell & Co. report the market for American Securities supported during the week, with scarcely any change in prices and a steady business. Baring Brothers say the demand continued limited, but quotations unaltered.

The Citizens Bank has declared a semi annual dividend of 4 ⅌ cent, payable to the stockholders on the 12th inst.

The Lorillard Fire Insurance Company have declared a semi-annual dividend of 5 ⅌ cent, payable on the 9th inst.

The news from Europe indicates that the difficulties of Great Britain obtaining supplies of cereals from other parts of Europe are increasing, while there are probabilities that her home harvests will be below the usual average. We may therefore calculate on a large foreign demand in our market, which will swell our exports considerably: and as we ship but a small portion of the gold we receive from California, we have no reason to fear the import of goods will harm us, as the consumption is equal to the supply.

A new bank has been organized at Kinderhook, in the County of Columbia, N. Y., with a capital of $150,000, to be called the "Union Bank of Kinderhook." It is expected to go in operation about the 1st of September. William H. Tobey, Esq. of Kinderhook, is the President.

A very important railroad suit by *quo warranto* was argued before a full bench, Judges Treat, Caton and Skates, of the Supreme Court of Illinois at Ottawa, on the 15th and 19th ult. It was brought to test the legal right of the (Mr Brough's Terre Haute and St. Louis) Mississippi and Atlantic Railroad Co. to construct their road under the Illinois General Railroad act—the right of way having been obtained.

Our readers will remember that this right has been denied by parties interested in other less direct lines. This suit was brought to test the question. It has excited much interest here and all over the West, as upon its decision, it has been supposed, would depend, for the present the early construction of the Mississippi and Atlantic Road, which is the direct air line connection with St. Louis of all the roads lying eastward of Terre Haute, Ind.

The case was very ably argued by Hon. Edward Sandford, of this City; Vachel Worthington, Esq., of Cincinnati, and Hon. Lyman Trumbull, of Illinois, on behalf of the Mississippi and Atlantic Railroad Co., and by H. Constable and Robt. S. Blackwell, Esqrs., for the relator.

Mr. Blackwell opened the argument on the part of the relator, and was followed by Mr. Sandford, "who, says *The Chicago Democrat*, "occupied the Court, in behalf of the defendants, about four or five hours in one of the most learned and eloquent arguments ever submitted to a Court."

Mr Worthington followed Mr. Sandford, whose "positions were most ably sustained by clear and eloquent argument and elucidated by authorities in point."

Mr. Constable closed the argument of the case on the part of the relator.

At the close, the Court signified their intention of giving an early decision, which may be expected here in the course of the coming week.

The Chicago and Rock Island Railroad was opened on March 21, for a little over half its distance, and is being operated by the contractors, who have not yet procured full equipments for freight ing, yet the receipts for four months (chiefly from passengers) show a very gratifying result, viz:

April.—For passengers	$24,364 67	
" Freight and Mails	[illegible]	$24,322 49
May... Passengers	27,600 64	
" Freight and Mails	3,714 38	31,415 02
June... Passengers	32,604 74	
" Freight and Mails	5,534 62	38,139 36
July... Passengers	32,600 83	
" Freight and Mails	15,449 31	48,145 16
Total		$142,021 03

It is the intention of the contractors to have the whole road open to the Mississippi at Rock Island City, early in the Spring, and to deliver it to the Company on July 10th.

The Chesapeake and Ohio Canal is again navigable. Nine thousand tuns of coal were sent to market from the Cumberland (Maryland) region during the past week.
