CHICHESTER'S FLAX and HEMP MACHINERY.—This system of machinery for pulling Flax and breaking and dressing Flax and Hemp, meets the hearty approval of all who have adopted it or witnessed its operation, and it is now confidently offered to the public as the only safe and efficient means of overcoming the many difficulties which have hitherto obtained in this department of manufacture. The machinery is simple and durable, rapid in the accomplishment of its work, requiring but few hands and little power to operate it, leaving the flax and hemp fine in better condition than has been attained by machinery heretofore in any country.
The Machinery for Breaking and Dressing Flax can be seen at the Crystal Palace, in the Machine Arcade.
All business information in regard to the Machinery, terms of sale, &c., can be obtained by applying to
Messrs J. RIPLEY & CAMERON, No. 68 Pine-st., New-York,
or LEWIS S. CHICHESTER, Patentee, Brooklyn City.

KEYSER'S FURNACES for WARMING all kinds of buildings. The best in use as to quality of heat, simplicity of construction, and economy. Particular attention is asked to his new Hot Water Furnace, which will be warranted, as also his Franklin Range, House Furnishing Articles, Japanned Ware, Water-Coolers, Savory's Enamelled Hollow Ware, &c. &c.
JOHN B. KEYSER, No. 366 Broadway, cor. Walker-st.

ORNAMENTAL IRON WORK, &c.—CROWELL'S celebrated patent cast-iron Railing, without rivets. An entirely new article, unrivaled for simplicity, durability and economy; adapted to any style, pattern or ornament, and warranted 25 cents per running foot less than it can be put up on the rivet principle. The New-York Foundry and Iron Railing Company manufacture this railing, together with every description of iron work for buildings, bank and vault doors, with every description of iron work for buildings, bank and vault doors, shutters, brackets, columns, vault covers, gratings, balconies, verandahs, office and desk railing, door and window guards, &c. Foundry, foot of 40th-st., North River. Castings of all descriptions at lowest prices. Specimens of the railing, in sections, to be seen at their warerooms, No 79 Duane-st., a few doors east of Broadway.

SEWING MACHINES.—The Avery Sewing Machine makes beyond question the best and strongest stitch of any sewing machine yet invented. The stitch is precisely very similar to the "lock stitch" in hand sewing, and will not rip although every other stitch be cut. It is simple in its construction, not liable to get out of order, and no danger of breaking the needle. It is entirely original in its construction, not like any other machine now in use. We believe the Avery Sewing Machine is beyond comparison the best machine yet invented for tailors and other cloth sewers. Persons are respectfully invited to call at the Company's rooms, No. 251 Broadway, corner Murray-st., and examine and thoroughly test the strength and durability of the work done by these machines.
Prices for machines $25 and $40; table and treadle, &c., $5 and $10.
AVERY SEWING MACHINE Co., Office No. 251 Broadway.

STEAM and GAS PIPE.—JOSEPH NASON, (of the late firm of Walworth, Nason & Guild,) No. 28 Broadway, manufactures Wrought Iron Pipe for Steam, Gas and Water, Valves, Cocks, Fittings, and every description of Steam and Gas Work, Steam Boilers, Boiler Flues, Feed Pumps, Coils and Evaporators. Steam, Vacuum, and Water Gauges, and numerous other Steam Boiler and Engine appendages. He also constructs a great variety of Steam and Hot Water-warming, and Gas-Lighting apparatus, and refers to examples of his work in nearly every section of the country.

"THE NEW-YORK GAS REGULATOR COMPANY," Office No. 262 Broadway.—Cheap Gas Light—A saving of twenty-five per cent. The perfect success which has attended the operation of this valuable Machine at the Metropolitan, Astor, Irving, New-York, Union-place, Clarendon and Franklin Hotels, and in other prominent public places, added to the testimonials of its value awarded by the Press of New-York, (with whom it is in almost universal use,) make it unnecessary to recommend the "Regulator," either for its economical qualities, or for its valuable property of producing a more even, and agreeable light, at a reduced cost. The merits of the apparatus are so evident, both in an economical point of view and as producing a better light, that the slightest examination cannot fail of satisfying every consumer that in KEDNER'S Gas Regulator has been discovered the means by which the best of all lights, can be reduced below the cost of oil, or the dangerous compounds of spirits and camphene.
Pamphlets containing the opinions of Professors Torrey, (Prof. of Chemistry College of Physicians and Surgeons,) Wm. H. Ellet, Professor Wolcott Gibbs, (of the Free Academy,) who have given the "Regulator" a thorough scientific examination; of Horatio Allen, Esq., of the Novelty Works; of Chas Roome, Esq., Engineer of the Manhattan Gas Works, and others who have given the Machine the most thorough practical trial, can be had by applying at the Office of the Company, personally or by post. S. T. CLARKE, Secretary.
The Company invites a personal examination of the Regulator at the Experimental Room in Broadway.
