Fire-Proof Safes.

MORE SMOKE but no FIRE!!—From STEARNS & MARVIN, who again back down, and show the white feather; and like a frightened buck when hotly pursued, takes to the water, hoping thereby to escape. But, no, no, gentlemen, I have caught you at last upon your own proposition, where you accept my challenge with one proviso, viz.: that I make oath that my Safe is filled according to my Patent, which I accept; and yet you again quibble, and start off (clairvoyant-like) to London, New-Orleans, and elsewhere, and dodge the merits of the case by representations more to be like a drowning wretch, catching at straws. Now, gentlemen do you not know that water is the proper element for Herring, and you must (or will soon) know that you cannot scorch this Herring by fire. I cannot permit you to tamper much longer with me and the public, but must now lead you up to the bar for trial, which precedes the execution.

I have selected the following gentlemen, who have consented to serve as a Committee to test your Winder's Patent Salamander Safe, (with Bicler's Improvement,) compared with one of HERRINGS PATENT CHAMPION SAFES, and one of WILDER'S PATENT SALAMANDER SAFES, manufactured by me, with my improvements, and invite any and all other Safe makers to furnish the Committee with one of their Safes to be tested at the same time. I name the following gentlemen to compose a portion of the Committee:

James S. Libby, President of 6th-av. Railroad Company.
John Thompson, Banker, and editor of Bank Note List, corner Broadway and Wallst.
Wm. H. Disesmore, of Adams & Co's Express.
Simeon Leland, Metropolitan Hotel.
John George, firm of George & Brother, No. 144 Pearl-st.

Now, Gentlemen, I name the above well-known respectable citizens, whose veracity cannot be doubted, and ask you to name a like number within ten days from this date; but in case of your refusal, or neglect to do so, in compliance with my challenge, a like number will be added to said committee, and my Safes, and one of your make (and perchance others,) will be subjected to a public trial in the neighborhood of the Astor Palace. Walk up, gentlemen, to the captain's office and see for yourselves.

FOREIGN SHAWLS.—The subscriber invites the attention of Ladies and all Connoisseurs of really fine Shawls to a superb variety just imported for the fall trade, and embracing everything that is rich, beautiful, and rare. Some magnificent specimens of real India Camel's Hair, Persian, Delhi, Deccan, and other Eastern productions, will be found embodied in this collection, together with an exquisite assortment of French Cashmere, Broche, and Canton Crape Shawls, in every conceivable design. He would especially present to public notice a feature in the Shawl Trade not heretofore introduced into this country—the fabric being pure Camel's Hair, but manufactured to France by that extraordinary French invention, the "Needle Loom," the work of which approximate so closely to that of India as to require the closest scrutiny to detect the difference. Public Inspection is most respectfully solicited.
