The Hudson River Railroad Company Versus Their Attorney.

SUPREME COURT—CHAMBERS.

Before Judge Clerke.

An argument took place in the chambers of the Supreme Court yesterday before Judge Clerke respecting the right of the former counsel (Mr. Thomas M. North) of the Hudson River Railroad Company to retain the legal papers of the corporation until payment of his costs as such counsel, under the law which provides that no attorney can be substituted until his costs are paid. Recently, it appears, Mr. North was removed, and he took away all the papers, declining to give them up or to allow the substitution of a new attorney until his costs should be paid. The company on the other hand claim that Mr. North has no lien on the papers, as by agreement he received a salary, had his office expenses paid and was allowed all costs obtained from parties opposed to the company.

An order to show cause why Mr. North should not give up the papers was obtained, and the question was argued at considerable length. Decision reserved.

FATAL KEROSENE ACCIDENT.—On last Sunday morning Ellen Connolly, eleven years of age, living at the house of Christopher Dunn, in Butler street, near Classon avenue, while in the act of building a fire poured some kerosene oil upon a lighted paper, when the can containing it exploded, scattering the burning fluid over the body of the girl, and injuring her in such a manner that death resulted in a few hours.

A No. 1.—Richmond, Fortress Monroe AND NORFOLK VIA CHESAPEAKE BAY. Cheapest and most interesting route of the season. The elegant and new steamers of the NEW LINE now so popularly known, leave Baltimore from Spear's wharf, at 5 o'clock every evening for Norfolk, Fortress Monroe, City Point and Richmond. The steamers are the GEORGE LEARY, JAMES T. BRADY, CITY POINT and JOHN SYLVESTER. They navigate the James river entirely in the day, thus giving travellers ample opportunity to see all objects rendered interesting by the late war.

The above steamers are all new, very fast, with gentlemanly commanders and obliging clerks. The 8 o'clock A. M. train from New York makes close connection with this line. Passengers must be careful to ask at the depots for tickets by the New Line, and take no other.

No effort will be spared to merit a continuance of the liberal patronage already bestowed.

NOTICE.

TO THE STOCKHOLDERS OF THE SOUTHERN PACIFIC RAILROAD, OF TEXAS.

In consequence of the late war, and all communication between the stockholders North having been cut off, it has become necessary to open communication and let them know the condition of the company at this time. At a general convention of stockholders held at Louisville, Ky., on the 15th day of March, 1861, it was resolved that a subscription of $1 per share should be made by each stockholder on the number of shares held by him of the "reduced stock," for which subscription stock should be issued. This action was necessary to raise a sufficient fund to satisfy debts then existing against the company, and save it from sale and execution. The war breaking out shortly after, and all communication being cut off, a sufficient amount was not raised, consequently, on the 3d of September, 1861, the road was sold. The purchaser generously proffered the road to those who had paid their funds in good faith. A new company was then organized, the Board of Directors of which passed a resolution allowing all stockholders who held stock, for which a valuable consideration had been given the company, should be reinstated in the new organization upon the following conditions, to wit:—That upon paying the loan of 50c. per share under resolution passed at Louisville Convention, March 25, 1858, reducing their stock one half, and a further payment of $1 per share on the number of shares of reduced stock, as directed under resolution of March 15, 1861 (at Louisville Convention of that date.) The action of the Board as above was ratified at the general meeting of stockholders held at New Orleans, on the 23d day of February; also at a meeting held in Louisville, Ky., on the 23d day of March, 1866.

Therefore, notice is hereby given to all stockholders to come forward and comply with the above resolution, one half of which may be paid by the 15th day of April, 1866. The one half being paid will be considered as an earnest of the intention to pay the other half, which must be paid in full by the 1st day of June, 1866, and notice is hereby given that all delinquents after that date will be forever cut off from any connection with the company. Under the State laws of Texas no railroad company shall issue stock certificates of less than $100 per share of par value, consequently the stock of this company will be re-issued to conform to that law.

H. Burkhardt, of Louisville, Ky., is the authorized agent of the company to receive all moneys and stock. Stock will be issued for all moneys paid on the above calls. Persons sending money must accompany it with the certificates of stock (and if calls have been paid the receipts must also be sent), which will be forwarded for reissue.

JOHN M. WASKOM, President S. P. R. R. Co.

PERPETUAL POLICIES.

METROPOLITAN INSURANCE COMPANY,

NOS. 108 AND 110 BROADWAY, NEW YORK.

CASH CAPITAL $1,000,000 00

ASSETS JANUARY 1, 1866 ..... 1,645,584 93

The Metropolitan Insurance Company of New York, being convinced of the great convenience and safety of the system of Deposit Insurance, so long and successfully practiced in Europe, and in some of the other States of the Union, has decided to adopt the same in its own business, whenever it may be desired by the party seeking insurance.

This mode of insuring will be confined to dwelling houses exclusively, and will be conducted on the following plan:—

The assured is required, on the issuing of the policy, to deposit with the Company such sum as may be agreed on, not to exceed the aggregate of ten annual premiums, which remains as a permanent deposit so long as the property stands, and the party desires to continue the insurance. If the property be sold, it is provided that the insurance shall still hold good for sixty days longer, in order to give time to make the necessary change in the policy.

Whenever the assured shall elect to terminate the insurance, or the same shall be terminated by sale as above mentioned, the assured will be entitled to receive back the whole sum deposited, less five per cent, which, with the interest, constitutes the premium reserved by the Company.

The Company reserves to itself, as heretofore the right to cancel any risk, on due notice, in which case the whole deposit, without any deduction, will be returned to the assured. This right can be waived by the Company when parties going abroad desire to be secure against change.

An example of the practical working of this system is here presented:—

Mr. Smith has a house which he desires to insure for $5,000; the annual premium on that sum is $12 50; ten years premium is $125; this sum deposited with the Company makes the insurance perpetual, without further payment of any kind.

When the property is sold, or the assured desires to abandon the insurance, he applies to the Company and receives back $118 75 of the $125. If the Company elects to cancel he receives his whole $125, and the bargain is at an end.

The advantage of this method of insuring, in the case of dwellings, where permanent security is especially desirable, rendering unnecessary the constant watchfulness now required, in order to prevent a policy from lapsing, at an unlucky moment, cannot fail to be perceived and appreciated here, even more than elsewhere. The immense amount of dwelling property in this city, forming, in many cases, the bulk of great estates, must find this system especially valuable for its permanency and safety.

When insurance must be renewed from year to year the best memories may sometimes fail, and then property on which families depend for their sole support may disappear in an hour—once made, insurance by deposit need never to be renewed again, except where circumstances call for its discontinuance.

It keeps alive without watching. Insurance by this method is obviously cheaper as well as more secure. Thus, $5,000 costs say $12 50 per annum on a first class dwelling, while on $125 (the amount so deposited) the interest at seven per cent is but $8 75. If the risk runs in this way ten years the Company gets $8 75 per annum for insuring $5,000, and at the end $6 25 more, being five per cent retained when the deposit is reclaimed, making the average annual premium $9 37.

We have no doubt that as fast as this simple and convenient system becomes understood it will so fully commend itself to all insurers of dwellings that few will think of protecting them on any other plan.

Full explanations of the working of this plan under every variety of circumstances will be furnished on application to the Company.
