Piano Fortes,
Patented February 20, 1866.
The latest and best improvement in Piano Fortes, securing the most beautiful tone, as well as cheapness.
This Piano is the most durable and the least influenced by heat, coldness, dampness and dryness, and, considering its great merits, is also the cheapest in the market. These qualities are obtained by the fact that the wrest plank is supported by the iron frame. By these means a large space is gained for the sounding board, in consequence of which the quantity as well as the quality of the tone must be considerably increased.
