Machinery, &c.

A NEW THING ENTIRELY.—The most astonishing performance heard of. Barrels, Firkins, Kegs, and the whole cooper family made and finished, without a defect, air-tight, and smooth enough to cut-and, entirely by machinery.

Our Machine, with the tools used to perform the work, is a patent, for which we have received Gold and Silver Medals and State Diplomas. It takes the timber in the bolt, saws the stave hollow in the grain, cuts them all of equal length, planes both in and outside perfectly smooth, trims the quality of the timber, joints them in a perfect manner, giving each stave its equal proportion of bilge, according to its width, be it wide or narrow; chamfers heads, cuts the crease, turns the head, and prepares the barrel or keg for the hooping process, in a manner so perfect, complete, and of superior finish, that we challenge the world to produce a better barrel, firkin or keg, than our Machines make, at the rate of 300 per day to the single set, to which we invite the particular attention of all who choose to give them inspection. We manufacture articles of the barrel family, from the smallest white lead keg to the largest cask in general use, all of which can be warranted to hold the most subtle liquids, or be adapted for the packing of dry goods. In fact, the Machine cannot make an imperfect article, except the defect is exclusively in the timber.

We have a shop at Elmira, N. Y., directly on the line of the New-York and Erie Railroad, and the Elmira and Niagara Falls Railroad, five minutes' walk north of the depôt, where any persons who wish can witness the operation of the Machine, and test to their perfect satisfaction, every branch of the work. We will feel the utmost pleasure in exhibiting to such everything connected with the work.

Persons desirous of purchasing the Right and Machines for any location now unsold, can obtain any information in relation thereto by applying to us through the mail. There are but a few of the States remaining in our hands unsold, still, applicants will be referred to the present owners, most of whom will, no doubt, hold for disposal desirable locations within their respective territories. It is conceded by all who have examined the Machine, that it surpasses everything that has or can be invented for the same purpose, and must entirely supersede all hand-coopering.

Specimens of our work can be seen by calling on the Editors of The New-York Tribune.

SEWING MACHINES!—To TAILORS, TAILORESSES, &c., &c.—The "AVERY SEWING MACHINE" means beyond question, the best and strongest stitch of any Sewing Machine yet invented. We can satisfy the most sceptical that the work done by this machine will not rip, neither will it ravel out by any wear. The seam we use is not by design, but only under such a combination of things as to make this peculiarity really and truly one of the most valuable points of this machine. It is simple in its construction, not liable to get out of order, and no danger of breaking the needles. We believe this machine is, beyond question, the best sewing machine yet invented for Tailors and other cloth sewers. The public are respectfully invited to call and examine the machine and the work at the office of the undersigned. AVERY SEWING MACHINE Co., No. 251 Broadway.

Price for Machine, $25 and $40. Tables and treadles extra—price $5 and $10.

NEW-YORK, July 30, 1853.

We, the undersigned, do hereby certify that we have examined the "AVERY SEWING MACHINE," and cheerfully recommend it for its simplicity, durability, and especially for the peculiar stitch made by it. The stitch is original, and in appearance is like the most perfect and handsome "lock-stitching." We have thoroughly tested the strength of the sewing, and are satisfied that the stitch of this Machine makes a stronger and firmer seam than can be made by hand. We take pleasure in recommending this machine to our friends, and to Tailors, Seamstresses, and families generally throughout the country.

SEWING MACHINES.—The general superiority of GROVER, BAKER & Co.'s Machine, is indeed now justly admitted, but purchasers should take care not to be drawn, by interested parties, from the particular points in which this machine excels all others, viz: simplicity, durability, facility and certainty of operation, speed, beauty, strength, and permanency of its work. They can be seen in operation at No. 94 Chambers-st., New-York. Descriptive pamphlets forwarded on request. Price $75 to $150.

THREE-FOURTHS of the FIRST COST and large sums annually for repairs saved to all who require Pumps, by their purchasing GWYNNE'S CENTRIFUGAL PUMPS, which are now supplied by the Union Power Company, whose office is removed from No. 49 Dey-st. to No. 34 Broadway.

NEW-YORK.—"I do not hesitate to say that it must wholly supersede the pumps now used for dry-docks, ships, coffer-dams, steamers, &c., and its general introduction for such purposes would save millions of property annually. No shipowner is doing justice to himself or his passengers, who will go to sea without one of these pumps." JUNIUS S. LEWIS.

SOUTH BEND.—"We consider yours to be, for the use required in a paper mill, decidedly the best and most economical pump that we have ever seen." OWEN & HURLBUT.

NEW-YORK.—"In 1850 we had a large, double-acting patent pump, of very high cost, which we were obliged to remove in consequence of its deficiency in discharging the required amount of water, and of its being corroded to such an extent in a few months as to render it entirely worthless. We then put in one of Gwynne's pumps, and our No. 5 throw, which discharges the Centrifugal Pumps, and have had it standing in salt water since that time; we calculate that we have discharged with it, driven by one horse-power, between 600 and 700 gallons per minute. It has been in use every day since it was put up, has cost $1 50 for repairs and the superintendent says it is as good at this moment as when first carried on board." F. F. DERRICK Co.

HAMMILL PAPER MILLS.—"I am we I cat aided it will throw more water than any other pump I have seen or used." E. N. COPE.

PITTSBURGH BREWERY.—"Do not hesitate on all occasions to recommend it as the best pump I possess any knowledge of." GEO. W. SMITH & Co.

TRENTON, N. J.—Last winter the enlargement of our canal made a great deal of pumping necessary; the water was mixed with mud and other foreign matter, yet they worked without delay or stoppage, and since the completion of the work, upon being carefully examined, they were found to be in perfect order, requiring no repair. For our work, or that of a like character, I believe them better adapted than any other with which I am acquainted." J. G. STEVENS, Resident Engineer Del. and Raritan Canal.

CROTON FILE WORKS.—"This pump has been in use 3½ years; I have another which has pumped a solution of salt, saltpeter and water, 25 degrees strong, for three years and never failed to start. I have had a great many kinds, but yours is the king of pumps." JOHN RUSSELL.

Fire-Proof Safes.

FIRE PROOF SAFES!—A TEST BY FIRE!—It will be seen by the following note, addressed to the Exhibitors of SAFES, that there is a reasonable prospect of a Safe that can be Fire-at-last.

UNITED STATES, New-York, Jury Office, Nov. 11, 1853.

The Exhibitors of Safes are informed that a trial will be had on the 15th inst., at 12 o'clock, of the Safes now in the Exhibition, that the Jury appointed to examine them, provided the Exhibitors institute the necessary funds for the purpose of preparing a place, and the necessary fuel and other expenses attending the trial. An answer directed to this office is desired without delay.

H. GRINNELL, Jr.,
H. JOHNSON,
SAM'L WEBBER,
Committee on Justice.

E. LEVERMORE, Secretary.

I replied as follows:

New-York, Nov. 11, 1853.

H. GRINNELL, Jr., H. P. JOHNSON, Esq., Committee on Justice.

GENTLEMEN: Upon the assurance that a trial will be had on the 15th inst., of the Safes in Exhibition and Manufactory, of the other I accept the trial and will do my best to place them on the ground on the 15th inst., at 12 o'clock, and will do my best to place them in the shade, if I can find a place in the shade, which I think I can, if I should find it to be more than one mile from the Exhibition. I am your obedient servant, BILLAR & HERRING.
