Piano-Fortes.

ÆOLIAN PIANOS.—T. Gilbert & Co. are the owners of this much admired Patent, which gives to the Piano the beautiful tones of the Organ, Harp and Flute. Of course, being the owners, it is needless to add they supply the public with Æolian Pianos at prices less than any other house.

HORACE WATERS, Sole Agent.

BOUDOIR PIANOS.—Admirably adapted for small Pianos.—Gilbert's Boudoirs are now acknowledged to be equal if not superior to those manufactured by Collard & Collard, of London, hitherto known as the makers of the world.

HORACE WATERS, Sole Agent.

MELODEONS.—Full in tone, with a sweetness unsurpassed, and so well toned in the equal temperament, the harmony is as good in the remote keys as it is in the common, the only Melodeons so tuned and unquestionably the best, in corroboration of which statement please see New-York Musical Review for October, Editor's notice. Martin's unrivaled Guitars and all kinds of Musical Instruments.

HORACE WATERS, Sole Agent, No. 333 Broadway.

BRUNDRED, No 3 Rumsey-st., New-York, first floor.

A NEW THING ENTIRELY.—The most astonishing performance heard of.—Barrels, Firkins, Kegs, and the whole cooper family made and finished, without a defect, straight, and smooth enough to vanish entirely by machinery.

Our Machine, with the tools used to perform the work, is a patent, for which we have received Gold and Silver Medals and Silver Diplomas. It takes the timber to the belt, saws the stave bolts, lays the plain cuts then all of equal length, then shaves both ends and outside perfectly smooth, then the quality of the timber, joints them in a perfect manner, giving each stave an equal proportion of bilge, according to its width be it wide or narrow; chamfers bowls, cuts the crozes, turns the head, and prepares the barrel for the hooping process, in a manner so perfect, complete, and of superior finish, that we challenge the world to produce a better barrel, than is made by Machines make, at the rate of 300 per day to the single set, to which we invite the particular attention of all who choose to give them inspection. We manufacture articles of the barrel family, from the smallest white lead keg to the largest cask in general use, all of which can be warranted to hold the most subtle liquids, or be adapted to the packing of dry goods. In fact, the Machine cannot make an imperfect article, except the defect is exclusively to the timber.

We have a shop at Elmira, N. Y., directly on the line of the New-York and Erie Railroad and the Elmira and Niagara Falls Railroad, five minutes walk north of the depot, where any persons who wish can witness the operation of the Machines, and feel, to their perfect satisfaction, every branch of the work. We will feel the utmost pleasure in exhibiting to such everything connected with the work.

Persons desirous of purchasing the Right and Machines for any section now unsold, can obtain any information in relation thereto by applying to us through the mail. There are but a few of the States remaining to be disposed of, which, we applicants will be referred to the present owners, most of whom will, no doubt, hold for disposal desirable locations within their respective territories. It is conceded by all judges who have examined the Machine, that it surpasses everything that has or can be invented for the same purpose, and cannot interfere with or supersede all hand-coopering.

Specimens of our work can be seen by calling on the Editors of The New-York Tribune.

THE MAGNETIC TELEGRAPH.—New-York Office—corner of Hanover and Beaver-sts., and in the main entrance of the Irving House, Broadway. Entrance for ladies at the door in Chambers-st.—The Magnetic Telegraph Company, for the purpose of the Philadelphia accommodation of the public, to keep pace with the rapidly increasing Telegraphic business, and enable their agents to dispatch with promptness all messages that may be offered, have, at a heavy expenditure, now completed and in active operation two separate and distinct lines of poles and Telegraphic wires, extending from New-York to the City of Washington. One by the railroad route, with five wires, from New-York to Philadelphia, and four wires from Philadelphia to Baltimore and Washington; by the other line, along the turnpike roads, there are two wires the whole distance, and the Company have stations at Wilmington, Trenton, New-Brunswick, Princeton, Newark, Jersey City, Havre de Grace, Port Deposite and New-Hope.

With seven wires, as above, and regulations to insure prompt delivery, the Company affords to persons disposed to avail themselves of the use and advantages of this rapid method of communicating with personal or business friends in distant cities, an extent of means for promptitude unequaled by any other line in this country.

Telegraphing, but recently an experiment, has become a systematic and reliable medium of business, and the amount of thousands upon thousands of dollars is now daily transacted through its agency.

PRICES—For the transmission of ten words or less (exclusive of date, address and signature, for which no charge is made,) the prices are from NEW-YORK to NEWARK, *twenty cents*; to PHILADELPHIA, *twenty-five cents*; and to BALTIMORE or WASHINGTON *fifty cents*. Open daily from 8 A. M. to 10 P. M.

India Rubber Goods.

INDIA RUBBER TOYS, GOODYEAR'S PATENT.—THE NEW-YORK RUBBER Co., sole manufacturers of India Rubber Balls, Dolls, Toys, Canes, &c., are prepared to execute orders for the following articles, viz.: Hat Balls for out door play, all sizes; Parlor Balls from five shillings to $7 50 a dozen, for parlor play, light and beautifully ornamented with landscapes and figures in pencil colors, arabesques, gilding, &c., &c. These parlor balls are so light and elastic that they will not break glass. No family should be without these, for healthful exercise in winter in-doors. Also, India Rubber Laughing Babies full length; do heads, and a great variety of other India Rubber Heads, from $1 50 to $10 a dozen. These dolls will not break in falling, will not hurt the children, and will last from fifty to a hundred times as long as those of wax, china or other materials generally do, and besides they are far more artistic and beautiful. The Company have also succeeded in producing copies of a great variety of animals in India Rubber, which make noises similar to the living animals, such as barking dogs, croaking frogs, chattering monkies, chirping squirrels, singing birds, &c., &c. Also, India Rubber Canes, a late invention, and a light, elastic and very beautiful article.
