doubtless, have a salutary effect upon our community, as they will remove from temptation a population whose appetites and instincts tend only to drunkenness and vice. Certainly every good citizen will rejoice to see this class, now so degraded, placed where they will be cared for and compelled to pursue some profitable occupation to maintain themselves and their families. As we are now assured that this is the Superintendent's policy, we shall look forward with some anxiety to its consummation. [Star.

ATTEMPTED ROBBERY AT SAN GABRIEL.—On Wednesday night a party of five Sonorians broke into the house of Mrs. Everteon, in San Gabriel, to rob her of money which they supposed was in the house. The family had retired, but the noise awakened her son, Evert, a boy 14 years old, who seized a rifle and from the window fired at a man who was standing near the gate post, enveloped in a blue serape, the ball hitting the post and carrying with it into the wood several threads of the serape. The robbers entered the house and seized Mrs. Evertson by the throat, threatening to kill her. Her little daughter Laura, 12 years old, instantly attacked them, and tried to release her mother, while Evert seized a pistol, snapped it at them once without effect, then attacked them single handed, hitting one over the head with the but of the pistol, and receiving in return a severe cut in the face from a knife. The robbers fled, without effecting their object; while the lad hastened to a neighbor for assistance. It is said he was refused admittance to the house and that by the delay thus caused in the pursuit the robbers escaped. When asked why he did not go further for assistance Evert replied that his mother was alone and he was afraid to lose sight of her house. The Rangers have been searching for the robbers, but without success.

A CURIOUS STRUCTURE.—Dr. Hope has in his possession the nest of a tarantula, taken out of the earth at the Malaga Rancho. It is about three inches in length by two in diameter, built of adobes, the walls being nearly half an inch thick. Inside is a projection, which nearly divides it into two apartments, about an inch in diameter. The inside is lined with a white downy substance, not unlike velvet, and presents one of the cleanest and most tidy little households imaginable. But the most curious part of it is a door, which fits into an aperture and closes it hermetically. The door is secured by a hinge, formed of the same fibrous substance as the lining of the house, and upon which it swings with freedom. The nest is occupied by a dozen little tarantulas, which seem to subsist upon a yellow secreted substance that appears upon the walls of the front apartment. It is a most interesting structure, and the arrangement of the door for the protection of the little inmates indicates great instinctive architectural knowledge. It is the intention of the owner to forward this curiosity to the Smithsonian Institute, at Washington.

The Los Angeles Rangers received by the last steamer forty stand of Mississippi rifles from the Governor, together with equipments for the same. The officers of the corps also received their commissions as such, and are thus constituted a part of the volunteer military force of the State.

The first southeaster appeared at San Pedro on Wednesday. The harbor was very rough, and the steamer experienced some difficulty in getting to sea. One lighter from Timmesville, loaded with lumber, was swamped.

MARRIED.

On the 27th October, Mr. E. Thayer, of the American Theater, to Miss Sarah Montague, of the San Francisco Theater.

In San Francisco, Oct. 31, by the Rev. Dr. Upson, at the residence of M. L. Wise, Esq., Charles Burroughs, Esq., to Miss Amanda B. Wheelock, all of San Francisco.

Nov. 11—L. John, 23, Italy; Charles Louis, 34, Prussia; Spanish child, Thos. Holowich, 28, England—Total, 41.

REVIEW OF THE MARKET.

SAN FRANCISCO, Wednesday, Nov. 16.

The importations during the period which has elapsed since the dispatch of the last mail have been very heavy as will be seen by a small proportion of them have passed into second hands, although there has been, upon the whole, a large business transacted. During the first week of the present month there was a brisk demand from the country for merchandise, and both steam and sail local freighting facilities were kept in active employment. In the succeeding week there was less business done; still our jobbers had a fair trade, and during the fortnight disposed of a large amount of goods, clearing off old stocks, and enabling them to enter the market and lay in fresh supplies.

Notwithstanding the business of the fortnight sums up a considerable aggregate, there has been no improvement in prices, except in a few minor instances, and we desire to call the attention of parties at home especially to this fact; that our market is overstocked to that degree that a fortnight's trade as large as we could hope for at the period when the up-country merchants are laying in their winter supplies, has had no effect in raising prices. On the contrary the general tone of the market is fully if not more depressed than at the commencement of the month, owing to the pressure of unwieldy stocks, the prospect of apparently unceasing additions to them, and the commencement, within the past three days, of the rainy season, which will, of course, restrict operations within narrow limits for some time to come.

BEEF—200 tcs Philadelphia Ale sold at $7 12½@8 25.

BREAD—Both Pilot and Navy continue extremely dull, with a large stock. We only hear of sales of 250 bbls. Pilot at $5 25@. Received, 68 cases 1,494 bbls.

CANDLES—Adamantines have been in active request, and about 6,000 boxes have been taken by the trade at rates ranging from 23@26c. Of Sperm no sales have fallen under our notice. Received, 3,929 boxes.

COAL—Anthracite is less firm, although without material variation in rates. Transactions of the fortnight comprise 100 tons Cumberland to arrive, at $20; 100 tons Lackawanna ex Wild Ranger, at $27; 75 do. do. ex White Swallow, on private terms; 225 do. do., in two lots, at $25. Received of English, 3,001 tons; Anthracite, 808 do.; Vancouver's Island, 601 do.

COFFEE—The importations for two months past have been small, the stock has become quite light, and prices have materially advanced. For a considerable parcel of Rio, daily expected direct, a high rate has been offered and declined; at the present moment the market is swept bare. We note sales of 100 bags Rio at 15c.; 150 do. do. (at auction) cassored, at 14½c.; 50 do. Costa Rica at 16c.; 64 do. and mats Green Manilla, in lots, at 13c@17c. Received 410 bags, 290 cases.

CORN MEAL—This article is less firm than at our last notice; sales comprise 800 bbls. in lots, at $4@5 75; also half do. also in lots, at $3 50@3. Received, in quest 419 bbls., 2,229 half do.

DRY GOODS—The market for Drills and Sheetings has continued dull; of the former we have heard no sales; the latter have further declined. We note some activity in goods adapted to the season, among which are Blankets. Prints remain as last noted. Transactions of the fortnight made public include 70 bls 4 4 Sheet nns at 8½c 50 do. do. at 8c; 27 do. do. 5-4 do. at 11½c; 62 bls. heavy Red and Blue Blankets at $4@9 25; 1,500 pcs heavy Blue do. on private terms; 400 dozen Wooden Half-Hose, light, at $4 50; 200 do. do. heavy, at $5 50; an invoice of 500 Gum Elastic Coats at $10 each; 60 bales Cotton Duck, Nos. 10@6, at 50c; 50 do do., Nos. 5@10, at 22c.; 10 bls. do., No. 16, at 15c.; 5,000 yards do., No. 12 at the same figure.

In Boots and Shoes we can only remark that light goods are unsalable, and are not paying cost and charges; heavy styles are in fair demand, and about covering; a few very desirable descriptions are paying a small profit.

FISH—The supply of Mackerel is not large, and prices have an upward tendency. We note sales of 100 half bbls. No. 1, at $9; 200 do., do., No. 2 at the same figure.

FRUITS—Dried Apples have been in good request, without any change of note in prices; sales of 300 half bbls., 34 quarter do. and 400 kegs at 10@10½c.

SUGAR—During the fortnight the demand for consumption has been large, and an active business has been done. The stock of Gallego and Havana being small, the prices of those brands have remained firm, while Chile has declined, owing to the considerable importations which have been added to a previously large stock, and the certainty of further heavy receipts coming to hand in all the next two months. The aggregate of the importations in extent, and the only reason why prices have not advanced is that our stocks remain very large, and heavy shipments continue making from Eastern home ports.

There was an improvement in Park during the fortnight, but at the close prices receded again to the rates previously ruling. Transactions comprise 325 bbls. Clear at $7 75@8 27½; 510 hf. do. do. round, at $13 50@14 50; 100 hf. do. do. and 10 hf. do. do. ex Bonita, at $7; 400 hf. do. do. to arrive, at $15; 500 bbls. do. and 200 do. Meal, to arrive, on private terms; 500 do. do. at $25@35; 60 hf. do. do. at $14; 150 do. Prime at $22. Received, 907 bbls. 922 hf. do.

In Beef there have been no sales made public. Received, 550 bbls. 195 hf. do.

Bacon has been in good request; we note sales of 176 hhds. and tcs., 650 cases, and 50,000 lb Clear and Extra Clear, at 15@15½c. for the former, and 15½@16c. for the latter; at the close we quote Clear at 14½c., and Extra Clear at 15c. Received: 15 tcs., 175 hhds., 367 cases.

There has been a very active demand for Hams, and sales comprise 500 pkgs. at 13@15c. for good ordinary in cotton covers, and 18½c. for a small parcel of Cassard's. Received: 29 hhds., 109 cases, 1,079 tcs., 491 bbls.

RICE—200 bbls. Carolina sold at 3½c. Received, of Carolina, 185 bbls. and 152 hf. do.

There has been a large demand for BUTTER at about the same rates ruling at the date of our last review; we notice sales of about 1,625 firkins old, at rates ranging from 24c.@27c., and 1,000 do. new, at 27c.@29c. Received 68 hhds., 65 cks., 1,233 firkins, 1,403 bbls., 450 hf. do., 213 kegs, 302 cases, 158 pkgs.

Early in the fortnight there were large purchases of LARD, made upon speculation, but we do not perceive that any marked effect has been produced upon prices. Transactions aggregate 812 cases at 15@15½c.; 60 do. (China) at 12@12½c.; 4,752 kegs at 12½@14c.; at the close we quote cases 15c., kegs at 13½@13c. Received 5 tcs., 100 half bbls., 580 kegs, 971 cases.

There has been a moderate inquiry for CHEESE at rates last noted. Sales of 150 cases 6,000 lb in tin and wood at 12@12½c. Received 191 cases, 100 boxes, 60 pkgs.

PRESERVES—Brandy Fruits have been in fair request, at rather improving rates; Preserved Oysters have also been in demand. We notice sales of 250 cases Brandy peaches, qts. at $5 25@6 50; 50 cases Remington's Fresh Peaches at $7 50; 50 do. Cranberries at $6; 500 doz. Baltimore Oysters, various brands, at $6 75@7; 400 do. Preserved Lobsters at $4 50@5; 700 boxes Maccaroni at $5 50@4, 100 do. Vermicelli at $4 37½.

SOAP—There has been a brisk inquiry from the trade for most descriptions, and some purchases made of parcels to arrive. We note sales of 1,400 bxs. Hill's No. 1 at 10@10½c.; 1,300 do. do., to arrive, at 10c.; 500 do. Chemical Olive at 12c.; 1,600 do. do., to arrive, at 12@12½c.; 200 do. New-York Steam No. 1, 7c. Received: 2,671 boxes, 342 half do., 1,500 qr. do.

SYRUPS—Refined Syrups and Molasses are in good demand at steady rates. Sales of the fortnight comprise 500 kegs East Boston Syrup, to arrive per Witch of the Wave, at 36½c.; 200 half bbls. New-York do., per Wild Duck, at 36c.; 200 bbls Stuart's Molasses, per same vessel, at 60c.; 150 do. Portland Sugar House Syrup, at 26c.; 35 half do. New-Orleans Molasses, at 27c.; 450 kegs East Boston Syrup, resold from second hands, at 36c.@41.

SUGAR—There has been a good inquiry for both Raw and Refined, and prices are firm, especially for the former, of which stocks were quite light, previous to the arrival of fresh importations a few days since from Manilla, which yet remain in first hands. We note sales of 375 bbls. East Boston Crushed, in lots, at 14@15c.; 800 half do. New-York do. at 14c.; 140 bbls. Crushed and 100 do. Powdered East Boston, ex Bonita, at 13½c.; 200 do Crushed do., ex Wild Duck, at the same figure; 245,000 lb China No. 1, in lots, at 10@10½c.; and 90,000 lb do., Nos. 1 and 2, at the latter figure; 24,000 do. Pinq Fa at 11c. Received of Refined 89 casks, 280 lb, 496 half do; Raw, 7,494 bags.

PACIFIC SHIP NEWS.

PORT OF SAN FRANCISCO—ARRIVED.

Oct 30—Hamburg bark Walter, Drecher, 60 ds. fm. Valparaiso; schr. Odd Fellow, Hall from Santa Cruz.

MEMORANDA.

Per Ocean Bird—Experienced during the first seven days of the passage severe gales from S. E. On 9th inst., while lying to a heavy sea, shipped seas which broke the deck, which forced the deck from its fastenings and washed overboard some 15,000 feet of lumber, staving all the water casks on deck, provisions &c., and tearing away a portion of the main rail, chain plates, &c., and doing considerable damage to the rigging the bark lying almost on her beam ends owing to the violence of the gale. For the next succeeding two days much the same kind of weather, with light winds, &c.

The bark Columbia, Capt. Lincoln, arrived from New-York 15th, via Sandy Hook, where she put in in distress some time since, water logged; her cargo principally lumber, was sold at that place.

Per Dudley—Experienced severe weather on the passage. On the 8th inst. experienced a heavy gale from S.E.; split sails, lost part of deck load, and done other damage.

Per Maryland—Have experienced severe weather on the passage. On the 6th and 7th inst., experienced a heavy gale from S.E.; shipped a heavy sea, which broke the vessel on her beam ends where she lay for several minutes; stove boat, bulwarks and shipped her cargo, &c.

Per Pathfinder—Oct. 15, in lat. 4 25 S., lon. 108 W., spoke the whale ship Sharon, of Fairhaven, on a cruise; had 100 bbls. sperm. Desired to be reported.

Per Greyhound—Was off Cape Horn, 18 days in heavy gales.—Crossed the Equator Oct. 16th, lon. 118, since which time have had light winds and calms.

Per Messenger—Came around Cape Horn in fine weather, and from lat. 52 S., to 43, experienced heavy gales from NW for 26 days; split sails, &c. Crossed the Equator Sept. 15, l. m. 102, since which time have had fresh breezes from NW.

Per Margaret—Was off Cape Horn 26 days in heavy gales. Crossed the Equator Sept. 27, lon. 122, and have had variable winds since.

Per Ballochen No. 2—Was off Cape Horn 19 days in heavy gales. Crossed the Equator Sept. 30, lon. 115, and have had light winds and calms since.

Per Peruse—Was off Cape Horn six days, during which we experienced heavy gales, had decks swept off, bulwarks both stanchions and rails, gally, split sails, sprung foremast and other damage; had three men washed overboard. Crossed the Equator Oct. 6, long. 119, since which time had light winds and calms. Oct. 3, lat. 10 N., long. 111 W., exchanged signals with a bark showing a red signal with white letter H. in the center, steering S. E.

Per Wanrath—Was off Cape Horn 30 days in heavy gales. Lost foresyrd, bulwarks, and did other damage. Crossed the Equator Sept. 21, long. 112, since which time have had light winds and calms.

Per Western Star—Was off Cape Horn 15 days with strong westerly gales; crossed the Equator Oct. 12, long. 119, and have had light winds most of the time since. Aug 29, off Staten Land, spoke pilot-boat Golden Gate, Daley, from Boston for this port.

Per Minos—The M made the run from Valparaiso to the equator in 18 days, since which time have had light winds and calms. Has been off the Heads two days in fogs.

Per Emily—Have experienced heavy weather on the passage; put into Medeira leaky, and put into Juan Fernandez for fresh supplies. The captain and crew are all more or less affected with scurvy.

WHALERS.
