Will be pleased to cash one thousand notes running from \$25 to \$100 each that will be paid during the month of October and the first half of November.

We want them paid at maturity. We are particular about that.

We want them well endorsed. We are particular about that too. We want to see what kind of company you keep. A man naturally asks his associates to endorse his notes—Birds of a feather flock together.

If you can make up your mind to pay your note during the month of October or the first half of November, regardless, come to see us.

Cashier.

THRIFT

If thrift does not come natural to you, cultivate it. Realize the fact that every man who has a dollar put aside is a capitalist.

We earnestly urge you to open an account with this bank for any sum. Either a Checking or a Savings account, in addition to being convenient encourages you not to use your money except in a wise way.

The prosperity you enjoy today does not guarantee you prosperity tomorrow. Changes in the business and industrial world may later on deprive you of your present measure of prosperity.

We Pay Interest On Deposits.
