HORSES! HORSES! HORSES!—A strong Liniment, especially adapted to the Horse, to heal and strengthen, a little working him daily. This the public will find in Dr KELLINGER'S new CHARM, which is the most certain remedy ever offered to the public. It cures the heaves immediately, and all manner of sores, cuts, bruises, &c., &c., and the horse may be worked daily. In large bottles at $1 each; $9 a dozen. This great remedy is what horse-owners have long wanted. Ask for the Medical Charm. $1 each—no smaller size. N. B.—Sir. I. Lane, Murray and West-sts., cured a horse of heaves and glanders. Mr. Wm. Radford, wholesale grocer, No. 292 West-st., purchased a splendid horse, but was so badly injured it was thought he would die. In a few days he was cured with one bottle, and is now worth $300. It is as certain to cure as it is cool. There has never been anything like it in the history of medicine. Thousands of other undeniable evidence can be seen at the principal depots, No. 290 Pearl-st., and No. 479 Broadway. Don't fail to give it a trial; nothing more is necessary. It is ten times as cheap as any other remedy offered to the people, as it cannot fail.

DR KELLINGER—My Dear Sir: When I saw the above I could not believe until calling on the parties. Then I could not doubt; but still the evidence was not so satisfactory as the strong test by trial. I now with great pleasure add my testimony. I have cured two very bad cases of heaves and deeply seated cough—one cured in four days; the other took ten. Respectfully yours, JAMES MAGEE,
Residence, Yonkers.

There is no room for doubt after a trial.

IMPORTANT to NURSING MOTHERS.—Dr. NEEDHAM'S IMPROVED BREAST PUMP.—Highly approved by the most eminent Physicians in the country.

The points of its great superiority over others, may be set down in the following order: 1st, the flexible mouth and tube connecting with the exhauster render its application entirely free from pain, even where the breast is inflamed and the nipple very sore; 2d, the mode of exhausting the air by the exhauster, the most natural, efficient, and expeditious that can be devised; 3d, the softness, elasticity, and flexibility of the mouth allow it to act upon the breast and nipple like the mouth of an infant. This effect being under the control of the patient, by means of the peculiar valvular arrangement, may be so varied as to imitate the sensation, as well as effect, of a nursing child, to a very remarkable degree; 4th, it requires
