The Book of the Bank of this City, which has not been in favor with the other Banks for some time past, has been thrown out of the Clearing House. The effect of this will be that checks on the Bank and its circulating notes will not be received in deposit by the other Banks. The circulation is of course abundantly secured. This is the Bank alluded to sometime since as having discounted some $200,000 for its Directors, the proceeds to be laid on deposit in order to increase the Discount and Deposit lines and give an appearance of prosperity not legitimately belonging to its business.

The following sales of stocks were made at auction by Adrian H. Muller & Co.:

15 shares New-York Equitable Insurance Co	103
16 shares People's Fire Insurance Co	57½

Albert H. Nicolay's sale of stocks and bonds will take place to-morrow at 12½ o'clock, at the Merchants' Exchange.

The steamer Andes at Boston, brings advices of an improvement in Consols to 91¾, notwithstanding the active warlike preparations by the English Government. The money market was easy, and a decrease in the rate of interest by the Bank was expected. The advices in regard to Cotton and Breadstuffs are quite as favorable as was anticipated. The remarks in regard to Austria by Lord John Russell are certainly favorable to peace. The Andes we suppose brings no mail.

Mr James E. Jenkins, of the firm of Condit & Jenkins, has been elected a member of the Board.

Adams & Co. received in London, from Australia, by the ship Ballarat, $50,000. The Great Britain has $100,000 on board for this house.

The bill granting full powers to the Mississippi and Atlantic Railroad Company, (called Brough's Road, from St. Louis to Terre Haute,) which we have heretofore noticed as having passed both branches of the Illinois Legislature, has received the signature of the Governor, and become a law.

The friends of this Road insist that there is no ground upon which to base proceedings to test the legality of the charter in the Courts. It has been stated that such proceedings would be taken. The Road will now be pushed forward with vigor and will be completed at an early day.

The Indianapolis and Peru Railroad, now consolidated with the Madison and Indianapolis Railroad, and known as the Madison, Indianapolis and Peru Railroad Company, was completed to the latter place on the 25th ult and the cars will commence running the whole distance from Madison to Peru on the 4th inst. By this improvement the upper Wabash country is connected with the waters of the Ohio by an almost straight road. At Peru the road touches the Wabash and Erie Canal and the Wabash Valley Railroad, now being constructed from Toledo south west to Illinois. By this route, it is stated, wheat can be transported from Indianapolis to Buffalo for five cents less per bushel than by any other.

A new bank has just been organized in Hartford, with $200,000 capital, to be called the Mercantile Bank. J. B. Powell, Esq., is to be Cashier.
