THE OLD BREWERY AS IT WAS AND IS.—This is perfectly the object of the great moral play so immensely popular at Bunnett's Museum—to depict anew to Old Brewery as it was in all its filth, its shame, its crime and misery—the Old Brewery as it is, with all its horror its infamy, its humanity, its repentance, and its better life. The dramatist has worked out the idea skilfully and forcibly, and the Museum is crowded nightly to witness it. Such plays do universal good. [illegible] Poor Sicilo Family, &c., are at Bunnett's.

LAW INTELLIGENCE.

SUPERIOR COURT—Before Judge BOSWORTH.
Irish Sale de sait. John Gough.

Suit to test the ownership of a bay horse, valued at $100. Plaintiff says that defendant owed him $160, and gave him the horse in lieu of the debt and that he afterward came to the stable where the horse was and forcibly took him away; plaintiff afterward procured a writ and took the horse back, giving bond to abide the suit. In defense, it is averred that at the commencement of this action defendant was the owner of the horse and plaintiff, by false and false claim took him from his possession. The [illegible] was denied. Verdict for the plaintiff, valuing the property at $100.

Fisk says that defendant employed Jeremiah D. Moore to superintend laborer in excavating and blasting in stable-st, for which said M. was to receive $1.50 per day; that he became indebted to M. for 12½ days, amounting to $19.2 50, and that the claim was assigned by M. for value to the plaintiff, who brought suit. For defense it is said that Mr. B. agreed only to pay M. $1 per day; that the said M. did not accurately superintend laborers or keep an account of their time, but was absent several days, and that $100 were paid him, which was in full for all his services. The case is on.

S., who knew that it had been purchased on credit and now holds it. Plaintiffs claim that they have suffered damage to the amount of $3,500. Defendant denies it, denied by C. & E. S. that any unfounded representations were made; that their notes, with the indorsement of Mr. J. Low, then a man of property, were given and that the said machinery, &c., was sold and purchased by Mr. Peter H. S. in good faith, who paid value. The case is on.

IN CHAMBERS—Before Judge CLERKE.
HABEAS CORPUS.

A young black eyed mulatto girl, named Anna Sophia Cheeseman, rather petite in person, was brought up, on application of her mother, in court to a writ directed to Diana Jasper, claiming her care and custody. The return to the writ said that the girl is illegitimate, that her mother gave her to said Diana Jasper when she was but a few weeks old; that the said Diana never since taken care of and educated her; that she said Anna Sophia is now 19 years of age. She (the girl) states her against her will, and alleges on the other hand that the mother desires to obtain the custody of the daughter with a view to directing her to improper conduct.

The mother, who, like the daughter, is a smart looking mulatto woman, was present—as also her son-brother to the girl; as was also the proprietor of Diana, a neat looking colored woman. Mr. C. S. Spencer appeared in behalf of the mother and Mr. H. S. Lisson for defense. Mr. Spencer made a charge against the intention of Diana similar to that of latter against the mother and the girl has been seen round a notorious public house. On application of Mr. C., the case was postponed to Saturday.

U. S. DISTRICT COURT—Before Judge INGERSOLL.
ENDEAVOR TO MAKE A REVOLT, &C.

The trial of four of the crew of the ship Defiance, Capt. McCerren, for alleged attempt at mutiny, already referred to, was concluded yesterday. The charge of having attempted to take command of the ship &c., was abandoned, (as was supposed by the evidence) by the Assistant District Attorney, and the question for the Jury was whether the men had refused to do duty and had conspired, with that view, to resist the orders of the master, being an attempt at revolt. As to the points urged, in defense, of the men having been pressed, when tossed in an improper place (the run, which was very bad, and without proper ventilation with guano stowed under the floor, in the hold of the vessel, the odor from which was offensive) the Court, in its charge, told the Jury have nothing to do with that. If the Captain has inflicted, actuated by malice, cruel and unusual punishment he himself is liable for it under the act. The Jury returned a verdict acquitting Walker Ludwig and Rogers and finding Smith guilty of an attempt at revolt, with a recommendation to mercy.

The trial of Theodore A. Rosse, for alleged embezzlement of property from letters at the Post-Office, was called. Rosse (who is out on bail) appeared, but his counsel were not present, and the trial was adjourned to Monday.

Van A., it will be remembered, was arrested on the same charge some four months since on an order from Justice Stuart and an endorsement had and reported. Justice S. has not yet rendered any decision upon the case and this proceeding will probably supersede the necessity of his doing so. The alleged forgery grew out of transactions between defendant and a party in Canada as to drafts, and it is denied that there had been any forgery.

The whole sum was $192,978, of which part was paid. In defense it is alleged plaintiffs did not carry out their contract in the mode agreed upon, part of the iron having been forwarded out of time, and the Company put to great expense in procuring other iron, &c. They claim an offset of $48,000. Verdict for plaintiff, with interest, $94,683 25, subject to the opinion of the Court.

The steamer on Saturday will take some $300,000 or $400,000 in gold bars for France, although the rate of Exchange gives no profit on the shipment of gold.

Money is easier to-day in the Stock circles, but the demand from the mercantile circles is larger and the Banks do not discount freely. Paper is pressing on the market at 9 @ 10 ₱ cent for prime, and some good names have been sold at 12 ₱ cent.

Trade is not so active as last year at this time, but the opening of the river and canal will bring a large increase of buyers into market. The prices of foreign goods, especially French, are in many cases considerably higher than the import cost, and entire invoices, we understand, have been sold at a loss of 40 and 50 ₱ cent.

The Parker Vein line of steamships we hear is doing a large business. They have already made over two hundred trips between New-York and Baltimore, and are doing much to increase the business of the City. With the Baltimore and Ohio Railroad, this line of ships forms another connection with the West, by which large amounts of freights reach our wharves, and necessarily counteracts the effects of the closing of the Canals.

Both at Boston and Philadelphia the money market is more active.

The Philadelphia, Wilmington and Baltimore Railroad Company has made a semi annual dividend of 3 ₱ cent, payable on the 1st of April next.

The Boston Post alludes to a rumor that all the Railroad Companies in New England have combined to make a general rise in fares after the 1st of April, and that all the corporations in Boston decline to sell season tickets for a longer period than that. The present rates of fare throughout New England are about 2 cents ₱ mile.

The Canton Bank of Columbus, Ohio, has relinquished business, the charter having expired on the 1st of January last. The tax laws of Ohio are so burdensome upon the bank stockholders, that the bank capital of the State is gradually diminishing. The President and Cashier of the Clinton Bank and a number of the former stockholders have formed a private banking firm.

The Lake Superior Silver Mining Company have received an analysis of the lot of ore sent to England for assay:

"The two casks of copper and silver have been crushed and assayed for A. J. Smith, Esq., Secretary of the Lake Superior Silver Company, to whom the ore belongs, and it contains 252 oz. of fine silver to the tun of 20 cwt. of ore, and 16½ per cwt. of pure copper."

A letter says:

"ASSAY OFFICE, No. 79 Hatton Garden, LONDON, 5th Nov., 1853.

"The price of fine silver is about $1 35 per oz., (and the premium besides.) Now, then, if we can only get enough of this ore, L. S. S. stock will be worth par or over shortly; and the question of quantity I have no doubt of, and in any case, it will be decided in the spring."

The advices from the Douglass Houghton Mine up to the latest dates are quite favorable. It is believed the mine will make a considerable shipment in the spring. According to the report of the Superintendent, dated in January, the amount of ground open was 1,927 feet, shafts, levels, &c., 289 fathoms, stoping 20 fathoms, cutting down shafts, &c. The amount of ground ready for stoping is stated at 1,000 feet, which is calculated to yield $60,000 of copper, at a cost of $30,000. The working force on the mine is 65 men. The veins are all looking favorable.

The number of arrivals from foreign ports is greater than the number of direct clearances, as many vessels clear for a coastwise port to obtain an outward cargo. Notwithstanding that the rate of increase in the number of vessels and tonnage is about equal in foreign and domestic, the number of seamen employed in foreign vessels has fallen off, while in American vessels it has increased, as will be seen by the following comparison of the arrivals:
