FINANCIAL.

AIR LINE BONDS.
CONNECTICUT INVESTORS
will find the First Mortgage bonds of the New Haven, Middletown and Willimantic Railroad Company the most desirable form of investment now offered in the market.
The Bonds are exempt from every form of State or local taxation and from the United States income tax.
The average saving thus made will amount to two and one-half per cent, which, added to the interest received, makes them equal to a bond paying nine and one-half per cent, and this rate of income is not affected by a decline in gold.
The bonds are issued only as the work progresses, and for but one-half of the actual cash expenditures on the road. They are secured by a first mortgage on all the property of the company, of whatever kind. The State of Connecticut is made trustee for the bondholders, and every bond must be issued from the office of and be countersigned by the Comptroller. They are issued in denominations of $500 and $1,000, are coupon or registered, have twenty years to run, and are payable, principal and interest, in New York. The bonds are offered at par and interest.
